PURPOSE

The Student Course Guide has been developed for the students and parents of Parkway North to present important information about programs and courses offered to the students of North High. Students and parents should be able to combine the information in the guidebook with advice received from teachers, counselors, and administrators in order to make decisions about courses that will provide students with the education they need for their future plans. Students and parents are encouraged to utilize the Student Course Guide as a reference to use throughout the school year. The Student Course Guide is located on North’s website under www.parkwayschools.net.

We encourage parents and students to develop a four-year academic plan to guide them toward their post-graduation and career goals. It is important to select courses very carefully to fulfill that plan. Although this guidebook has explanations of each course approved for offering at North High School, questions often arise about course content or graduation requirements. Please address those questions to the high school counselors and principals.

PARKWAY SCHOOL DISTRICT
MISSION STATEMENT

To ensure all students are capable, curious, caring and confident learners who understand and respond to the challenges of an ever-changing world.

PARKWAY NORTH HIGH SCHOOL
MISSION STATEMENT

To develop self-directed, creative, critical thinkers who are socially responsible people prepared for an ever-changing world.

PARKWAY BOARD OF EDUCATION

Jeff Todd, President
Dr. Sam Sciortino, Vice President
Kristy Klein Davis, Director
Deborah Hopper, Director
Sudhir Rathod, Director
Matthew Schindler, Director
Kevin Seltzer, Director

ADMINISTRATIVE PERSONNEL

Dr. Keith Marty, Superintendent
Dr. Tori Cain, Principal
Dr. Rhonda Page, Assistant Principal, Class of 2023
Jada Bell, Assistant Principal, Class of 2022
Dr. Mike Rizzo, Assistant Principal, Class of 2021
Ben Flunker, Assistant Principal, Class of 2020
Bart Prosser, Activities/Athletics
Dr. Artondria Bentley, SSD Area Coordinator

GUIDANCE STAFF

Chandra Brown, Counselor, Class of 2023
Paul Arthur, Counselor, Class of 2022
Jamesell Kee, Counselor, Class of 2021
Anne Kraus, Counselor, Class of 2020
Christy Wills, College, Career & Transition Counselor
Alyssa Herrera, Social Worker

January 2019

Dear Students and Parents,

The curriculum at North High is rich, challenging, and relative to our students. The courses listed in this guide are the basis of all that we do here at North. I hope you will take time to read each description carefully in order to select courses that match your interests and challenge you academically. At the same time, you need to know which courses are required for graduation.

Prior to selecting courses for the coming school year, you will want to put together a four-year plan or review yours if you created one in the past. In order to take all the courses you want and meet the requirements for graduation, you need to look at the ‘big picture’ in addition to simply selecting courses for one year at a time. I would encourage you to have your parent(s), counselor, grade level principal, and your academic lab teacher look over your four-year plan. Also, be sure to ask your current teachers for their recommendations about which courses to take in the future. There are many people who can talk with you about which courses to select; ultimately, it’s up to you to make the final decision.

Students are required to earn credits in communication arts, math, science, social studies, practical arts and fine arts, as well as health, physical education and personal finance. The total number of credits required for graduation is 24. These state graduation requirements make it even more important for students to create a four-year plan and carefully select courses that are appropriate for them.

After all of you have selected your courses, we set out creating a master schedule for the whole school and deciding what courses we will offer each semester. That is how we determine how many teachers we need to have teaching each course. It is a very complex process which begins with you! Once we create the master schedule, it is difficult to make changes to schedules so I encourage you to think carefully about the courses you select.

I know we have wonderful courses and exceptional teachers. You will get out of high school what you put into it. I want every student to be as successful as possible and to push himself or herself to the next level of academic achievement. Have fun reading through this guide and let us know how we can help you.

Sincerely,

Tori Cain

The mission of Parkway North High School is to develop self-directed, creative, critical thinkers who are socially responsible people prepared for an ever-changing world.
REGISTRATION PROCESS
2019-2020

Wednesday, January 9  
Distribution of registration materials (Course Guide Link, Unofficial Transcript and Official Course Request Sheet) during Academic lab for NHS students only

Thursday, January 10  
Curriculum Evening  
6:00 pm (incoming freshmen meeting)  
7:00 pm (curriculum fair open to all)

Friday, January 11  
Course registration for freshmen during Academic lab both priorities

Tuesday, January 15  
Course registration for Sophomores 1st priority and Juniors 2nd priority during Academic lab  
Counselors meet with 8th grade students at Northeast Middle

Wednesday, January 16  
Counselors meet with 8th grade students at Northeast Middle  
Last day to enter Course Requests in Infinite Campus (portal closes)  
Final day to submit Official Course Request Sheet

COUNSELING SERVICES

Students are encouraged to become acquainted with their counselor. The more a counselor knows a student, the more helpful he/she can be. Time to see your counselor can be arranged by asking the Guidance secretary to make an appointment. Counselors help students in many different ways.

Counselors can:
- Discuss, confidentially, any personal problems and help students identify possible solutions.
- Consult with teachers and parents regarding students when they are having difficulties with academic progress.
- Help students explore career interests and investigate job opportunities.
- Help students understand the results of standardized tests.
- Help students prepare for transition to college.
- Review course selections to ensure all requirements for graduation have been included.
- Help select courses that meet educational and career objectives.

Any course that carries a weighted grade is so designated. All honor courses are designated with the word (Honors) following the course title and/or with a (+) symbol on the transcript. Selected courses offer an honors option, yet are not honors courses. This means, for the exceptional student, an H grade is possible through contracting. In the Course Guide, these courses are designated by “Honors Option” following the course title.

Many students are concerned about the number of honors courses to be taken, as well as planning for elective classes. Students should obtain departmental information and course descriptions in order to choose the appropriate classes. Students who have been recommended for honors courses in all core areas should consider whether this is the best option. Due to the amount of work to be completed and the pace the curriculum is covered, students should carefully weigh the number of honors courses chosen. Consideration should be given to the amount of time spent at sports, music, drama or other after school commitments.

SCHEDULE CHANGE PROCESS

Recommended Courses of Study

Several departments at North High follow a recommended course of study. These recommendations provide a tiered framework for development of instruction and concepts. While there may be special situations or circumstances that would suggest deviations from these recommendations, students and parents should consult with their North High guidance counselor and relevant department leader(s) before requesting deviation from these recommendations.

Prerequisites

Certain courses have prerequisites that must be fulfilled for a student to request course properly. The prerequisite courses include skills that must be mastered in order to be successful in subsequent courses. Prerequisites vary from course to course. As you select courses, you will want to consult the course descriptions found in the course guide. Please note that students who have earned a “D” in a prerequisite course will likely struggle in subsequent course work.

Parent-Initiated Placement

If a student believes his or her best interest will be served by varying from the recommended courses of study, he or she should consult their parents and complete the Parent-Initiated Placement form, which is available at www.parkwayschools.net/domain/926. Once submitted, you will be contacted whether or not it is approved. Decisions regarding approval are based upon class size and availability. **If a Parent-Initiated Placement is approved and student’s schedule is changed, the student will remain in the course for one semester.**

Schedule Change Guidelines

Students may request a change to their schedule to one of the Alternate Courses listed by the student in Infinite campus for the following reasons:

1. **Error:** If the course number has been incorrectly placed in the computer, the Official Course Request sheet will serve as a reference for substituting the correct course.
2. **Prerequisite Courses Not Met:** Many courses require a prerequisite. If a student has not met the necessary prerequisite, a new course will be substituted.
3. **Duplicate Credit:** Most courses may not be repeated for credit. A schedule change will be made if the student has requested a course for which they already received credit.
4. **Increased Rigor in Schedule:** A student requesting a schedule change to a more challenging course will be honored, provided space is available.

*Requests to change teachers, class period(s) or semesters will not be honored.*

Students should carefully consider course selections for the next school year. Student course requests provide input for creating the master schedule and determining teacher assignments. Avoiding class overloads and maintaining class balances are of primary importance once the master schedule has been established. **The schedule change guidelines above will be strictly enforced.**
PARKWAY GRADUATION REQUIREMENTS

The above requirements represent the minimum credits necessary for graduation from Parkway. Entrance requirements for universities/colleges may differ.

Fine Arts: Fulfilled through courses in Art (Visual Arts), Music or Theatre Arts.

GENERAL INFORMATION

The following terms and definitions may be helpful to students and parents:

- **Semester** – half school year, consists of 18 weeks.
- **Credit** – A full unit is awarded for a course that meets for two consecutive semesters (year). A course that meets for one semester yields ½ credit. Grades must be “D” or above to receive credit.
- **Cumulative Grade Point Average (GPA)** – The cumulative GPA is obtained by dividing the total grade points earned by the total credits attempted for a grade of A, B, C or D.
- **Prerequisite** – A requirement that must be met for eligibility to take a subsequent course. (Algebra I is the prerequisite for Geometry.)
- **Vocational – Technical Opportunities**
  - In a vocational work-study program, available to seniors, participants combine classroom instruction with on-the-job experience. For specific information regarding the Cooperative Education Program, contact the Business Department Team Leader. More than thirty-five career programs are available through the Vocational/Technical
  - High Schools operated by the Special School District. Most are two years in duration and students must attend either half-day or full-time. Transportation is provided by the Special School by the Special School District. Each program has its specific requirements. Applications must be completed and submitted.
This is a graphic record of your progress toward graduation. Shade in the appropriate box for each semester course you have taken and for which you have received credit. The unshaded boxes which remain are the courses you need to complete the requirements for graduation.

In order to graduate, **24** full credits (or 48 semester courses) must be earned. The specific number of credits needed for each subject area is indicated below the appropriate column.

<table>

<td>8 = 4 units</td>
<td>14 = 7 units</td>
<td>2 = 1 unit</td>
<td>3 = 1.5 units</td>
<td>3 = 1.5 units</td>
</tr>
</tbody>
</table>

*You must also pass the Missouri and US Constitution tests in order to graduate:

1.5 units taken in the following areas will satisfy the Career & Tech. Ed. requirement:

1 unit taken in the following areas will satisfy the Fine Arts requirement:

- **Missouri Constitution**
- **United States Constitution**

**Business Education**  
**Cooperative Education**  
**Art (Visual Arts)**  
**Theatre Arts**  
**FACS**  
**Technical Education**  
**Music**

COLLEGE & CAREER INFORMATION

NAVIANE

Students and parents will have access to a career and college readiness tool called Naviance. Naviance serves as a college and career readiness platform that helps students connect their academic achievement to post-secondary goals. The path to college and career readiness begins with self-discovery. Through self-discovery and collaboration with parents, teachers, and school counselors, Naviance enables students to find college and career pathways that are right for them. Naviance helps students explore their strengths and areas of interest, and matches those skills with college and career options.

Students start their career and college exploration by:
- Setting personalized goals
- Assessing personal strengths
- Exploring career options based on interests
- Searching for colleges
- Applying for scholarships
- And, tracking their admissions status

Naviance helps students plan a course of action to reach their goals, find resources to prepare academically, and discover their own path. Naviance also includes PrepMe for the ACT to prepare students for the ACT® assessment. PrepMe covers all of the concepts and skills tested on the ACT, including the essay and. PrepMe for the ACT includes: lessons, quizzes, diagnostic tests, and a full-length online practice ACT test.

NCAA GUIDELINES

The NCAA has established a central clearinghouse to determine initial eligibility for Divisions I and II student athletes. The NAIA also has an eligibility center for this purpose. All student athletes need to visit these websites about initial eligibility requirements PRIOR TO JUNIOR YEAR. We also ask that you know these requisite items (16 core specific courses for Division I and Division II) when signing up for classes and that you mention them to your counselor in any conversations pertaining to course selection. Students may register online at www.eligibilitycenter.org.

COLLEGE ENTRANCE

For students who wish to enter a college after graduation, it is important to plan toward this goal. College entrance requirements and course recommendations should be followed as much as possible. Graduation from high school does not ensure that a student has completed all courses necessary for college entrance. Each college has its own requirements. Counselors are available to help you plan your program and achieve your goals.

</table>
The A+ Program was created by the Outstanding Schools Act of 1993 as an incentive for improving Missouri's high schools.

Goals of the A+ Program:

- All students graduate high school.
- All students complete high school studies that are challenging and that have identified learner expectations.
- All students proceed from high school to college, post-secondary vocational/technical school, or a high wage job.

Participating High Schools are encouraged to

- Reduce the dropout rate.
- Raise academic expectations by eliminating general track courses.
- Provide career pathways for all students.

Student Eligibility:

1) Attend an A+ high school for three years immediately prior to graduation (10th-12th grade).
2) Earn an accumulative high school grade point average of a 2.5 grade point or higher on a 4.0 scale (non-weighted).
3) Maintain a 95% high school attendance record for the 4 year period (attendance is not rounded up).
4) Perform 50 documented hours of unpaid tutoring or community service through a non-profit organization:
   a. 25 hours MUST BE tutoring
   b. 12.5 hours may be job shadowing
5) Maintain a record of good citizenship and avoid the unlawful use of drugs and/or alcohol.
6) Make a documented good faith effort to secure federal post-secondary student financial assistance funds during the last semester of the senior year so as to obtain the A+ financial incentive (FAFSA).
7) Register for Selective Service, if applicable (as required by law).
8) Achieve score of proficient or advanced on the official Algebra I end of course exam OR a DESE approved end-of-course exam in the field of mathematics.
9) Be a US Citizen or Permanent Resident (verification takes place at post-secondary institutions).
10) To retain this eligibility after high school graduation, I understand that I must enroll and attend on a full-time basis a Missouri public community college or public career/technical school, AND maintain a grade point average of 2.5 or higher on a 4.0 scale.

Students who meet or exceed these requirements may be eligible to attend a Missouri public community college or vocational/technical school tuition-free. A student is eligible to access the funds up to 48 months from high school graduation. Other Missouri post-secondary institutions do not participate in the A+ Schools Program but may also offer financial incentives. Please contact individual colleges/universities for more information.

*Tuition reimbursement is contingent upon availability of state funds. All individuals required to register with the Selective Service must do so to be eligible for state-supported scholarships and programs for financial assistance for post-secondary education. Students must fill out the FAFSA no earlier than January of senior year in order to be eligible for A+ funding at the post-secondary institution. The financial incentives of the A+ Schools Program are dependent upon state appropriations from the Missouri General Assembly. The incentives are not the funding responsibility of the Parkway School District. Student financial incentives may be accessed over a 48 month period after graduation and are contingent upon legislative approval. Students must sign up for the A+ Schools Program no later than September 30th of their senior year.

**If you have any questions about the A+ Program, please contact Christy Wills at e-mail at cwills@parkwayschools.net. For additional information, visit our A+ link on the NHS website under Departments.
9TH GRADE COURSE REQUEST WORKSHEET

Students must have 16 semester courses and 6 alternate choices. Many of the courses are full year courses, which count as 2 semester courses. Required courses will be pre-assigned. You will see these courses when you login to the Online Registration Portal under “Required Courses.” Remember to enter both semesters of a full-year course. Enter your requested courses and alternate courses in the Online Registration Portal and also on this worksheet in the spaces provided.

Courses in this section are an entire year.

10TH GRADE COURSE REQUEST WORKSHEET

Students must have 16 semester courses and 6 alternate choices. Many of the courses are full year courses, which count as 2 semester courses. Required courses will be pre-assigned. You will see these courses when you login to the Online Registration Portal under “Required Courses.” Remember to enter both semesters of a full-year course. Enter your requested courses and alternate courses in the Online Registration Portal and also on this worksheet in the spaces provided.

Courses in this section are an entire year.

COURSE OFFERINGS FOR
PARKWAY NORTH HIGH SCHOOL
2019 - 2020

Please be advised that the courses listed in this guide are offered on the basis of sufficient enrollment.

Note: “AP” refers to “Advanced Placement” courses for which students may opt to pay a nominal fee to attempt to test out of these courses in colleges that accept AP credit (see p. 86).

*Indicates course is not approved by the NCAA Clearinghouse
ART (Visual Arts)

The Art Department offers a comprehensive variety of courses which are designed to enhance the individual artistic abilities of all students. The process of communication is based largely on the written word and vision. Visual communication cannot effectively take place unless one has learned the language of visual art.

DRAWING I and DESIGN ARTS will serve as an introductory prerequisite for most other studio art classes. DRAWING I teaches skill development and how to see and understand visual form. DESIGN ARTS develops compositional skills through the study of the elements and principles of design. DIGITAL DESIGN may be taken as an introductory class for all but DRAWING 2, PAINTING or AP STUDIO. The Art Department reserves the right to select art work for exhibition throughout the year.

At least one art course should be an essential part of every student's basic education.

**NOTE:** *ONLINE COURSES ONLY*
027000
DESIGN ARTS
Grades: 9-12
½ Fine Arts credit
Prerequisite: None

Design Arts provides students an opportunity to develop projects based on the knowledge, understanding, and application of the elements of art and principles of design. Students will experience the creative problem solving process, learn technical skills in a variety of media and learn to verbally evaluate their work and the work of others.

027100
DRAWING
Grades: 9-12
½ Fine Arts credit
Prerequisite: None

Students will be taught how to use line, shape, value, and compositional strategies to create drawings from observation. A variety of subjects will be covered, some of which might be still life, portraits, figure drawings, landscapes, and interiors. A variety of materials will be used.

027120
DRAWING 2
Grades: 9-12
½ Fine Arts credit
Prerequisite: Drawing

This course is for the student who loves to draw and wishes to pursue in-depth work with new and familiar techniques and materials. Color theory may be studied and used. Original ideas will be expressed through classroom assignments.

027200
CERAMICS
Grades: 9-12
½ Fine Arts credit
Prerequisite: Design Arts, Digital Design, Drawing, or Instructor Approval

Instruction is offered in the materials, techniques, equipment, and vocabulary of ceramic art, including pottery and other forms. Hand-built and wheel-thrown forms may both be taught. Emphasis will be on skill development and craftsmanship using clay as a medium of expression. (Advanced Credit or Dual Credit Option)

027220
CERAMICS 2
Grades: 10-12
½ Fine Arts credit
Prerequisite: Successful completion of Ceramics

Students will further improve and refine their skills on the potter's wheel. They will undertake more complex hand-building projects and will learn and become responsible for the mechanics of a ceramic studio such as mixing glazes, stacking and firing kilns, recycling clay, and maintaining equipment. (Advanced Credit or Dual Credit Option)

027240
SCULPTURE
Grades: 9-12
½ Fine Arts credit
Prerequisite: Digital Design, Drawing, Ceramics or Instructor Approval

A study of art in the third dimension offers the student a selection from the following approaches: carving, modeling, casting, and assemblage. A variety of materials such as clay, stone, wood, wax and metals are used. Special emphasis is placed on the manipulation of the relationship of mass and space. Safe practices in the care and use of tools are stressed. (Advanced Credit or Dual Credit Option)

027250
ADVANCED 3-D STUDIO
Grades 10-12
½ Fine Arts credit
Prerequisite: Sculpture and Ceramics 2

Work in this course will continue to develop the skills and concepts learned in Sculpture and Ceramics 2. Students will undertake more in-depth assignments that will add to their portfolio while allowing creative development and personal expression.
027300
PHOTOGRAPHY
Grades: 10-12
½ Fine Arts credit
Prerequisite: Design Arts, Digital Design or Drawing

Students can learn to produce good photographs. Instruction includes operation and use of a single-lens reflex camera, black and white film processing, and darkroom enlarging procedures. While the development of technical skill is necessary, the application of artistic concepts is essential in the production of photography as an art form. Students may be asked to purchase consumable supplies for this course.

027320
PHOTOGRAPHY 2
Grades: 10-12
½ Fine Arts credit
Prerequisite: Photography

Work in Photography 2 will continue to build on the basic concepts and skills learned in Photography. Students will have an opportunity to experiment and work in-depth with a single-lens reflex camera and digital cameras. Advanced darkroom procedures will be extended and creative, open-ended assignments will be utilized. Students may be asked to purchase consumable supplies for this course.

027330
PHOTOGRAPHY 3
Grades: 11-12
½ Fine Arts credit
Prerequisite: Photography and Photography 2 or Teacher Recommendation

The purpose of this course is to provide highly motivated and proficient students an opportunity to continue their course work in photography. Students will concentrate on perfecting their skills in 35mm manual photography. Mastery and exploration of current image taking, developing and darkroom techniques are expected. The exploration of historical and traditional print making methods will be combined with various contemporary approaches and techniques to enhance the students’ knowledge base. The use of some medium format and digital cameras will also provide alternative image-taking opportunities. Students may be asked to purchase consumable supplies for this course.

027500
PAINTING
Grades: 9-12
½ Fine Arts credit
Prerequisite: Drawing

In this course one can learn to paint using the techniques and materials that could include: acrylics, oils, pastels, opaque and transparent watercolors. Emphasis is placed on developing color schemes and compositional skills necessary for effective personal expression. Students may register through University of Missouri - St. Louis to receive Painting college credit.

027500
PAINTING
Grades: 9-12
½ Fine Arts credit
Prerequisite: Drawing

In this course one can learn to paint using the techniques and materials that could include: acrylics, oils, pastels, opaque and transparent watercolors. Emphasis is placed on developing color schemes and compositional skills necessary for effective personal expression. Students may register through University of Missouri - St. Louis to receive Painting college credit.

027810
DIGITAL DESIGN
Grades: 9-12
½ Fine Arts credit
Prerequisite: None

Digital Design will explore elements and principles of art through computer imagery. Students will use drawing, digital photography, scanning and manipulation of images and text to understand graphic design. Photoshop and Illustrator software will be used to create complex and diverse images that may be incorporated into an art portfolio.

027820
DIGITAL DESIGN 2
Grades: 10-12
½ Fine Arts credit
Prerequisite: Digital Design

Digital Design 2 will build upon skills developed in Digital Design. Students will continue to problem solve more complex and challenging graphic visual ideas and will use more sophisticated Photoshop and Illustrator techniques. Projects may be incorporated into an art portfolio.

029781 & 029782 (Year-long)
AP STUDIO ART
Grades: 11-12
1 Fine Arts credit
Prerequisite: Instructor Approval

The honors level AP Studio Art is structured as a college course. Its purpose is to enable those enrolled to work toward building a portfolio for assessment by the College Board in AP Studio Art. This course is intended for highly motivated students committed to a serious study of studio art. AP Studio Art involves a higher level of proficiency and significantly more time than other high school art courses. Performance in other studio courses will be the criterion for placement in this class. Quality of the work should reflect first year college level standards. A weighted grade is given.

037010
INTRODUCTION TO COMPUTER TECHNOLOGIES
Grades: 9-12
½ CTE credit
Prerequisite: None

The purpose of this course is to provide students with an opportunity to develop a strong foundation in computer and information literacy. This course is a broad introduction to the use of computers as tools for creativity, communications and organizing information. Students will learn about online tools, word processing and spreadsheet software, as well as publishing and presentation software. Students will learn how to use computers flexibly, creatively and purposefully. All learners will be able to recognize what they need to accomplish and determine how they can utilize their digital literacy skills and knowledge to best approach the task. *(Introduction to Computer Technologies is the recommended beginning course for the Information Technology and Digital Media strands.)*

037100
PERSONAL FINANCE
Grades: 10-12
½ Personal Finance credit
Prerequisite: None

Understanding and managing personal finances are key to one’s future financial success. This one-semester course is based on the Missouri Personal Finance Competencies and presents essential knowledge and skills to make informed decisions about real world financial issues. Students will learn how choices influence occupational options and future earning potential. Students will also learn to apply decision-making skills to evaluate career choices and set personal goals. The course content is designed to help the learner make wise spending, saving, and credit decisions, and to make effective use of income to achieve personal financial success. This course is available for dual credit through Missouri State University for all eligible Parkway students.

This course is also available as a completely virtual/online course. Students who are interested should contact their counselor regarding the process for enrolling in an online course.

037270
MICROSOFT OFFICE
Grades: 9-12
½ CTE credit
Prerequisite: It is recommended that students be able to type at least 30 words per minute without looking at their hands or have successfully completed any of the following courses: Introduction to Computer Technologies or Keyboarding.

Microsoft Office is designed for students who are proficient using the keyboard and want to learn advanced skills in the Microsoft Office Suite. Skills learned in this course will be useful for students while furthering their education and in their future career. Students will learn ways to enhance documents in Word, develop professional spreadsheets and charts in Excel, create high-quality presentations in PowerPoint, and design useful databases in Access. Junior and senior students meeting certain criteria may register with Missouri Baptist University through this course and receive credit for Survey of Computing – BCIS 103. In addition, for students meeting certain criteria, college credit is also available through an articulation agreement with St. Louis Community College.

037280
BRANDING & DESIGN CONCEPTS
Grades: 9-12
½ CTE credit
Prerequisite: It is recommended that students complete Introduction to Computer Technologies, Web Design or MS Office

Students will create a variety of documents using industry standard software, graphic elements, and effective design principles. This course will assist students in producing documents that communicate effectively using the skills to apply good design. Students will learn how to produce and print personal and professional publications using industry standard software. It is highly recommended that students have taken Introduction to Computer Technologies, Web Design, or Microsoft Office and have prior computer knowledge such as opening and saving files, file management, word processing software, and keyboarding.
037310
INTRODUCTION TO COMPUTER SCIENCE
Grades: 10-12
½ CTE credit
Prerequisite: None

This course is designed to provide students with a solid introduction to programming language. The course will provide students with a base of fundamentals in software development. Emphasis is placed on the development of problem solving algorithms and logic. Students learn to develop real life applications that involve the prerequisite to the AP Computer Science course.

037350
INTRODUCTION TO BUSINESS
Grades: 9-10
½ CTE credit
Prerequisite: None

This course will provide a solid foundation in business principles which are immediately applicable to students' lives. Through the use of interactive technology, simulations, presentations, and project management students are made aware of the integral role that they play in today's ever-changing global economy. The units presented are economics, entrepreneurship, marketing, and accounting/management. Upon completion of this course, students will be equipped with the foundational skills necessary to succeed in any of the Business and Marketing pathways offered in the Parkway School District.

037111 & 037112 (Year-long)
ACCOUNTING 1
Grades: 10-12
1 CTE credit
Prerequisite: Sophomore, Junior or Senior standing

Students interested in learning how businesses operate, students interested in accounting or business as a major in college, and students interested in learning about keeping the financial records for their own business in the future, can all benefit from taking Accounting I. Students will learn financial accounting concepts including the accounting equation, the accounting cycle, entering transactions, posting to ledgers, preparing financial statements and payroll systems. Students will learn to utilize spreadsheet programs and automated accounting software to perform accounting procedures. Connections between accounting principles, the business world, as well as career opportunities in accounting are provided sophomores and juniors are encouraged to take this course so they may elect to take Accounting II. College credit is available for students meeting certain criteria, through an articulation agreement with St. Louis Community College. Senior students may also participate in the Business Internship Program.

038121 & 038122 (Year-long)
ACCOUNTING 2 (HONORS)
Grades: 11-12
1 CTE credit
Prerequisite: Accounting 1

Accounting II gives students the opportunity to apply their knowledge from Accounting I by mastering advanced accounting activities and concepts. The topics included are departmentalized accounting, inventory planning, depreciation, notes, accrued expenses and revenues, stocks, bonds, and dividends. Students will continue to utilize spreadsheet programs, and automated accounting software to perform accounting procedures. Accounting II provides the foundation of skills and knowledge with which to pursue study in college or enter the work world. Students meeting certain criteria may register with Missouri Baptist University through this course and receive credit for Principles of Financial Accounting ACCT 213. An honors grade may be earned and senior students may also participate in the Business Internship Program.

037550
BUSINESS MANAGEMENT
Grades: 11-12
½ CTE credit
Prerequisite: Junior or Senior standing

This course provides an overall perspective of the organizational structure of a business and laws that apply. Topics include human resources management, business ethics, employee relationships, management techniques, forms of business ownership, and the legal aspects of each. This is an excellent college preparatory course for the business-oriented student.

037570
WEB DESIGN 1
Grades: 9-12
½ CTE credit
Prerequisite: None

Web Design 1 provides the student with a solid knowledge base to design, build, manage and publish dynamic content for the web. This course focuses on the overall production process with particular emphasis on design elements involving layout, navigation and interactivity. The students will create web pages that effectively communicate a message to a variety of audiences. Prior computer experience is recommended.

<td>Learn the basics of app design, and take the first step on your journey to becoming an app developer! This course is designed for students who are new to programming, and want to learn how to build applications. A basic background in Java programming is recommended. Your experience and knowledge gained in the Intro to Computer Science course will provide a strong foundation for developing an application. If you love being creative, learning to code, and using technology, then you are our perfect target student. By the end of the course, you will build a fully functioning, yet powerful, application that can be shared with others. In summary, this course lays the foundation for people who want to better understand the overall role of an application developer and become a skilled creator, not just a consumer, of technology.</td>

037661 & 037662 (Year-long)
ENTREPRENEURSHIP: VIRTUAL ENTERPRISE INTERNATIONAL
Grades: 10-12
1 CTE credit
Prerequisite: 1.0 credits in business education courses

Virtual Enterprises International (VEI) is an in-school entrepreneurship program and global business simulation that draws on the European tradition of apprenticeships, transforming students into business professionals with an entrepreneurial mindset by bringing the workplace into the classroom. Students learn about business by doing business with coaching from industry professionals. Open to all students, VEI empowers and motivates participants to develop a range of academic, business, technology and professional skills that prepare them for success in postsecondary education, employment and the community. The VEI Approach Using a student-centered approach that emphasizes project-based collaborative learning, VEI replicates the functions and demands of real businesses in both structure and practice. With the guidance of a teacher-facilitator and a business partner, VEI students establish and manage a virtual company, conducting business with other companies domestically and internationally. Students are involved in all aspects of running the business, including human resources, accounting, product development, production, distribution, marketing, and sales. Guided by a task-based curriculum rather than a textbook, VEI students produce the key deliverables that are required in a real business. Students are assigned to work in different departments, typically Administration, Accounting/Finance, Sales, Marketing, Human Resources and IT. The class selects a CEO and managers who oversee each department. Working in teams to make decisions about how to complete their departmental tasks in support of company goals and objectives, students learn from both their successes and mistakes.

037701 & 037702 (Year-long)
BUSINESS, MARKETING AND INFORMATION TECHNOLOGY INTERNSHIP
Grades: 11-12
½ CTE credit per semester (10 work hours per week)
1 CTE credit per semester (20+ work hours per week)
Exceptions occur. See coordinator for special circumstances.
Prerequisite: Junior or Senior standing
Must be able to provide own transportation. Students must complete an application and should have successfully completed one credit within business, marketing or information technology course. It is suggested that students concurrently enroll in a business, marketing or information technology course.

This business, marketing and information technology internship opportunity is an agreement between you, a company or organization, and your high school. You agree to work for the company, and they agree to mentor and teach you about careers that you are interested in. The internship program can offer valuable insight into a particular field or career. The internship program is a proven way to gain relevant knowledge, skills, and experience while establishing important connections in the field. The internship program is also a way to get your feet wet and find out if a specific field is something you could see yourself doing as a full-time job in the future. This program can lead to increased levels of clarity when declaring a college major or pursuing work after high school.
039321 & 039322 (Year-long)
AP COMPUTER SCIENCE A
Grades: 11-12
1 CTE credit
Prerequisite: Introduction to Computer Science

The major emphasis of this course is on programming methodology, algorithms, data structures, and object oriented programming. Computer applications are used to develop student awareness of the need for these topics, as well as to provide topics for individual programming assignments. This course prepares students to take College Board Advanced Placement Computer Science an examination. A weighted grade is given.

039251 & 039252 (Year-long)
AP COMPUTER SCIENCE PRINCIPLES
Grades: 11-12
1 CTE credit
Prerequisite: None

Computer Science Principles (CS Principles) curriculum is a full-year, rigorous, entry-level course that introduces high school students to the foundations of modern computing. The course covers a broad range of foundational topics such as programming, algorithms, the internet, big data, digital privacy and security, and the societal impacts of computing. A weighted grade is given.

047751 & 047752 (Year-long)
MARKETING 1
Grades: 10-12
1 CTE credit
Prerequisite: None

Marketing 1 introduces the student to the field of marketing. Students will know the principles of marketing which include product, price, place and promotion. Students will be able to apply the principles of marketing to develop marketing strategies and plans in a global marketplace. This course will offer a competitive edge to students pursuing a marketing career and/or a business major in college. Course work includes individual and group projects, guest speakers, field trips, leadership activities, business, and community involvement.

047761 & 047762 (Year-long)
MARKETING 2
Grades: 11-12
1 CTE credit
Prerequisite: Marketing 1 or Instructor Approval

This course is designed to provide an in-depth study in the principles of marketing. Students will be able to develop a marketing plan and explain how external factors influence marketing decisions. Students will have the opportunity to participate in class projects that are designed to encourage decision-making and personal leadership development. Students may register through Missouri State University to receive college credit for this course.
Spark! provides high school students in the Parkway School District with dynamic, immersion-based student learning experiences to ensure students can understand and respond to an ever-changing world. To accomplish this task, the Parkway School District will actively engage and work collaboratively with business partners, community service and educational leaders to design and develop mutually beneficial learning experiences based on the interests of students and stakeholders. Spark! serves students from Parkway North, Parkway South, Parkway West, Parkway Central and Fern Ridge High Schools. Spark! is an example of how business, community and public education can partner to produce personalized learning experiences that educate the workforce of the future, especially in high skill, high demand jobs. Visit www.parkwayspark.com to apply for Spark! Experiences.

Why Should You Choose Spark!?
- 24% of Spark! participants reported they received Scholarships because of their Spark! experience
- 13% of Spark! participants reported they received Internships because of their Spark! Experience
- 14% of Spark! participants reported that their Spark! experience assisted with College Admissions

207491 & 207492 (Year-long)
SPARK! BIOSCIENCE
Grades: 11-12
2 Electives credits
Prerequisite: Junior or Senior standing

Want to learn more about living organisms through regular interactions with academic and business experts and trips to local institutions? Try out Spark! Bioscience. This program provides students with a passion for the biological sciences the opportunity to work with experts in the field. If your interests lie with the micro or macro, with plants, animals, or humans, this experience will provide opportunities for research, inquiry, and project based learning. College credit is available through St. Louis Community College. Spark! Bioscience meets at BRDG Park. All Spark! students will be able to earn up to 4 elective credits for the year-long experience based on the number of competencies mastered. More information regarding the competency-based credit model will be shared prior to the start of the school year.

207431 & 207432 (Year-long)
SPARK! ENGINEERING
Grades: 11-12
2 Electives credits
Prerequisite: Junior or Senior standing

Spark! Engineering is modeled after cutting-edge engineering schools like, MIT School of Engineering, Olin College of Engineering, Stanford School of Engineering, Purdue University, inspired by Project Lead the Way, and endorsed by local universities. The course is designed for students who are interested in engineering and manufacturing fundamentals, entrepreneurship, and innovation. Immerse yourself with engineers and manufacturers using state-of-the-art tools and software to create and test 3D prototypes solving complex problems. Apply lean manufacturing processes that create value for customers and drive out the waste in production. Students experience hands-on, active learning with full immersion in real-world projects sponsored by business partners. Students work in multi-disciplinary teams to provide innovative solutions to a company’s real-world problems. Engineering projects are tailored to student interest in the fields of chemical, electrical, mechanical, civil, environmental, software/computer, architectural, advanced manufacturing, robotics, biological, and environmental. College credit is available through St. Louis Community College. Spark! Engineering meets at Maryville University in the Cyber Fusion Center. All Spark! students will be able to earn up to 4 elective credits for the year-long experience based on the number of competencies mastered. More information regarding the competency-based credit model will be shared prior to the start of the school year.
Why the Spark! Incubator? Industry states 51% of college graduates are lacking the skills essential for success in the professional workplace. Spark! Incubator provides a safe, challenging and innovative environment that exposes students to real entrepreneurial opportunities with the support of industry and community leaders designed to: Discover passions in an authentic experiential learning environment; Develop critical thinking, leadership, communication, curiosity, grit, perseverance, creativity and time management skills; Fostering a growth mindset; Build confidence Spark! entrepreneurs will validate their ideas, perfect a pitch, and seek resources and opportunities that foster growth mindset through start-up launch endeavors. The Spark! Incubator is located at Chesterfield Mall. Dual credit is available through Maryville University and Missouri State University. All Spark! students will be able to earn up to 4 elective credits for the year-long experience based on the number of competencies mastered. More information regarding the competency-based credit model will be shared prior to the start of the school year.

Spark! Pre-Professional Health Sciences Academy is an engaging experience that examines the dynamic and diverse field of medicine and healthcare. During this experience, students will be exposed to the variety of opportunities and benefits of careers related to health sciences. Spark! Pre-Professional Health Sciences Academy participants will expand upon principles of human physiology, develop fluency in basic medical terminology, formulate treatment plans for patients and engage in First Aid and CPR training. Students will receive essential foundational knowledge based on industry demand, while also participating in clinical experiences across the continuum of care that may consist of job shadows, group projects, service learning and individualized mentorship. Diverse healthcare professionals will serve as guest lecturers and outside learning experiences will involve site visits to a variety of medical and healthcare facilities. Articulated credit is available through St. Louis Community College. All Spark! students will be able to earn up to 4 elective credits for the year-long experience based on the number of competencies mastered. More information regarding the competency-based credit model will be shared prior to the start of the school year.

Spark! Teaching and Learning immerses students in teaching and learning. Students will understand learning styles, teaching methodologies, technology integration, cultural responsiveness and a focus on data-driven decision making in the schooling system. Students will engage in a collaborative relationship between teachers, administrators, students and families. This experience will focus on the general theory and practice of learning and teaching; the basic principles of educational psychology; the art of teaching; the planning and administration of educational activities; school safety and health issues; and the social foundations of education. Students will experience the true essence of the teaching and learning process through observation, interaction and teaching. Spark! Teaching & Learning meets at Highcroft Ridge Elementary School in the Parkway School District. Dual credit is available through University of Missouri - St. Louis, Lindenwood University and Maryville University. All Spark! students will be able to earn up to 4 elective credits for the year-long experience based on the number of competencies mastered. More information regarding the competency-based credit model will be shared prior to the start of the school year.

Students in Spark! Technology Solutions will discover a vast array of specialty areas available in technology careers where professionals utilize technology to solve business problems and design products. Students are immersed in a professional environment tackling and solving real world problems while working on client-defined projects and tasks. Students may be exposed to the following areas: software engineering, web development, operating systems, hardware technologies, network design/technologies, management information systems, media (print, film, web) or emerging technologies. College credit is available through Maryville University. Spark! Technology Solutions is located in the Cyber Fusion Center at Maryville University. All Spark! students will be able to earn up to 4 elective credits for the year-long experience based on the number of competencies mastered. More information regarding the competency-based credit model will be shared prior to the start of the school year.
Because virtual instruction can be an effective education option for some students, there may be courses available either through a district-provided virtual option or through the Missouri Course Access Program (MOCAP). More information about Parkway Virtual courses and MOCAP courses can be found on our website at [www.parkwayvirtual.com](http://www.parkwayvirtual.com).

Virtual learning or "Complete Virtual Learning" as it is often called, refers to a course that is taken completely online by the student. The student does not attend a traditional "brick and mortar" school building to take a virtual course. Communication with the instructor and other students is done primarily via electronic communication.

Over the past decade, virtual learning has grown into a standard practice in many school districts around the country. In 2007, there were an estimated 1,000,000 enrollments in K-12 online learning in the United States. The creation of virtual learning environments in the Parkway School District, will allow our schools to expand their curricular offerings in advanced and specialty courses as well as technical, remedial, and required courses. Classes will be designed to meet a variety of learning styles and needs. A virtual learning program has the potential to be a major factor for educational reform in Parkway. By providing students with a virtual learning option for courses, Parkway directly addresses the mission of creating curious, confident and capable students in an ever changing world. This puts our graduates at an advantage as they further their learning in the future in that they will have the experience and the confidence of having worked in a virtual learning environment. Furthermore, a virtual learning environment has the potential to increase the graduation rate and performance in all groups of students, as well as provide flexibility in when/how they complete their coursework.

The goal of the Parkway virtual learning initiative is to offer students a flexible, online alternative to extend and enrich learning as well as complete a portion of their course work. All courses will:

- Meet the goals of the Parkway Mission
- Address state and federal standards
- Be delivered primarily over the Internet
- Provide opportunities for student collaboration, group work and personalized instruction through virtual interaction with teachers and peers.

Virtual courses are listed on next page

Visit the virtual learning website.
http://goo.gl/ger8qJ
029560V  
**AP ART HISTORY 1: PREHISTORIC TO EARLY RENAISSANCE**  
Grades: 11-12  
½ Fine Arts credit  
Prerequisite: None

This course is an exciting study of Western and Non-Western painting, sculpture, and architecture from the Prehistoric to early Renaissance periods. Artworks will be presented in the historical, social, and political contexts in which they were created. The fundamental skills necessary to analyze art will be developed. Both Advanced Placement courses, Art History 1 and 2 are necessary to prepare students to take the Advanced Placement examination. It is best to take AP Art History 1 and 2 sequentially. This course can be taken for three college hours of credit through University of Missouri-St. Louis. A weighted grade is given. This course is also available as a completely virtual/online course. Students who are interested should contact their counselor regarding the process for enrolling in an online course.

029570V  
**AP ART HISTORY 2: RENAISSANCE TO CONTEMPORARY**  
Grades: 11-12  
½ Fine Arts credit  
Prerequisite: Art History 1 recommended

This course is an exciting study of Western and Nonwestern painting, sculpture, and architecture from the Renaissance to Contemporary. Artworks will be presented in the historical, social, and political contexts in which they were created. The fundamental skills necessary to analyze art will be developed. Both art history 1 and 2 are necessary to prepare students to take the College Board Advanced Placement examination. It is best to take both art history courses sequentially. AP Art History 2 can be taken for three college hours of credit through University of Missouri-St. Louis. A weighted grade is given. This course is also available as a completely virtual/online course. Students who are interested should contact their counselor regarding the process for enrolling in an online course.

037101V  
**PERSONAL FINANCE**  
Grades: 10-12  
½ Personal Finance credit  
Prerequisite: None

Understanding and managing personal finances are key to future financial success. This one-semester course is based on the Missouri Personal Finance Competencies and presents essential knowledge and skills to make informed decisions about real-world financial issues. Students will learn how choices influence occupational options and future earning potential. Students will also learn to apply decision-making skills to evaluate career choices and set personal goals. The course content is designed to help the learner make wise spending, saving, and credit decisions and to make effective use of income to achieve personal financial success. This course is available for dual credit through Missouri State University for all eligible Parkway students. Students who are interested should contact their counselor regarding the process for enrolling in an online course.

107241V  
**CYBERSECURITY**  
Grades: 9-12  
½ CTE credit  
Prerequisite: None

Cybersecurity introduces the tools and concepts of cybersecurity and encourages students to create solutions that allow people to share computing resources while protecting privacy. Nationally, computational resources are vulnerable and frequently attacked: in Cybersecurity, students solve problems by understanding and closing these vulnerabilities. This course raises students’ knowledge of and commitment to ethical computing behavior. It also aims to develop student’s skills as consumers, friends, citizens, and employees who can effectively contribute to communities with a dependable cyber-infrastructure that moves and processes information safely.

057541V  
**COMPARATIVE MYTHOLOGY**  
Grades: 10-12  
½ English Credit  
Prerequisite: None

Students will explore and examine the myths of many cultures from around the world. Through analysis and comparison, students will gain an understanding and appreciation of the importance of myths throughout various places and times.
037901V
FOUNDATIONS OF VIDEO GAME DESIGN
Grades: 9-12
½ CTE credit
Prerequisite: None

This virtual course will provide students with a complete understanding of the creative and technological sides of video game design. The course will introduce students to the different areas of game design. From design, integration, and marketing, students will be introduced to the complete cycle of video game design. Along with exploring the profession of video game design, students will be introduced to another avenue of computer science. This course is an introductory course for students with an interest in computer programming, computer science, web design and multimedia. All classwork will be completed online.

077101V
HEALTH & WELLNESS
Grade: 10
½ Health credit
Prerequisite: None

Health and Wellness education is required for all students during their sophomore year. This comprehensive course includes the topics of personal wellness, nutrition, safety and first aid, disease prevention, human sexuality and healthy relationships, substance abuse and prevention, and community and environmental health. This course meets the 1/2 credit health education requirement for high school graduation. Students who are interested should contact their counselor regarding the process for enrolling in an online course.

067512V (Year-long)
AMERICAN SIGN LANGUAGE 1
Grades: 9-12
1 Elective credit
Prerequisite: None

American Sign Language (ASL) 1 is an introduction to the most widely used sign language in the United States. Students will study the basic vocabulary, structure, syntax, and grammar of ASL. Students will focus on mastering the basics of finger spelling, facial grammar, and sentence structure; and will also learn conversational/cultural behaviors necessary to hold a beginning-level conversation in ASL, with deaf/hard-of-hearing native users of the language. Introductory information about deaf culture will also be provided to students with a broad picture of language and culture. This course is intended for students that have little to no experience with ASL. Subsequent levels of this course will be dependent on student enrollment.

067522V (Year-long)
AMERICAN SIGN LANGUAGE 2
Grades: 10-12
1 Elective Credit
Prerequisite: American Sign Language 1

American Sign Language (ASL) 2 is for students at a proficiency level that are able to express uncomplicated communicative tasks in straightforward practical and social situations and want to be able to do more with ASL. Students will continue to compare and contrast spoken English/hearing culture and ASL/Deaf culture in greater depths and more detail. By the end of the course, students will be able to use the language to communicate for many different purposes such as telling stories, talking about the past, giving preferences and opinions, describing people, things, and places, and making requests. Emphasis will be on learning to communicate in ASL. This course and subsequent ASL courses will be offered based on student enrollment.
067421V & 067422V (Year-long)
JAPANESE 2
Grades: 10-12
1 Elective credit
Prerequisite: Japanese 1

This course is designed for students who can function in the Japanese language at a very basic level and wish to improve and expand their skills in understanding, speaking, reading, and writing. Emphasis will be on learning to communicate in the Japanese on topics of daily life, with frequent use of paired practice, small group work, and role plays. Students will increase their range of expression, learning to use the language for many different purposes, such as the following: expressing feelings, preference, and opinions; describing people, things, and places; and making requests. Students will read descriptions of life in the country of Japan and be introduced to various examples of authentic text found in the culture such as signs, advertisements and letters. A great variety of up-to-date materials will be used in class. This course is also available as a completely virtual/online course.

067611V & 067612V (Year-long)
MANDARIN CHINESE 1
Grades: 9-12
1 Elective credit
Prerequisite: None

This course is designed for students with no background knowledge in Mandarin Chinese and wish to develop skills in understanding, speaking, reading, and writing. Emphasis will be on learning to communicate in Mandarin Chinese on topics of daily life, with frequent use of paired practice, small group work, and role plays. Students will be introduced to using the Mandarin Chinese language for many different purposes, such as the following: expressing feelings, preference, and opinions; describing people, things, and places; and making requests. Students will read basic descriptions of life in the country of China and be introduced to various examples of authentic text found in the culture such as signs, advertisements and letters. A great variety of up-to-date materials will be used in class. This course is available as a completely virtual/online course.

067621V & 067622V (Year-long)
MANDARIN CHINESE 2
Grades: 10-12
1 Elective Credit
Prerequisite: Mandarin 1

The Virtual Mandarin Chinese 2 course is the second year of the Chinese language program. It is designed for those who have taken Virtual Mandarin Chinese 101. The course aims at further developing fundamental language skills. All four skills (speaking, reading, listening, and writing) will be emphasized and learned in communicative context. Many aspects of everyday Chinese culture will be introduced through all sorts of activities. By the end of the semester, students are expected to be able to engage in basic daily conversation, read simple texts as well as write for daily needs. Accurate tones and pronunciation are expected.

117901V
STATISTICS
Grade: 11-12
½ Math credit
Prerequisite: Algebra 2

In this introductory course, students will collect data and use statistics as tools to recognize and examine the basic principles of describing and presenting data to reach reasonable conclusions. Students will explain the role of probability in statistics, analyze and compare various sampling distributions for both discrete and continuous random variables, and compute confidence intervals. The presentation, use, and interpretation of data, probability, sampling, correlation, and use of statistical software will be applied to current events and student directed investigations. This course is available as a completely virtual/online course. Students who are interested should contact their counselor regarding the process for enrolling in an online course.

119901V & 119902V (Year-long)
AP STATISTICS
Grades: 11-12
1 Math credit
Prerequisite: Algebra 2 with Trigonometry

This Advanced Placement course is for students who wish to complete the equivalent to an introductory, non-calculus based, college course in statistics. Students gain experience in four broad themes: exploring data, planning a study, anticipating patterns, and statistical inference. This course prepares students to take the College Board Advanced Placement Statistics examination and follows the College Board's recommended syllabus. A weighted grade is given. This course is available as a completely virtual/online course. Students who are interested should contact their counselor regarding the process for enrolling in an online course.
TRIGONOMETRY
Grades: 11-12
1 Math credit
Prerequisite: Algebra 2

In this course, classical right triangle trigonometry will be studied along with trigonometric identities and equations, the laws of sines and cosines, graphs and properties of the trigonometric functions and their inverses. Trigonometry will be defined using the unit circle approach and a graphical approach will be utilized throughout with an emphasis on solving application problems. This course is recommended for students who have successfully completed Algebra 2 and want additional preparation for standardized tests and college level mathematics. This course is available as a completely virtual/online course. Students who are interested should contact their counselor regarding the process for enrolling in an online course.

GOVERNMENT
Grades: 11-12
½ Social Studies credit
Prerequisite: None

In this course, students closely examine federal and state systems, structures, principles, and historical foundations of government. Attention will be given to the role of economics, social structures, individual perspectives, interest groups, and foreign influences in American politics. Students will think critically about issues concerning the United States' government, the impact of decision-making on a variety of peoples and groups, and their own role as an engaged citizen.

SOCIOLOGY
Grades: 11-12
½ Social Studies credit
Prerequisite: Junior or Senior standing

Sociology is the study of human behavior in groups which range from two people to societies of millions of people. Students will gain an understanding of important sociological concepts such as culture, socialization, status, role and group dynamics. Students will use the tools and techniques of sociology along with audiovisuals, group discussions, and simulations to investigate and analyze human relationships. This course is available as a completely virtual/online course. Students who are interested should contact their counselor regarding the process for enrolling in an online course.

Fern Ridge serves as an extension of Parkway’s four traditional high schools. Designed for students in grades 10 through 12 who prefer a small and personalized school setting, the program provides individual, small group, and whole group learning opportunities. Teachers utilize Parkway curriculum and students receive Parkway credit. Transportation is provided.

Admission is based not only on the program’s ability to meet a student’s academic, social, and emotional needs, but also on a student’s desire and level of commitment to be successful. Applications and additional information about the program are located on the Fern Ridge website. Attending Fern Ridge is a privilege and space is limited.

* must be concurrently enrolled in English 1 in 9th grade, English 2 in 10th grade, or English 3 in 11th grade
057011 & 057012 (Year-long)

ENGLISH 1
Grade: 9
1 English credit
Prerequisite: None

In this course, students will read and study a variety of literature, including short story, novels, poetry, drama, and non-fiction, to enhance comprehension and analysis skills, to make personal and global connections within and across texts, and to improve reading stamina. Students will approach texts as a reader and a writer. As writers, students in this course will strengthen mechanics, usage, and syntax, focus on matching organization to audience, purpose, and genre, and explore the use of evidence across a variety of writing forms. Students will practice effective communication skills in writing, presenting, collaborating, and listening.

058011 & 058012 (Year-long)

HONORS ENGLISH 1
Grade: 9
1 English credit
Prerequisite: Department Approval

Honors English 1 provides challenge and enrichment for students who are avid readers and good writers. All areas of the regular English 1 program are included, but literature and composition assignments in this course are longer and more complex than in the regular course. A weighted grade is given.

057021 & 057022 (Year-long)

ENGLISH 2
Grade: 10
1 English credit
Prerequisite: English 1

The study of literature, composition, and oral communication skills forms the basis of this course, which continues the work begun in English I. The skills of analysis and critical reading are developed through poetry, fiction, non-fiction, and drama. Although some creative writing is included, the major emphasis in composition is on techniques, honing modes of writing such as narrative, argumentative, and explanatory essays, and blending genres for specific purposes and audiences. The Missouri English 2 End of Course (EOC) Assessment is given at the conclusion of this course.

058021 & 058022 (Year-long)

HONORS ENGLISH 2
Grade: 10
1 English credit
Prerequisite: English 1 and Department Approval

Honors English 2 is for students with well-developed skills in reading and writing. Including all the areas of study mentioned for the regular English 2 program, the Honors course is more demanding because of the complexity of assigned reading, writing, and analysis. Students must read and discuss challenging texts and to write about the ideas and issues in these works. A weighted grade is given. The Missouri English 2 End of Course (EOC) Assessment is given at the conclusion of this course.

057580

CONTEMPORARY WORLD LITERATURE
Grades: 9-10
½ English credit
Prerequisite: Concurrent enrollment in English 1 or English 2

The focus of this course is contemporary world literature. African, Latin American, European, and Asian writers tell their stories using their own voices and heroes. Among the minorities in America, the Native American, African American, Asian American, and Hispanic voices are available in fine contemporary literature. The various genres include novels, short stories, plays, films, nonfiction and poetry. This literary experience will focus on some of the best works not only by males and not only from the West. Evaluation will be through self-selected reading projects, literature circles, discussion, presentations, and essays. The written response will be analytical, practical, and creative since all methods are important for this type of literature.

057031 & 057032 (Year-long)

ENGLISH 3
Grade: 11
1 English credit
Prerequisite: English 2

This course focuses on the variety of ways the American dream and identity has evolved for different groups of people over time, as presented in the novels, plays, essays, poetry, and short stories of American writers. Emphasis is placed on development of the student as a critical reader and intentional writer. Students continue to develop their composition, rhetoric, research, critical thinking, vocabulary, communication, and study skills.
057120
INTRODUCTION TO COLLEGE WRITING
Grade: 12
½ English credit
Prerequisite: Department approval

This course is designed for college-bound seniors as well as students preparing to enter a technical or business career after graduation. The course will focus on the elements of clear writing, well-organized expository essays, and critical thinking skills necessary for both expository writing and analytical reading. In addition, this course includes a review of the principles of grammar. The goals of the course are to prepare college bound students to write acceptable college-level expository essays; familiarize career students with technical and business writing; familiarize all students with the writing skills valuable in their everyday experience; and make students aware of the way language functions and affects their lives.

057160
CREATIVE WRITING: POETRY
Grades: 11-12
½ English credit
Prerequisite: Senior standing or 11th grade if concurrently enrolled in another English class, or permission of instructor. May not be substituted for English 1, 2, or 3.

This course involves both study of poetry and individual creative efforts. Examples of poetry and criticism are predominately contemporary, but students do explore some classics. Oral interpretation of poetry is emphasized, and students also pursue, in-depth, the works of a single poet. This study helps develop standards by which to improve student writing.

057171 & 057172 (Year-long)
CREATIVE WRITING: NON-FICTION
Grades: 11-12
1 English credit
Prerequisite: English 1 and 2 and recommendation of Journalism instructor. May not be substituted for English 1, 2, or 3.

This course involves both study of non-fiction writing techniques and individual instruction. Writing samples are predominately drawn from current periodicals. Students submit writing for publication in professional and student publications.

057180
CREATIVE WRITING: SHORT STORY
Grades: 11-12
½ English credit
Prerequisite: Senior standing or 11th grade if concurrently enrolled in another English class, or permission of instructor. May not be substituted for English 1, 2, or 3.

This course is designed to give students an opportunity to study the short story in-depth: its structure, elements, and various forms and styles. A variety of short stories will be examined, and students are expected to become both competent readers of the short stories of others and competent writers of their own short fiction. As fiction writing is a craft, revision and editing are emphasized.

057260  “not an NCAA “core course”
COLLEGE COMMUNICATION ARTS
Grade: 12
½ English credit
Prerequisite: Department approval. May not replace English 3.

This course is designed for seniors who plan to attend college or a technical school after graduation from high school. The goals for the course are to improve reading comprehension of content-area textbooks; to increase vocabulary; to improve classroom skills; to improve writing skills; to learn study skills; to increase critical thinking and analysis; and to develop self-awareness and confidence as a student.

057361
ENGLISH 4A
Grade: 12
½ English credit (1st Semester)
Prerequisite: Students must have passed at least five previous semesters of English.

Students may take 4A or 4B or both 4A and 4B.

This course is a college preparatory course designed to increase student understanding and appreciation of challenging literature and to improve student written and oral communication skills. The course provides excellent preparation for a wide range of academic arenas as well as an opportunity to develop life-long literacy skills and literary appreciation. Students may take one or both semesters of this course.
057372
ENGLISH 4B
Grade: 12
½ English credit (2nd Semester)
Prerequisite: Students must have passed at least five previous semesters of English.

Students may take 4A or 4B or both 4A and 4B.

This course is a college preparatory course designed to increase student understanding and appreciation of challenging literature and to improve student written and oral communication skills. The course provides excellent preparation for a wide range of academic arenas as well as an opportunity to develop life-long literacy skills and literary appreciation. Students may take one or both semesters of this course.

057501 & 057502 (Year-long) “not an NCAA “core course”
AFRICAN-AMERICAN HISTORY & LITERATURE
Grades: 10-12
1 English credit
Prerequisite: Students must have passed 1.5 units of English and have passes Modern American History to be eligible to take this course. Students may NOT substitute African American History and Literature for English 1, 2 or 3. If not a senior, the student must be concurrently enrolled in English 2 or 3.

This interdisciplinary course will focus on the study of African-American history and culture from the roots in Africa to the modern day. Through a blending of the study of African-American history and literature, this course serves to broaden students’ knowledge of African-Americans regarding the broader concepts of race, class, and gender. The historical survey will include African origins and diasporas, slavery and reconstruction, all the way up to African-Americans in the 21st century. A variety of literary pieces and historical texts from diverse authors and time periods serve as the foundation of materials for the course. Students will develop high level skills in literary and historical reading, writing, and analysis.

Semester 1: Africa and the African Diaspora
Students will explore the beginnings of African culture, history, and literature and how these spread throughout and further influenced the development of other cultures throughout the world.

Semester 2: Africans in America
Students will examine African-American culture, history and literature from the Trans-Atlantic Slave Trade up until current day.

057540
COMPARATIVE MYTHOLOGY
Grades: 11-12
½ English credit
Prerequisite: Senior standing or 11th grade if concurrently enrolled in another English class, or permission of instructor. May not be substituted for English 1, 2, or 3.

Students will explore and examine the myths of many cultures from around the world. Through analysis and comparison, students will gain an understanding and appreciation of the importance of myths throughout various places and times.

This course is also available as a completely virtual/online course. Students who are interested should contact their counselor regarding the process for enrolling in an online course.

057400
FILM AND COMPOSITION
Grades: 11-12
½ English credit
Prerequisite: Senior standing or 11th grade if concurrently enrolled in another English class, or permission of instructor. May not be substituted for English 1, 2, or 3.

In this class, students will be asked to engage in a critical study of film, focusing on the technical aspects of filmmaking and analytical approaches to cinema. As students learn this new information and begin to form an aesthetic appreciation for film, an understanding of the techniques/practices employed by filmmakers, and a brief understanding of film history, they will write a series of essays which vary in length and mode. Aside from enhancing the visual literacy skills of the students, this course is designed to support and improve the writing and speaking skills learned in 9th, 10th, and 11th grade.
057560  
MASTERPIECES 1  
Grade:  12  
½ English credit  
Prerequisite: Successful completion of 3 credits of English.

This course is offered to seniors only as a college-preparatory humanities course rather than a traditional English class. Masterpieces 1 is an overview of great moments in Western culture: the Hebrews, the Greeks, the Romans, and the northern literary Renaissance. The literature and history of these periods are the basis for approximately half the course; the remaining time is given to the study of the arts from these periods: architecture, sculpture, music, painting, and pottery. The major readings include Homer, Aeschylus, Virgil, and Shakespeare. Evaluation is based on a variety of activities: Socratic seminars, group work, quizzes, essays, oral presentations, projects and visits to local cultural sites. Although Masterpieces 1 and 2 are continuous in their overview of the periods, each course may be taken separately.

057570  
MASTERPIECES 2  
Grade:  12  
½ English credit  
Prerequisite: Successful completion of 3 credits of English.

This course is offered to seniors only as a college-preparatory humanities course rather than a traditional English class. Masterpieces 2 continues with the Medieval and Renaissance periods and continues through the modern period. It includes a thorough overview of art history, political history and cultural history of great moments in Western culture. The major readings include Shakespeare, Dostoyevsky, Bronte, and Austen. Art which parallels these readings - poetry, stories, painting, music - will also be considered. Evaluation is based on a variety of activities: Socratic seminars, quizzes, group work, essays, oral presentations, projects, and visits to local cultural sites. Although Masterpieces 1 and 2 are continuous in their overview of the periods, each course may have taken separately.

058080  
TRENDS IN AMERICAN LITERATURE (HONORS)  
Grade:  11  
½ English credit  
Prerequisite: English 1 & 2 (or Honors Equivalent)

This course is designed for the most capable junior students who have good reading and discussion skills. The major periods of the development of American literary style, encompassing the Puritans through the moderns, are carefully examined. Selected novels are included. Evaluation is based primarily on essays. A weighted grade is given.

059300  
AP ENGLISH LANGUAGE AND COMPOSITION  
Grade:  11-12  
½ English credit  
Prerequisite: English 1 & 2 (or Honors Equivalent)

Designed for highly motivated juniors and seniors with good reading and writing ability, this course provides students with opportunities to explore a variety of subjects using expository, analytical, and argumentative writing while demonstrating an awareness of audience and purpose. Students will select and cite primary and secondary sources (fiction, nonfiction, print and non-print texts) using Modern Language Association models. Vocabulary, sentence structure, and logical organization are emphasized. This course prepares students for the AP English Language & Composition exam. Students have the option to earn college credit through the AP exam. A weighted grade is given.
059041
AP ENGLISH LITERATURE AND COMPOSITION 1
Grade: 12
½ English credit (1st Semester) - 1/2 English credit (2nd Semester)
Prerequisite: English 1, 2 and 3 (or Honors Equivalent)

Semester 1 – This is a college preparatory course includes a survey of the growth of the English language, a study of the English epic romances, poetry and riddles, and a review of the works of Chaucer. An in-depth study of a limited number of Shakespeare’s works is undertaken. Elizabethan theater and general philosophical outlooks are also considered. This course prepares students for the AP English Literature & Composition exam. Students have the option to earn college credit through the AP exam. A weighted grade is given.

059042
AP ENGLISH LITERATURE AND COMPOSITION 2
Grade: 12
½ English credit (1st Semester) - 1/2 English credit (2nd Semester)
Prerequisite: English 1, 2 and 3 (or Honors Equivalent)

Semester 2 – This capstone survey honors English course is a survey of the masterpieces of European literature from the 17th century to the recent past, from the enlightenment to the heart of darkness. This course prepares students for the AP English Literature & Composition exam. Students have the option to earn college credit through the AP exam. A weighted grade is given.
SCHOOL PUBLICATIONS

057300  
CONVERGENCE JOURNALISM 1
Grades: 9-11
½ Elective credit
Prerequisite: Freshman, Sophomore or Junior standing

Learn the roles and responsibilities journalists have when working in a multimedia news room. Student journalists will practice storytelling, photography, and design. See the program description for more information. Program description: Producing news across emerging and existing media platforms...social media, photography, broadcast, print, online. As a member of the production team, journalists will produce the student newspaper, yearbook, and other student news media. Being a student journalist gives students a voice and allows them to exercise their constitutional right of free speech. Student journalists learn critical thinking, researching, interviewing, writing, editing, and creating visuals while collaborating with other staff to produce media for an audience. Student Journalists learn how a free and responsible press can improve their school communities by informing, entertaining, and influencing their audience. These courses will offer a competitive edge to students pursuing any career as it enhances communication, confidence, leadership and global awareness. Students have the opportunity to travel to local, state, and national conferences. Coursework includes individual and group projects, guests speakers, field trips, leadership activities and community involvement.

057350  
PHOTOJOURNALISM
Grades: 10-12
½ CTE credit
Prerequisite: None

Students enrolled in the class have as their primary objective the task of providing coverage and subsequent photographs of all school events for the yearbook and newspaper. This includes assignments both during and after school. Instruction/practice in photography includes use of artificial lighting, skill development with basic camera operation and improving students' sense of photocomposition. Instruction will pertain to composing the photos, manipulating the photos using Photoshop, writing captions for the photos, and troubleshooting problems related to the photos. Although not a requirement, it would be helpful for students to have their own digital cameras.

057311 & 057312 (Year-long)
NE wpaper 1
Grades: 9-12
1 CTE credit
Prerequisite: Convergence Journalism 1, Photojournalism or recommendation of English teacher after application by student

Following an initial training period, students enrolled in Newspaper 1 assist in the production of the school newspaper, which is issued every month. Staff members write news, features, sports and editorials and gain experience in designing pages, computer word processing, providing photographic coverage and selling ads. Students may join second semester after successfully completing Convergence Journalism 1.

057321 & 057322 (Year-long)
NE wpaper 2
Grades: 10-12
1 CTE credit
Prerequisite: Newspaper 1

This course concentrates on continued emphasis of quality standards in newspaper writing and production. Instruction grows from the production of the newspaper, including sophistication of writing and design, photography and continued examination of current issues related to scholastic and professional journalism. Students may apply for an editorial position. Those in editorial positions will learn coaching/mentoring strategies to employ with less experienced students.

057331 & 057332 (Year-long)
NE wpaper 3 (HONORS OPTION)
Grades: 11-12
1 CTE credit
Prerequisite: Newspaper 2

This advanced course is designed for the student who wants to conduct in-depth studies in journalism and play an increasing role in the production of the newspaper. Students will explore career opportunities, journalism law and ethics, and magazine journalism, in addition to assuming editorial positions. Upon successful completion of additional expectations, an honors grade may be earned.
057341 & 057342 (Year-long)
NEWSPAPER 4 (HONORS OPTION)
Grades: 11-12
1 CTE credit
Prerequisite: Newspaper 2 and 3

This is an advanced course for students who wish to continue their in-depth study of journalism. In addition to assuming editorial roles and mentoring new staff members, they will cover school board meetings and submit articles to local publications when appropriate. Students will explore new ideas for templates and possible changes in overall design of the publication as well as an in-depth study of national publications.

057411 & 057412 (Year-long)
YEARBOOK 1
Grades: 9-12
1 CTE credit
Prerequisite: Convergence Journalism 1, Photojournalism or recommendation of English teacher after application by student

This course continues to build upon the basics of journalism presented in Convergence Journalism 1. It expands to include more advanced study of design/layout and participation in production of the school yearbook and photography. Students begin the exploration of scholastic journalism and the law as well as current issues in scholastic and professional journalism. Students may join this course second semester after successful completion of any of the prerequisites.

057421 & 057422 (Year-long)
YEARBOOK 2
Grades: 10-12
1 CTE credit
Prerequisite: Yearbook 1

This course concentrates on continued emphasis of quality standards in yearbook production including enhancement of writing and layout skills, use of software and camera operation, including digital equipment and the study of scholastic and professional journalism. Students may apply for an editorial position. Those in editorial positions will learn coaching/mentoring strategies to employ with less experienced students.

057431 & 057432 (Year-long)
YEARBOOK 3 (HONORS OPTION)
Grades: 11-12
1 CTE credit
Prerequisite: Yearbook 2

This advanced course is designed for the student who wants to conduct in-depth studies in journalism and play an increasing role in the production of the yearbook. Students will explore career opportunities, journalism law and ethics, and magazine journalism, in addition to assuming editorial positions on the yearbook. Upon successful completion of additional expectations, an honors grade may be earned.

057441 & 057442 (Year-long)
YEARBOOK 4 (HONORS OPTION)
Grade: 12
1 CTE credit
Prerequisite: Yearbook 3

This advanced course is for students who wish to continue their in-depth study of journalism. In addition to assuming editorial roles and mentoring new staff members, students will explore new ideas for templates and possible changes in overall design of the publication as well as an in-depth study of national publications. Upon successful completion of additional expectations, an honors grade may be earned.

<tbody>
<tr>
<td>057600</td>
<td><strong>HUMAN COMMUNICATION</strong></td>
<td>9-12</td>
<td>½ Elective</td>
<td>None</td>
<td>Communication skills and behaviors are the focus of this course. Topics include the communication process, the importance of feedback, verbal and nonverbal skills, listening skills, and intrapersonal, interpersonal, and small group communication. Projects, activities, role playing, discussion, and written assignments help students evaluate and improve their own skills in communication. Evaluation is based on participation, discussion, quizzes, and written and oral assignments.</td>
</tr>
<tr>
<td>057630</td>
<td><strong>PUBLIC SPEAKING</strong></td>
<td>9-12</td>
<td>½ Elective</td>
<td>None</td>
<td>In this class, a practical approach is made toward speaking that builds confidence and poise. The students present a wide variety of speeches in an informal classroom atmosphere. The format is designed to prepare students for everyday classroom participation as well as for other speaking opportunities. Emphasis is on improved self-confidence and self-expression as speaking, listening, and thinking skills are built. Evaluation is based on performance, criticism, and unit assignments. Juniors and seniors may enroll in college credit through the Missouri State University. Some memorization may be required.</td>
</tr>
<tr>
<td>057780</td>
<td><strong>ORAL INTERPRETATION</strong></td>
<td>9-12</td>
<td>½ English</td>
<td>None</td>
<td>Interpretation allows students to select their own pieces of literature and find personal connection to it through performance. Self-selection, written analysis, and performance increases understanding and appreciation for the many forms of literature in the world. This course can be a fine arts, English, or elective credit. It may not replace English 1, 2, or 3. This class would serve as a prerequisite for Competitive Speech &amp; Debate.</td>
</tr>
<tr>
<td>057700</td>
<td><strong>BROADCAST &amp; PRODUCTION</strong></td>
<td>9-12</td>
<td>½ Elective</td>
<td>None</td>
<td>This single semester, project-based course provides students with the chance to better understand both on air and production aspects of entertainment, news and sports broadcasting. Students will work independently and collaboratively; be introduced to audio and video editing; and participate in real world application in the broadcasting world.</td>
</tr>
<tr>
<td>057650</td>
<td><strong>ADVANCED BROADCAST &amp; PRODUCTION</strong></td>
<td>10-12</td>
<td>½ Elective</td>
<td>Broadcast &amp; Production and Instructor approval</td>
<td>This project-focused course provides students with the chance to further explore both on air and production aspects of entertainment, news and sports broadcasting. Students will work independently and collaboratively; apply advanced audio and video editing techniques; and have the opportunity to produce content that will be shared with the public.</td>
</tr>
<tr>
<td>057660</td>
<td><strong>DEBATE</strong></td>
<td>9-12</td>
<td>½ English</td>
<td>None</td>
<td>Debate is designed to introduce the student with the procedures involved in a researched, structured verbal argument. The course centers on the current controversial issues. Organizational skills, as well as public speaking skills, are reinforced during the semester. In class debates put these skills into practice. This course may be taken for .5 English credit, but may not replace English 1, 2, or 3.</td>
</tr>

057670
COMPETITIVE SPEECH & DEBATE
Grades: 10-12
½ Elective credit
Prerequisite: Debate or Oral Interpretation

Competitive Speech & Debate is an in-depth study of presentation techniques, particularly those used in competitive speech and debate. Students will focus on a particular competitive aspect: Public Speaking, Debate, or Oral Interpretation. Close study of that event will hone competitive skills. Students will also be introduced to other arenas of debate competition to prepare for the Advanced Competitive Speech & Debate course. Speech and Debate team participation is a requirement of this course.

057620
ADVANCED COMPETITIVE SPEECH & DEBATE
Grades: 11-12
½ Elective credit
Prerequisite: Competitive Speech & Debate and permission of instructor

Advanced Competitive Speech & Debate is an in-depth study of presentation techniques, particularly those used in competitive speech and debate. Students will focus on both a Debate and an Event (either Public Speaking or Oral Interpretation). They will study those events closely, hone their competitive
ENGLISH FOR SPEAKERS OF OTHER LANGUAGES

052911 & 052912 (Year-long)
HIGH SCHOOL ESOL LEVEL 1
Grades: 9-12
1 English credit
Prerequisite: Instructor approval

This course is designed for students who have limited English proficiency. Emphasis is placed on acquiring skills in listening, reading, speaking, and writing. This intensive instruction in a supportive and non-threatening environment helps students learn English quickly and allows ELLs to make necessary academic and social adjustments. Placement in this class is determined by WAPT/ACCESS scores and ESOL staff recommendation.

052921 & 052922 (Year-long)
HIGH SCHOOL ESOL LEVEL 2
Grades: 9-12
1 English credit
Prerequisite: Instructor approval

English language learners who have an intermediate proficiency determined by WAPT/ACCESS scores and ESOL staff recommendation are eligible for this class. Continuing growth in the areas of listening, speaking, reading and writing will be emphasized. Further development of the American culture and an increased awareness of academic standards are introduced.

052931 & 052932 (Year-long)
HIGH SCHOOL ESOL LEVEL 3
Grades: 9-12
1 English credit
Prerequisite: Instructor approval

English Language Learners who are progressing into advanced proficiency levels, but still need to strengthen their skills to prepare for regular English classes need to enroll in this course. Emphasis is placed on improving grade-level reading, writing satisfactory essays, and improving foundations for writing. Placement in the class is determined by WAPT/ACCESS scores and ESOL staff recommendation.

052941 & 052942 (Year-long)
HIGH SCHOOL ESOL LEVEL 4
Grades: 9-12
1 English credit
Prerequisite: Instructor approval

English Language Learners who are progressing into advanced proficiency levels, but still need to strengthen their skills to prepare for regular English classes need to enroll in this course. Emphasis is placed on improving grade-level reading, writing satisfactory essays, and improving foundations for writing a formal research paper. Placement in this class is determined by WAPT/ACCESS scores and ESOL staff recommendation.

LET'S COOK TOGETHER
Grades: 9-12
½ CTE credit
Prerequisite: Department approval

This course provides modified instruction for students with unique abilities in the area of culinary arts. Students will develop personal and social responsibility, as well as knowledge and skills in the areas of nutrition, wellness, food safety, dining etiquette and culinary basics. Each student will be working together with general education mentors in grades 10-12, to increase competency and enjoyment in cooking and nutrition.

097950
CULINARY MENTOR
Grades: 10-12
½ Elective credit
Prerequisite: ProStart 1 or International Cuisine

Culinary Mentor will give students the opportunity to improve their skills in mentoring others as they serve as assistants for students with physical and developmental disabilities who are enrolled in Culinary Arts. Students will take on the role of buddies to provide leadership in a variety of culinary based activities and lab setting.

097010
CULINARY PROSTART 1
Grades: 9-12
½ CTE credit
Prerequisite: None

Culinary ProStart 1 provides an opportunity for the students with little or no prior foods preparation experience, but with an interest in food, to learn about culinary skills. This basic course introduces students into the world of professional cooking. Training in safety and sanitation (ServSafe), kitchen essentials including foodservice equipment and culinary techniques, the importance of communication, potatoes and grains are taught in this beginning course. Lab experiences will be provided throughout the semester in order to reinforce these skills. The Culinary ProStart Program is a two-year industry-based program that prepares students for careers in the restaurant and foodservice industry.

097020
CULINARY PROSTART 2
Grades: 9-12
½ CTE credit
Prerequisite: Successful Completion of Culinary ProStart 1

Culinary ProStart 2 is a course that will broaden or expand students' knowledge and skills acquired in Culinary ProStart 1. Topics include serving guests, stocks, sauces, soups, fruits, vegetables, management essentials and building a successful career. The Culinary ProStart Program is a two-year industry-based program that prepares students for careers in the restaurant and food service industry.

097051 & 097052 (Year-long)
CULINARY PROSTART 3
Grades: 10-12
1 CTE credit
Prerequisite: Successful Completion of Culinary ProStart 2

Culinary ProStart 3 is the final course of this three-course program. In this year-long course, students will learn additional skills in the preparation of breakfast, salads, sandwiches, desserts, and baked goods. Students will also explore the following foodservice concepts; sustainability, culinary nutrition, and the art of garnishing. In this phase, students will also learn food preparation in meats, poultry, seafood and venture into the world of global cuisines. For the serious culinary student interested in a career in the restaurant industry, controlling cost, marketing and menu creation practices will be introduced. Students who pass the National Restaurant Solutions' Year 1 and 2 exams, and complete 400 hours of mentored work experience can earn the ProStart National Certificate of Achievement. Many college, university, foodservice and hospitality programs offer benefits to Culinary ProStart graduates.

097110
INTERNATIONAL CUISINE
Grades: 11-12
½ CTE credit
Prerequisite: Junior or Senior standing

This course is designed to give students a better understanding and appreciation of countries and cultures of the world through the study of traditional foods and meal habits of each. Each country’s history, geography, climate, religion and ethnic make-up will be studied. Food preparation skills and techniques unique to each country will be studied through kitchen laboratory experiences to help students gain an appreciation of cultural difference. Students interested in the study of cultures will benefit from this course and no prior food preparation experience is required to be successful.
097420
CHILD DEVELOPMENT 1
Grades: 9-12
½ CTE credit
Prerequisite: None

This course prepares the student to work with children. The first units of study include examining families and parenting styles, prenatal development, labor, birth, and delivery. Students will also learn about a child's growth and development during the newborn, infancy, toddler and preschool stages. Students will be given the opportunity to observe and interact with preschoolers through limited laboratory experiences. The unit of prenatal development includes conception, abstinence and contraception. Careers in the child development field will be discussed throughout the semester. Three hours of dual college credit at Webster University (for juniors and seniors only) and/or 3 articulated college credits for any student through STLCC are available to Child Development 1 & 2 students who maintains an A or B average in both courses.

097430
CHILD DEVELOPMENT 2
Grades: 9-12
½ CTE credit
Prerequisite: Successful Completion of Child Development 1

This second level course provides appreciation of advanced child development principles. Included in this course is the observation of children as well as the physical, mental, emotional, and social growth and development of early childhood through adolescence. Students will be able to plan developmentally appropriate activities, observe, and interact with the early childhood learning environments. The many career opportunities related to children are also studied. Three hours of dual college credit at Webster University (for juniors and seniors only) and/or 3 articulated college credits for any student through STLCC are available to Child Development 1 & 2 students who maintains an A or B average in both courses.

097560
INTRODUCTION TO TEACHING
Grades: 10-12
½ CTE credit
Prerequisite: None

In this course, you will receive a general introduction to the area of education and teaching. Course topics include: learning styles, teaching methodologies, cultural responsiveness and a focus on data-driven decision making in the schooling system. This course focuses on the general theory and practice of learning and teaching; the basic principles of educational psychology; the art of teaching; the planning and administration of educational activities; school safety and health issues; and the social foundations of education. This course is a prerequisite for the Student Teaching Experience course where students will be observing, interacting and teaching in the classroom environment over a twelve week time period. Dual credit is available for this course through the University of Missouri-St. Louis. (Must complete both this and the Student Teaching Experience for dual credit).

097570
STUDENT TEACHING EXPERIENCE
Grades: 10-12
½ CTE credit
Prerequisite: Introduction to Teaching

Student Teaching Experience is an advanced, curriculum-based, high school experience that allows the students to apply the skills learned in the previous prerequisite course, Introduction to Teaching. Participants can be placed in preschool, elementary, middle or high school classrooms, as well as in adult education training program such as those sponsored by business and community organizations. Students are required to provide their own transportation unless the cooperating school or practicum experience is within walking distance. Dual credit is available for this course through the University of Missouri-St. Louis.
HUMAN RELATIONS
Grades: 9-12
½ CTE credit
Prerequisite: None

Human Relations will equip students to be confident and self-directed by developing an understanding of the person they are and the person they may become. Throughout this course, students will work through the decision and problem solving process in a variety of topics that will affect them personally and professionally. Students will singularly and collaboratively investigate their personal, social and civic values in order to set measurable goals. While working and living in a diverse community, students will learn to communicate clearly, effectively and with reason to represent their thoughts ideas and actions. Students will gain knowledge in making healthy sexual decisions that will affect them in all aspects of their lives. Delicate subjects such as love and dating, gender roles, abstinence, contraception, teen pregnancy/prevention; STDs, and sex in the media will be addressed. Students will gain the skills and knowledge to incorporate healthy coping mechanisms for stress/crisis situations that are inevitable in one’s life.

PERSONAL & CAREER DEVELOPMENT
Grades: 10-12
½ CTE credit
Prerequisite: None

FOCUS ON YOUR FUTURE is the target of this course in career development. This course will give you opportunities to investigate careers and provide a knowledge base from which to make your important career and educational decisions. This class will include practical experiences such as self-discovery of interests, skills, and career pathways through aptitude tests, as well as how to professionally interview and communicate, create a resume and professional portfolio, complete job and college applications, and explore careers through job shadowing experiences.

FASHION APPAREL HOUSING DESIGN
Grades: 9-12
½ CTE credit
Prerequisite: None

This course is designed to help individuals explore the fundamentals of fashion, apparel, and housing design. Topics included are the elements and principles of design, psychological and social roles of fashion, apparel and housing design, common fibers and fabrics in the textile industries, basic sewing techniques, exploration of architecture and floor planning, fashion design career exploration. Many projects allow opportunities for student individualization and choice. Self-initiative, time management, planning, and independent work, following directions and evaluating are crucial skills in the course where art, communication, mathematics, science, and technology are applied.

FASHION MERCHANDISING
Grades: 9-12
½ CTE credit
Prerequisite: None

Fashion Merchandising provides an opportunity for the student interested in the field of fashion and merchandising. The student will investigate fashion careers, history of fashion, current trends and promotion. Individual student designs will be sketched. There will be no clothing construction in this course.

HOUSING/INTERIOR DESIGN
Grades: 9-12
½ CTE credit
Prerequisite: None

This course will prepare students with the knowledge and skills to make decisions that will help them create a desirable living environment to meet individual and family needs. Human and environmental factors will be used as students gain knowledge of housing styles, costs, design and architecture. Through a variety of activities and projects, students will create floor plans and decorate rooms. This course is essential for personal use or career explorations.
097280  
FASHION DESIGN AND CONSTRUCTION  
Grades: 9-12  
½ CTE credit  
Prerequisite: Fashion, Apparel, and Housing Design

This course allows students to further develop their creativity and sewing skills learned in Fashion, Apparel, & Housing Design Fundamentals. Students will specialize in Fashion Design and Construction, work with more difficult fabrics and complete advanced construction techniques. Many projects allow opportunities for student individualization and choice. Self-initiative, motivation, time management, planning and independent work, following directions and evaluating are crucial skills in the course where art, communication, mathematics, science and technology are applied.

097270  
FASHION, APPAREL, & HOUSING DESIGN CAPSTONE  
Grades: 10-12  
½ CTE credit  
Prerequisite: 1.0 of FACS courses in Fashion, Apparel Housing Pathway

This course is designed to provide the student with knowledge at the various creative and business functions of the fashion and home goods industries. Students learn the dynamics of the industry including trending, textiles, designers the design process, production, promotion and visual merchandising. Students will develop a collection of apparel or home goods by utilizing sketching and or apparel/home good construction techniques, basic pattern-making/draping and an expansion of applied textiles knowledge. Self-initiative, motivation, time management, planning independent work, following directions and evaluating are crucial skills in this course which art, communication mathematics, science and technology are applied.
MATHEMATICS

The mathematics curriculum is divided into multiple programs. Students enroll in a particular program based on interest and ability. Students enter at the left of a program and move across the table each year. In order to provide flexibility, students may move to the next higher or next lower row as their interests shift or their abilities dictate.

The mathematics department suggests that students enrolled in courses Algebra 2/Trig and above purchase a graphing calculator for personal use. This tool assists greatly in learning mathematics and aids in the efficient completion of homework.

HONORS PROGRAM:
Note: A student who has no experience in an honors level math course or who has dropped out of the honors program may find AP Calculus AB and AP Calculus BC to be overwhelming. These advanced placement courses are highly-rigorous college level courses whose foundations are found within the entire honors program curriculum: Honors Geometry, Honors Algebra 2/Trigonometry and Honors Pre-Calculus.

MATH ELECTIVES:
Introduction to Computer Science (10-12) (Career & Tech Ed. Credit)
AP Principles of Computer Science (10-12) (Career & Tech Ed. Credit)
AP Computer Science (Honors) (11-12) (Math or Career & Tech. Ed. Credit)
AP Statistics (Honors) (11-12) (Math Credit)

HONORS:
This is the advanced placement strand. These courses are for highly capable mathematics students and carry weighted grades. The courses in this strand are: Honors Geometry, Honors Algebra 2 with Trigonometry, Honors Pre-Calculus, and AP Calculus AB or BC. Students successfully completing Algebra in the eighth grade have met the prerequisite for beginning this program.

COMPETITIVE COLLEGE PREPARATION:
This strand of courses will prepare students for future work in mathematics and the sciences. The major courses in this sequence are: Algebra 1, Geometry A, Algebra 2 with Trigonometry, College Algebra or Pre-Calculus.
ALGEBRA 1
Grades: 9-10
1 Math credit
Prerequisite: Mathematical 8

The primary goal in Algebra 1 is to help students transfer their tangible mathematical knowledge to more abstract algebraic generalizations. Topics include recognizing and developing patterns and using tables, graphs and equations for both linear and nonlinear functions. An improved understanding of these topics will help students better understand and respond to the challenges of our ever-changing world. At the conclusion of this course, students take the Algebra 1 End of Course Assessment required by the state of Missouri.

GEOMETRY A
Grades: 9-12
1 Math credit
Prerequisite: Algebra 1

This course requires students to focus on logical proof and critical thinking when solving problems or evaluating arguments. There is an emphasis on deductive reasoning and critical thinking. Geometric properties and concepts in both the plane and 3-dimensional space are covered. Topics include logic and probability, angles and lines, transformations, similarity, triangles, trigonometry, circles, and other polygons.

HONORS GEOMETRY
Grades: 9-10
1 Math credit
Prerequisite: Algebra 1 (Grade 8) or Department approval

This course requires students to focus on logical proof and critical thinking when solving problems or evaluating arguments. There is a strong emphasis on usage of precise mathematical language, deductive reasoning, and critical thinking. Geometric properties and concepts in both the plane and 3-dimensional space are covered. Rigorous higher order algebraic concepts are integrated throughout. Topics include logic and probability, angles and lines, transformations, similarity, triangles, trigonometry, circles, and other polygons.

ALGEBRA 2
Grades: 11-12
1 Math credit
Prerequisite: Geometry

This course continues the exploration of functions which began in Algebra I. Students will analyze functions graphically, numerically, algebraically and investigate how these functions can be used to represent real world data. Functions that will be studied include linear, quadratic, absolute value, polynomial, rational, radical, exponential, and logarithmic. This course is not recommended for students planning to pursue a career in a STEM or Business field.

ALGEBRA 2 WITH TRIGONOMETRY
Grades: 10-11
1 Math credit
Prerequisite: Honors Geometry or Department approval

This course, which covers second year algebra topics, and trigonometry is designed for highly mathematically capable students interested in pursuing STEM professions. The focus is on the analysis and understanding of mathematical relations and functions. Students will analyze linear, quadratic, absolute value, polynomial, rational, radical, exponential, and logarithmic functions graphically, numerically, and algebraically. Purchase of a graphing calculator is strongly recommended.

HONORS ALGEBRA 2 WITH TRIGONOMETRY
Grades: 10-11
1 Math credit
Prerequisite: Honors Geometry or Department approval

This course, which covers second year algebra topics and trigonometry is designed for highly mathematically capable students interested in pursuing STEM professions. The focus is on the analysis and understanding of mathematical relations and functions. Students will analyze linear, quadratic, absolute value, polynomial, rational, radical, exponential, and logarithmic functions graphically, numerically, and algebraically. Purchase of a graphing calculator is strongly recommended. A weighted grade is given.
117410
TRIGONOMETRY (Semester Only)
Grades: 10-12
½ Math credit
Prerequisite: Algebra 2

In this course, classical right triangle trigonometry will be studied along with trigonometric identities and equations, the laws of sines and cosines, graphs and properties of the trigonometric functions and their inverses. Trigonometry will be defined using the unit circle approach and a graphical approach will be utilized throughout with an emphasis on solving application problems. This course is recommended for students who have successfully completed Algebra 2 and want additional preparation for standardized tests and college level mathematics.

This course is also available as a completely virtual/online course. Students who are interested should contact their counselor regarding the process for enrolling in an online course.

117601 & 117602 (Year-long)
COLLEGE ALGEBRA
Grades: 10-12
1 Math credit
Prerequisite: Algebra 2 with Trigonometry or Department approval

This is a standard course in College Algebra that students may take in order to earn college credit through the University of Missouri, St. Louis. Topics include linear, quadratic, and rational equations and inequalities, the algebra and graphs of functions including polynomial, rational, exponential, and logarithmic, systems of equations, and sequences and series. This course is designed to fulfill one of the college mathematics requirements for students planning to earn either a Bachelor of Science or Bachelor of Arts degree.

117701 & 117702 (Year-long)
PRE-CALCULUS
Grades: 11-12
1 Math credit
Prerequisite: Algebra 2 with Trigonometry

This course is designed to prepare students for college level mathematics. Students will describe, analyze, and graph basic algebraic and transcendental functions. Students will also study sequences, series, probability, conic sections, and be introduced to the concept of limits. This class may be offered for college credit through University of Missouri - St. Louis.

118701 & 118702 (Year-long)
HONORS PRE-CALCULUS
Grades: 11-12
1 Math credit
Prerequisite: Honors Algebra 2 with Trigonometry or Department approval

This course is designed to prepare students for a calculus course during high school. The content consists of traditional pre-calculus topics, but the emphasis of the course is on the underlying structure of mathematics. Students will study, analyze, and apply basic algebraic and transcendental functions. A weighted grade is given.

117900
STATISTICS (Semester Only)
Grades: 10-12
½ Math credit
Prerequisite: Algebra 2

In this introductory course, students will collect data and use statistics as tools to recognize and examine the basic principles of describing and presenting data to reach reasonable conclusions. Students will explain the role of probability in statistics, analyze and compare various sampling distributions for both discrete and continuous random variables, and compute confidence intervals. The presentation, use, and interpretation of data, probability, sampling, correlation, and use of statistical software will be applied to current events and student directed investigations.

This course is also available as a completely virtual/online course. Students who are interested should contact their counselor regarding the process for enrolling in an online course.
119801 & 119802 (Year-long)
AP CALCULUS AB
Grade: 12
1 Math credit
Prerequisite: Honors Pre-Calculus or Pre-Calculus with department approval

This is an honors course that emphasizes a multi-representational approach to calculus through the exploration of limits, differentiation, integration and many applications within these areas. In this course students will explore the exploration of limits, differentiation, integration and many applications within these areas. In this course students will study in depth situations involving change and accumulation using descriptive, analytical, numerical and graphical approaches. This course prepares students to take the College Board Advanced Placement Calculus AB examination which fulfills the requirements for Calculus I and follows the syllabus approved by the AP Audit. A weighted grade is given.

119851 & 119852 (Year-long)
AP CALCULUS BC
Grade: 12
1 Math credit
Prerequisite: Honors Pre-Calculus

This is an honors course that emphasizes a multi-representational approach to calculus through the exploration of limits, differentiation, integration, series, parametric functions, polar functions and many applications within these areas. In this course students will study in depth situations involving change and accumulation using descriptive, analytical, numerical and graphical approaches. This course prepares students to take the College Board Advanced Placement Calculus BC examination which fulfills the requirements for Calculus I and follows the syllabus approved by the AP Audit. A weighted grade is given.

119901 & 119902 (Year-long)
AP STATISTICS
Grades: 11-12
1 Math credit
Prerequisite: Algebra 2 with Trigonometry

This Advanced Placement course is for students who wish to complete the equivalent to an introductory, non-calculus based, college course in statistics. Students gain experience in four broad themes: exploring data, planning a study, anticipating patterns, and statistical inference. This course prepares students to take the College Board Advanced Placement Statistics examination and follows the College Board's recommended syllabus. A weighted grade is given.

This course is also available as a completely virtual/online course. Students who are interested should contact their counselor regarding the process for enrolling in the online course.

039321 & 039322 (Year-long)
AP COMPUTER SCIENCE A
Grades: 11-12
1 Math Credit
Prerequisite: Introduction to Computer Science

The major emphasis of this course is on programming methodology, algorithms, data structures, and object oriented programming. Computer applications are used to develop student awareness of the need for these topics, as well as to provide topics for individual programming assignments. This course prepares students to take the College Board Advanced Placement Computer Science examination. A weighted grade is given.
**MUSIC**

127001 & 127002 (Year-long)
**CHORUS**
Grades: 9-12
1 Fine Arts credit
Prerequisite: None

The Chorus is open to anyone who enjoys singing. No previous singing experience is required. The class enables you to improve your singing skills with emphasis on understanding and enjoyment of music. Various concerts are presented throughout the year. Attendance is required for all performances and special rehearsals. Uniform attire is required.

127041 & 127042 (Year-long)
**CONCERT CHORALE**
Grades: 9-12
1 Fine Arts credit
Prerequisite: Audition

The Concert Chorale is a performing ensemble selected by individual audition. Designed for students with previous singing experience, this class emphasizes the improvement of vocal production, music reading skills, and general musicianship. Chorale members perform in several concerts and have the opportunity to participate in the St. Louis Suburban Choirs and Festival for solos and ensembles. If enrollment warrants, the choir may be divided into separate sections. Attendance is required for all performances and special rehearsals. Uniform attire is required.

127061 & 127062 (Year-long)
**CHAMBER CHOIR**
Grades: 9-10
1 Fine Arts credit
Prerequisite: Audition and recommendation of previous director

The Chamber Choir is a select performing ensemble. Emphasis is placed on the improvement of vocal production, music reading skills, and general musicianship through the study of advanced choral literature and techniques. Choir members perform in several concerts and have the opportunity to participate in the St. Louis Suburban Choir and Festival for solos and ensembles. If enrollment warrants, the choir may be divided into separate sections. Attendance is required for all performances and special rehearsals. Uniform attire is required.

127171 & 127172 (Year-long)
**CONCERT CHOIR MIXED (HONORS OPTION)**
Grades: 11-12
1 Fine Arts credit
Prerequisite: Audition

The Concert Choir is a major performing ensemble chosen by individual audition. Emphasis is placed on the improvement of vocal production, music reading skills, and general musicianship through the study of advanced choral literature and techniques. Choir members perform in several concerts with other ensembles; participate in competitions and festivals and present off-campus concerts. Students who sing in this choir are eligible to audition for the Missouri All-State Choir, the Missouri Honors Choir and the St. Louis Suburban Choir. Attendance is required for all performances and special rehearsals. Uniform attire is required. An Honors grade may be earned.

127181 & 127182 (Year-long)
**CONCERT CHOIR TREBLE (HONORS OPTION)**
Grades: 11-12
1 Fine Arts credit
Prerequisite: Audition

The Concert Choir is a major performing ensemble chosen by individual audition. Emphasis is placed on the improvement of vocal production, music reading skills, and general musicianship through the study of advanced choral literature and techniques. Choir members perform in several concerts with other ensembles; participate in competitions and festivals and present off-campus concerts. Students who sing in this choir are eligible to audition for the Missouri All-State Choir, the Missouri Honors Choir and the St. Louis Suburban Choir. Attendance is required for all performances and special rehearsals. Uniform attire is required. An Honors grade may be earned.
CONCERT ORCHESTRA 1
Grade: 9
1 Fine Arts credit
Prerequisite: Previous instrumental experience and audition for the instructor.

Concert Orchestra gives the student an opportunity to develop individual and ensemble musical expression. Skills taught include advanced bowing technique, left-hand technique including high-position patterns, ensemble playing, and improved sight-reading. Students learn how to musically interpret a variety of styles as they are introduced to standard orchestral literature from classical to popular music. Attendance is required for all performances and special rehearsals.

CONCERT ORCHESTRA 2
Grades: 10-12
1 Fine Arts credit
Prerequisite: Previous instrumental experience and audition for the instructor.

Concert Orchestra 2 gives the student an opportunity to continue to develop individual and ensemble musical expression and expand playing technique and concepts introduced in Concert Orchestra 1. Skills are improved in bowing technique, left-hand technique, including high-position patterns, ensemble playing, and sight-reading ability. Knowledge of style and musical interpretation increase as students perform standard orchestral literature from classical to popular music. Attendance is required for all performances and special rehearsals.

SYMPHONIC ORCHESTRA (HONORS OPTION)
Grades: 9-12
1 Fine Arts credit
Prerequisite: Previous instrumental experience and audition for the instructor.

Symphonic Orchestra is the most advanced school orchestra and one of the major performing ensembles representing the school. Membership is based on a high level of string instrument playing ability, prior orchestral experience, sight reading skills, and overall ensemble skills. Students will be selected by audition only. Members will be added to maintain a balanced orchestral instrumentation. Brass, woodwind, and percussion students enrolled in Symphonic Band are selected for full orchestra experiences. The ensemble will study and perform repertoire chosen from a wide variety of all historical periods stressing tone quality, musicianship, and interpretation of various styles. This group offers the student many performance opportunities at school, off-campus, and at festivals. Members of Symphonic Orchestra are eligible to audition for such honor groups as All-Suburban Orchestra and All-State Orchestra as well as various small ensembles. Attendance is required for all performances and special rehearsals. An Honors grade may be earned by juniors and seniors only.
CONCERT BAND
Grades: 9-12
1 Fine Arts credit
Prerequisite: Previous instrumental experience and consent of instructor. Audition may be required.

Concert Band consists of students who have had previous instrumental experience. Basic fundamentals of music, interpretation of performance styles, and musicianship are emphasized. Several concerts are presented each year. Members of the group are eligible to audition and participate with various other musical ensembles. Attendance is required for all performances and special rehearsals.

JAZZ BAND
Grades: 9-12
1 Fine Arts credit
Prerequisite: Member of concert unit and/or consent of instructor. Audition may be required.

Jazz Band is designed to give students an opportunity to develop group jazz and jazz related performance skills within a select instrumental ensemble. Individual improvisation, ensemble performance, and jazz theory are emphasized. Instrumentation is flexible, but appropriate size and balance will be maintained in order to perform repertoire authentically and artistically. Bass, piano, and guitar players are encouraged to contact the instructor to determine if they qualify prior to enrollment. Attendance is required at all performances and special rehearsals.

SYMPHONIC BAND PERCUSSION (HONORS OPTION)
Grades: 9-12
1 Fine Arts credit
Prerequisite: Previous instrumental experience and consent of instructor. Audition is required.

Symphonic Band-Percussion consists of students who have achieved a high level of proficiency as performers on percussion instruments and are seeking many performance opportunities. Symphonic Percussion is designed for students who are willing to accept the responsibilities of participating in an active performing group. Students accepted in Symphonic Percussion are automatically included in Marching and Symphonic Bands. Attendance is required for all performances and special rehearsals. An Honors grade may be earned (juniors and seniors only).

MARCHING BAND
Grades: 9-12
0.130 Fine Arts credit
Prerequisite: Previous instrumental experience and consent of instructor. Audition may be required.

During the first semester, members of the Symphonic Band are automatically included in the Marching Band, which performs at home football games, parades, competitions, and other extracurricular activities. Attendance is required for all performances and special rehearsals. A fee may be required to pay for optional trips and other program expenses.

SYMPHONIC BAND 2 (HONORS OPTION)
Grades: 9-12
1 Fine Arts credit
Prerequisite: Previous instrumental experience and consent of instructor. Audition may be required.

Symphonic Band 2 is designed for students who have achieved a high level of proficiency as performers through their previous musical experiences. Members of the Symphonic Band 2 are automatically included in the Marching Band and will participate in an active fall marching season. Through many performance opportunities students will be introduced to a wide variety of quality band literature representing many styles and historical periods. Musicianship, listening, interpretive and reading skills will be refined and individual responsibility within the ensemble emphasized. Symphonic Band 2 students are eligible to audition and participate with the orchestra, the jazz band, and with various small ensembles. Attendance is required for all performances and special rehearsals, including a summer band camp. An Honors grade may be earned by juniors and seniors only.

PIANO
Grades: 9-12
½ Fine Arts credit
Prerequisite: None

This course is designed for beginning piano students. Students will become familiar with the digital keyboard and will learn to read notes and chord symbols. Personal headphones with an adaptor are required.
127620
PIANO 2
Grades: 9-12
½ Fine Arts credit
Prerequisite: Piano or permission of instructor

This course is designed for students who have had some previous piano experience. Simple scales and chords will be presented along with the study of piano literature from every period of music history. Personal headphones with an adapter are required.

127630
GUITAR
Grades: 9-12
½ Fine Arts credit
Prerequisite: None

In this Guitar course, introductory skills are taught for the acoustic (non-electric) guitar. Basic fundamentals of reading music notation, rhythm, and chords are incorporated. Students will learn several styles of playing including folk, country, blues, and rock. Both finger picking and chording will be taught. Students may use their own acoustic guitar or make arrangements to use a school guitar.

127640
GUITAR 2
Grades: 9-12
½ Fine Arts credit
Prerequisite: Guitar or satisfactory completion of a proficiency exam before enrollment. See instructor.

In the Guitar 2 course, students will continue to study the basic styles of playing on the acoustic guitar, including classical, country, rock, and blues. Students will improve their playing technique, become more skilled at note reading, learn special chords and effects, and will understand how to use rhythmic and melodic patterns in improvisation. Students may use their own acoustic guitar or make arrangements to use a school guitar.

129701 & 129702 (Year-long)
AP MUSIC THEORY
Grades: 10-12
1 Fine Arts credit
Prerequisite: Permission of the instructor

Advanced Placement music Theory is a course designed to cover all material within the scope of work that would be equivalent to first year college courses in Music Theory and Ear Training. More specifically, it aims to prepare students to score a 3, 4, or 5 on the AP Music Theory Test prepared by the AP College Board. Curriculum is aligned directly with the guidelines laid out in the AP College Board Course Description for AP Music Theory.

The foundation of knowledge presented in this year-long course will provide students with the opportunity to develop, practice, and master music theory skills essential to success in post-secondary music theory course work.

127760
MUSIC DESIGNS
Grades: 9-12
½ Fine Arts credit
Prerequisite: None

The Music Designs course provides students important knowledge and skills necessary to better appreciate music and become informed music consumers. Students will trace the development of Western music genres from their beginnings to present day through exploration of composers’ lives, and the historical and social contexts of the times. Listening and analytical skills are developed as students become familiar with music from a variety of historical periods, styles, and cultures.
HEALTH

077100
HEALTH AND WELLNESS
Grade: 10
½ Health credit (required)
Prerequisite: Sophomore standing

Health and Wellness education is required for all students during their sophomore year. This comprehensive course includes the topics of personal wellness, nutrition, safety and first aid, disease prevention, human sexuality and healthy relationships, substance abuse and prevention, and community and environmental health. This course meets the 1/2 credit health education requirement for high school graduation.

This course is also available as a completely virtual/online course. Students who are interested should contact their counselor regarding the process for enrolling in an online course.

PHYSICAL EDUCATION

9th Grade
Physical Fitness Concepts (prerequisite to all other PE courses)

10th, 11th, and 12th Grades
All other PE courses will satisfy the additional Physical Education course requirements.

GRADUATION REQUIREMENTS:

1. All students are required to pass Physical Fitness Concepts.

2. Students must earn an additional ½ unit of credit in grades 10-12. It is recommended that all students take a PE course during their 11th and/or 12th grade year.

3. Students may elect to take physical education for additional credit.

4. Students may not repeat physical education courses. Exception: Strength & Conditioning.

5. A maximum of four units of physical education may be counted toward the required 24 units of credit for graduation.
087110
PHYSICAL FITNESS CONCEPTS
Grades: 9-10
½ Phys Ed credit (required)
Prerequisite: Freshman or sophomore standing

This course is the first required course to be taken in the physical education department and fulfills one-half of the physical education requirements. The content of the course involves participation in physical fitness activities, an aquatic fitness unit, and exposure to a variety of sport and lifetime-recreational activities. Emphasis will be placed on self-assessment, achievement, and maintaining of personal health-related physical fitness goals. As a requirement of the course, the students will be responsible for developing a personal fitness plan.

084950
LET'S MOVE TOGETHER
Grades: 9-12
½ Phys Ed credit
Prerequisite: Department approval

This course provides modified instruction for students with unique abilities in the area of physical education. Students will develop physical and fundamental motor skills and patterns (throwing, catching, walking, running), as well as skills in aquatics, dance, and individual group games and sports. Each student will be working together with general education mentors in grades 10-12, to increase competency in fitness and sport skills, and increase enjoyment of physical activity.

087950
PE MENTOR
Grades: 10-12
½ Elective credit
Prerequisite: Physical Fitness Concepts and 2nd Required PE Course

This course will give students the opportunity to improve their skills in mentoring others as they serve as assistants for students with physical and developmental disabilities who are enrolled in Physical Education. Students will take on the role of buddies to provide leadership in a variety of physical fitness games and activities.

087140
COMPETITIVE SPORTS AND GAMES
Grades: 10-12
½ Phys Ed credit
Prerequisite: Physical Fitness Concepts

This course will include a variety of fitness activities and team sport activities. Instruction is aimed at developing fitness and sports skills, as well as an understanding of the rules of traditional and non-traditional team sports games. Students will also examine coaching and team strategies, and officiating mechanics for each sport. This course meets the second 1/2 physical education credit requirement for graduation.

087150
LIFETIME AND RECREATIONAL SPORTS
Grades: 10-12
½ Phys Ed credit
Prerequisite: Physical Fitness Concepts

This course includes a variety of recreational and outdoor sport activities such as tennis, golf, badminton, pickle ball, orienteering and archery. A strong emphasis will be placed on enhancing individual sport skills and fitness through non-contact sports.

087200
STRENGTH AND CONDITIONING
Grades: 10-12
½ Phys Ed credit (May be repeated for additional elective credit)
Prerequisite: Physical Fitness Concepts

This course meets the requirements for the second, one-half credit of physical education, or may be taken for elective credit. The content of the course includes basic weight training techniques, as well as training practices and safety procedures in the weight room. Students will learn a variety of lifts and strength training principles for developing muscle and endurance. Students will also participate in a variety of exercises and activities that will develop muscle fitness, as well as cardiovascular fitness, flexibility and fitness skills, such as agility and power.
087300
ADVENTURE PURSUITS
Grades: 10-12
½ Phys Ed credit
Prerequisite: Physical Fitness Concepts

This course will promote components such as team-building, critical thinking, cooperation and encouragement through such activities as cycling, rock climbing, kayaking, orienteering and outdoor living. Students will be tested on proper equipment usage and safety procedures.

087400
WALKING AND LOW-IMPACT PHYSICAL ACTIVITIES
Grades: 10-12
½ Phys Ed credit
Prerequisite: Physical Fitness Concepts

This course introduces students to walking for fitness, as well as a variety of other low-to-moderate lifetime and leisure physical activities. A major expectation of this course is for students to develop their personal fitness and to develop competency with a variety of physical activities that promote lifelong fitness. Students will also be expected to assess their personal fitness and develop a personal health plan, incorporating fitness training principles, as well as safety and dietary guidelines. This course meets the second 1/2 physical education credit requirement for graduation.

087820
AQUATIC EXPERIENCES/SCUBA
Grades: 10-12
½ Phys Ed credit
Prerequisite: Physical Fitness Concepts and 2nd required PE course

This course will include small watercraft experiences, advanced pool activities, and scuba diving instruction and certification. A parental waiver and fee is required for PADI (Professional Association of Diving Instructors) Certification. The course is an activity-based class and is only recommended for those who are self-motivated and are strong swimmers. Cardiovascular fitness will be developed throughout the semester through participation in various aquatic activities. Scuba and small craft experiences may require the class to participate in off-campus field trips.

087830
LIFEGUARD TRAINING
Grades: 10-12
½ Phys Ed credit
Prerequisite: Physical Fitness Concepts

This course will provide students with all the latest American Red Cross standards for Lifeguarding in regards to injury prevention and rescue skills. The course content also includes the duties and responsibilities of a professional lifeguard. In order to receive lifeguard certification, students will be required to be 15 years old upon completion of the course and meet all American Red Cross course requirements, which includes both physical and knowledge based skills. This course meets the second 1/2 physical education credit requirement for graduation.

087960
MOVEMENT 2 MUSIC
Grades: 10-12
½ Phys Ed credit
Prerequisite: Physical Fitness Concepts

This course allows students an opportunity to participate in a variety of individual fitness pursuits, such as Pilates, Yoga, Zumba, Walking, and Aerobics (Step, Dance, and Water). Music will be incorporated to help entertain students as they engage in moderate-to-vigorous physical fitness. Students will develop their competency in rhythms, dance, and fitness skills that will enable them to confidently and safely pursue personal fitness opportunities. Students will be expected to assess their personal fitness and develop a personal health plan, incorporating fitness training principles and dietary guidelines. This course meets the second 1/2 physical education credit requirement for graduation.
SCIENCE

Missouri requires three years of science to graduate from high school. One year must be in the physical sciences, a second year must be in the life sciences and the third year may be in either physical or life science. Parkway School District aligned its curriculum to these requirements and now each student is required to have a core experience in science which includes two semesters of life science followed by a semester introduction to the chemical sciences and a semester introduction to physics. The final year of the state requirement can be fulfilled by taking a year-long course in chemistry, physics or a combination of semester classes, such as the third semester of biology plus another elective (such as Anatomy & Physiology, Astronomy & Meteorology, Environmental Science, or Geology). Students who anticipate attending a four-year college or university should take an additional year of chemistry as well as physics. We continue to encourage students to take as many science classes as reflects their interest and plans for a future career. For most, this will be more than the minimum three year requirement described by the state. When considering elective classes we recommend a year of chemistry and physics before considering additional electives. Note that many colleges and universities expect a student to be maximally prepared in the sciences and hence to have taken a full four years of science in high school.

Options for Science Curriculum

Each student is required to have three science credits to graduate. There are three basic paths through the science curriculum. The first path (Path A) is for those having significant difficulty in math and science and is typically appropriate for students not seeking a four-year degree after graduation from high school. The second path (Path B) takes general science classes and is appropriate for those students intending to attend a four year college/university but not planning on majoring in science. The third path (Path C) takes honors level science classes and is appropriate for those students intending to attend a four year college/university and plan on majoring in science or those students who seek admission to a selective college/university. Those students planning on majoring in science or attending a more selective college should plan on taking AP classes.

*Path A will satisfy both Missouri and Parkway science graduation requirements.*
137140  
**BIOLOGY 1: CELLS AND VARIATION**  
Grades: 9-10  
½ Science credit  
Prerequisite: None  

This is the initial course in a sequence of biology courses that together will provide a college preparatory experience in the life sciences. This course has the theme: What is the basis of life and how does it vary? Students will conduct controlled experiments using the experimental design process. They will study biochemistry, prokaryotic and eukaryotic cells and cell environment, aspects of cell division, Mendelian genetics, meiosis, and the unity and diversity of life.

138140  
**HONORS BIOLOGY 1: CELLS AND VARIATION**  
Grades: 9-10  
½ Science credit  
Prerequisite: Department approval  

This is the initial course in a sequence of biology courses that together will provide a college preparatory experience in the life sciences. This course has the theme: What is the basis of life and how does it vary? Students will conduct controlled experiments using the experimental design process. They will study biochemistry, prokaryotic and eukaryotic cells and cell environment, aspects of cell division, Mendelian genetics, meiosis, and the unity and diversity of life. It is designed for the student who anticipates a science-based career, desires an accelerated science program, and intends to take advanced courses in science. A weighted grade is given.

137150  
**BIOLOGY 2: EVOLUTION AND ECOLOGY**  
Grades: 9-10  
½ Science credit  
Prerequisite: Biology 1: Cells and Variation  

This second course in the biology sequence has a theme of: How is Life Interrelated? Students will explore the unity and diversity of life through the study of evolution by natural selection. The structure and replication of DNA along with protein synthesis will be examined. The interdependence of all living things will be explored with emphasis on ecological processes and human impact on the biosphere. This course is designed to apply mathematical concepts and critical thinking. It is recommended for the student who anticipates a science-based career, desires an accelerated science program, and intends to take advanced courses in science. The Missouri Biology End of Course Assessment is given at the conclusion of this course. A weighted grade is given.

138150  
**HONORS BIOLOGY 2: EVOLUTION AND ECOLOGY**  
Grades: 9-10  
½ Science credit  
Prerequisite: Honors Biology 1: Cells and Variation or Department approval  

This second course in the honors biology sequence has a theme of: How is Life Interrelated? Students will explore the unity and diversity of life through the study of evolution by natural selection. The structure and replication of DNA along with protein synthesis will be examined. The interdependence of all living things will be explored with emphasis on ecological processes and human impact on the biosphere. This course is designed to apply mathematical concepts and critical thinking. It is recommended for the student who anticipates a science-based career, desires an accelerated science program, and intends to take advanced courses in science. The Missouri Biology End of Course Assessment is given at the conclusion of this course. A weighted grade is given.

137160  
**BIOLOGY 3: BIOTECHNOLOGY AND SYSTEMS**  
Grades: 10-12  
½ Science credit  
Prerequisite: Biology 2: Evolution and Ecology, Matter and Change or Department approval  

This course completes the initial college preparatory sequence and has the themes: How does biotechnology impact life? How is life organized for success? The students will investigate a variety of concepts such as DNA fingerprinting and genetic engineering. Students will explore and compare plants and animals (including humans) at the system and molecular levels. Other topics will include photosynthesis and through cellular respiration. These topics will be presented numerous laboratory activities and will emphasize process and thinking skills.
138160
HONORS BIOLOGY 3: BIOTECHNOLOGY AND SYSTEMS
Grades: 10-12
½ Science credit
Prerequisite: Honors Biology 2: Evolution and Ecology, Matter and Change or Department approval

This course completes the initial college preparatory sequence and has the themes: How does biotechnology impact life? and How is life organized for success? The students will investigate a variety of concepts such as DNA fingerprinting and genetic engineering. Students will explore and compare microbes, plants, and animals (including humans) at the system and molecular levels. Other topics will include metabolism and disease. These topics will be presented through numerous laboratory activities and will emphasize process and thinking skills. This course is designed to challenge the top ten percent of students. It is more intensive and requires increased levels of critical thinking and mathematical reasoning. It is designed for the student who anticipates a science-based career, desires an accelerated science program, and intends to take advanced courses in science. A weighted grade is given.

137241 & 137242 (Year-long)
PRINCIPLES OF CHEMISTRY
Grades: 10-12
1 Science credit
Prerequisite: Successful Completion of Bio 1 and 2

This course is designed for students who wish to obtain an understanding of the science of chemistry. The major concepts of chemistry are presented with an emphasis of its application in everyday life. The course will cover matter and its properties, atomic structure, the periodic table, chemical bonding, chemical reactions, properties of gases, solutions, introduction to thermochemistry, acid/base chemistry, and nuclear chemistry. These topics will be complemented with activities and laboratory investigations so student can gain hands-on experience. Principles of Chemistry is designed for students who want a rigorous study of chemistry topics and are pursuing a career in a non-STEM field.

137201 & 137202 (Year-long)
CHEMISTRY
Grades: 10-12
1 Science credit
Prerequisite(s): Matter and Change and Algebra 1 with a C or better or Department approval

This course can fulfill the third required year of science credit and completes the recommended core curriculum in chemistry. Topics include atomic structure and history, The Periodic Table and periodicity, bonding and nomenclature, the mole and stoichiometry, states of matter, kinetics, thermochemistry, and acids and bases. Group interaction, discussion, and cooperation during laboratory practice and mathematical problem-solving sessions will be commonplace. Open-ended lab experiences requiring student collaboration, technology, and multiple-step problem solving execution will be frequent.

138201 & 138202 (Year-long)
HONORS CHEMISTRY
Grades: 10-12
1 Science credit
Prerequisite: Enrollment in +Alg 2 Trig or Department approval

This course is designed for the student who has an exceptional interest in science and desires an accelerated science program. Topics include atomic structure, periodicity, bonding, nomenclature, chemical reactions, stoichiometry, gas laws and physical states, thermochemistry, solutions, kinetics and equilibrium, and acids and bases. Group interaction, discussion, and cooperation during laboratory practice and mathematical problem-solving sessions will be commonplace. Open-ended lab experiences, requiring student collaboration and multiple-step problem solving execution will be frequent. A weighted grade is given.
137301 & 137302 (Year-long)
PHYSICS
Grades: 11-12
1 Science credit
Prerequisite: Forces and Motion in 1D (recommended grade of C or better), Algebra 2 with Trigonometry (recommended grade of C or better) or Department approval

Physics is recommended for any student who is interested in a STEM career field or who wants to prepare for a college level physics course. Physics uses advanced algebra and trigonometry to investigate the following topics: forces, motion in one- and two-dimensions, energy and momentum, gravitation, mechanical waves, light and optics, and electricity. Students will investigate these topics with activities and laboratory investigations to gain hands-on experiences.

137361 & 137362 (Year-long)
PRINCIPLES OF PHYSICS
Grades: 9-12
1 Science credit
Prerequisite: Algebra 1, Geometry, Biology, and Chemistry or Principles of Chemistry

Principles of Physics is designed for students who want a rigorous study of physics topics and are pursuing a career in a non-STEM field. The major concepts of physics will be presented with an emphasis of its application in everyday life. Topics included in this class are motion, forces, energy, electricity, optics and waves. These topics will be complemented with activities and laboratory investigations so students can gain hands-on experiences.

137461 & 137462 (Year-long)
HUMAN ANATOMY & PHYSIOLOGY (HONORS OPTION)
Grades: 11-12
1 Science credit
Prerequisite: Successful completion of Biology 1: Cells and Variation and Biology 2: Evolution and Ecology

This course will examine through group work, dissection, reading, and guided instruction, the major human body systems that support, move, maintain, and control the body. Medical terminology will be used and reviews of patient case studies will be incorporated. Normal functioning of human tissues, organs, and systems will be compared to pathologic conditions. This class will benefit anyone who wants to learn more about the human body. An optional field trip to view cadavers will be offered. An honors grade may be earned upon completion of the honors option requirements.

137430
ORGANIC CHEMISTRY
Grades: 11-12
½ Science credit
Prerequisite: Chemistry or Honors Chemistry or Instructor approval

This course is designed to introduce students to the chemistry of carbon and to give them a basic understanding of organic reactions. The course will cover nomenclature, structural formulas, isomers, optical activity, polymers, sugars, lipids, dyes, reactions of functional groups, qualitative analysis, organic synthesis and other topics selected by the instructor. Wherever possible, the study of these topics will be complemented by laboratory investigations. The content of this course will assist students who are planning to take upper level biology in high school (Advanced Biology) and/or organic chemistry and upper level biology courses in college.

137490
GEOLOGY
Grades: 11-12
½ Science credit
Prerequisite: Successful completion of Biology 1 and 2, Matter and Forces or Department approval

Earth is a dynamic planet with many forces shaping its surface. From the eroding of canyons to the folding of mountains, this course will explore the processes that build and destroy. Looking at current Earth features like glaciers, volcanoes, and the ocean floor will help us to understand our home and all of its inhabitants of today and yesteryear.

137500
ENVIRONMENTAL SCIENCE
Grades: 11-12
½ Science credit
Prerequisite: One credit of Biology and Junior or Senior standing

Environmental Science centers on the principles of ecology. The student will investigate the way nature operates when left undisturbed and when influenced by man. Major concepts include: studies of soil, air and water, wildlife, biotic and abiotic factors, urban ecology, population dynamics, indicator organisms, succession, pathology of the environment, energy and conservation. The student will use laboratory experiences, field trips, audio-visuals, current literature, guest speakers, and textbook studies in an investigation of nature’s way.
137550
ASTRONOMY AND METEOROLOGY
Grades: 11-12
½ Science credit
Prerequisites: Successful completion of Biology 1 and 2,
Matter and Forces or Department approval

This course is designed to explore and understand the world
around us. What factors influence weather? How do we
predict weather? How have humans interactions with the
Earth lead to local and global changes? This course will also
explore The NASA program, the space race, and
observations made by astronomers and astrophysicists
which allowed a greater depth of knowledge of the solar
system including the sun, moon, and stars.

137910
SCIENCE SEMINAR
Grades: 11-12
½ Science credit
Prerequisite: Successful completion of Science graduation
requirements

This course is designed for students who are interested in
investigating and discussing contemporary science. The
students and instructor will choose topics that interest the
students and lead to a better understanding of science as an
integrated body of knowledge. The student should come to
this class having a commitment to read the materials
assigned and to prepare those assignment materials for
discussion. Contemporary books, magazines, media, and
the internet will be the primary resources for the coursework.
Demonstrations, laboratory experiences, and problem
solving activities will further develop the curriculum.

139151 & 139152 (Year-long)
AP BIOLOGY
Grades: 11-12
1 Science credit
Prerequisite: 2 Semesters of Biology or Honors Biology, 2
Semesters of Chemistry or Honors Chemistry or currently
enrolled

This course is an introductory college-level biology course.
Students will cultivate their understanding of biology through
inquiry-based investigations as they explore the topics of
evolution, cellular processes including energy and
communication, genetics, information transfer, ecology, and
interactions. This course prepares students to take the
College Board Advanced Placement Biology examination. A
weighted grade is given.

139251 & 139252 (Year-long)
AP CHEMISTRY
Grades: 11-12
1 Science credit
Prerequisite: Chemistry, Honors Chemistry or Department
approval

AP Chemistry course is designed to be equivalent to a first
year general chemistry course in college. Students in this
course will attain a depth of understanding of fundamentals
and competence in dealing with chemical problems.
Qualitative and quantitative study of topics will include:
atomic theory and atomic structure, chemical bonding,
gases, liquids and solids, chemical reactions, stoichiometry,
equilibrium, kinetics, thermodynamics. This course provides
laboratory experience comparable to a typical college
course and prepares students for the AP Chemistry exam.

139321
AP PHYSICS C: MECHANICS
Grades: 11-12
½ Science credit
Prerequisite: Concurrent enrollment in Honors Pre-
Calculus or Calculus

The course is a calculus-based physics course that covers
kinematics, dynamics, energy, momentum, rotation,
gravitation and oscillation. This course is the first of a two-
course sequence that is equivalent to the introductory
calculus based physics sequence taken by science and
engineering students at most colleges and universities. This
course prepares students for the AP Physics C: Mechanics
exam. A weighted grade is given.
139332
AP PHYSICS C: ELECTRICITY & MAGNETISM
Grades: 11-12
½ Science credit
Prerequisite: Concurrent enrollment in Honors Pre-Calculus or Calculus

This course is a calculus-based physics course that covers the topics of conductors, capacitors, and dielectrics, electric circuits, magnetic fields, and electromagnetism. This course is the second of a two-course sequence that is equivalent to the introductory calculus based physics sequence taken by science and engineering students at most colleges and universities. This course prepares students for the AP Physics C: Electricity and Magnetism exam. A weighted grade is given.

139411 & 139412 (Year-long)
AP PHYSICS 1
Grades: 11-12
1 Science credit
Prerequisite: Honors Algebra 2 / Trig or Department approval

AP Physics 1 is the study of trigonometry based physics. Students will investigate forces, motion in one and two-dimensions, circular and rotational motion, gravitation, energy and momentum, mechanical waves, and introductory static electricity and DC circuits. This course prepares students to take the College Board Advanced Placement Physics 1 examination and is equivalent to college level General Physics 1. A weighted grade is given.

139421 & 139422 (Year-long)
AP PHYSICS 2
Grade: 12
1 Science credit
Prerequisite: Physics, AP Physics 1 and Pre-Calculus

The study of trigonometry based physics culminates in AP Physics 2. Students will investigate optics, fluid mechanics, thermodynamics, electrical fields, currents and circuits, magnetism, and quantum and nuclear physics. This course prepares students to take the College Board Advanced Placement Physics 2 examination and is equivalent to college level General Physics 2. A weighted grade is given.

139501 & 139502 (Year-long)
AP ENVIRONMENTAL SCIENCE
Grades: 11-12
1 Science credit
Prerequisite: 1 credit of Biology and 1 credit of Chemistry (Chemistry may be taken concurrently)

Advanced Placement Environmental Science is devoted to applying scientific processes and reasoning to understanding the environment. This course examines the geological and biological factors that interact to create Earth’s environmental systems and then uses this understanding to investigate the biological basis of current environmental issues with topics including natural resources, energy, pollution, climate change, population growth, and biodiversity conservation. Emphasis is placed on prevention of environmental crises or mitigating them if they occur. This course prepares students for the AP Environmental Science exam.
In an effort to ensure that all of our elective courses are staffed, we have decided to offer the following electives on an every other year cycle.

**Cycle One - School year that begins with an odd number (next year):** Anthropology, AP US Hist, Gender, Time and Place, History of the American West. Students who are interested in these classes should sign up for them next year, because they are not offered the year after next.

**Cycle Two - School year that begins with an EVEN number (NOT next year, but in 2020-2021):** Ancient Civilizations, AP European History, Colonial American History, Contemporary Issues. Students should not sign up for these courses. Wait until next year’s registration process.

Social Studies courses in grades nine through twelve fall under three broad headings – American studies, world studies, and behavioral studies. It is required that a student take three years of Social Studies to fulfill state graduation requirements. A student, however, may take additional Social Studies courses to fulfill general elective requirements.

**Grade 9**
- Modern United States History (required – two semesters)
  OR
- Honors Modern United States History (two semesters)

**Grade 10**
- World History (required – two semesters)
  OR
- AP World History (two semesters)

**Grade 11**
- Government (required – one semester)
  OR
- AP Government (two semesters)

**Grades 11 and 12**
Students are required to enroll in one Social Studies elective course to fulfill graduation requirements. Students are strongly encouraged to take more than one social studies elective. Additional Social Studies elective credits can also satisfy general elective requirements.

Social Studies Elective courses are listed below. A minimum of one semester (1/2 credit) is required:

<table>
<thead>
<tr>
<th>Social Studies Electives</th>
<th>American Studies</th>
<th>World Studies</th>
<th>Behavioral Studies</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>

<td>In this course, students closely examine federal and state systems, structures, principles, and historical foundations of government. Attention will be given to the role of economics, social structures, individual perspectives, interest groups, and foreign influences in American politics. Students will think critically about issues concerning the United States' government, the impact of decision-making on a variety of peoples and groups, and their own role as an engaged citizen. Successful completion of this course is required for graduation. In accordance with Missouri law, all Parkway students must pass examinations on their knowledge of the United States and Missouri Constitutions administered during this course. The course also includes the End of Course Assessment required by the state of Missouri. This course is also available as a completely virtual/online course. Students who are interested should contact their counselor regarding the process for enrolling in an online course.</td>

159121 & 159122 (Year-long)  
AP US GOVERNMENT & POLITICS  
Grades: 11-12  
1 Social Studies credit  
Prerequisite: Junior or Senior standing  

This course is designed to challenge students who are interested in advanced studies in government. Students study the history, institutions, branches, functions, electoral processes, and citizens' role in the governments of the local area, the state of Missouri, and the United States. The course includes an emphasis on the rights and responsibilities of citizenship, as well as a study of the principles and provisions of the Missouri and the United States Constitutions. The government of the United States is compared with the governments of other industrialized democracies as well as the political systems of Communist states and developing countries. Students investigate the rich diversity of political life, structures, institutions, processes, policies, and change over time across the globe. The course includes the End of Course Assessment and The Constitution examination(s), as required by the state of Missouri. Students must pass The Constitution examination(s) to meet state graduation requirements. This course prepares students for the AP US Government & Politics and the AP Comparative Government & Politics exams. Students have the option to earn college credit through the AP examination. A weighted grade is given.

157360  
HISTORY OF ST. LOUIS  
Grades: 11-12  
½ Social Studies credit  
Prerequisite: Junior or Senior standing  

This course will provide an overview of the unique and diverse history of St. Louis. Students will follow the course of development of this small 18th Century trading post as it expands into a major metropolis at the turn of the 20th Century, and culminate with an examination of the city as it now exists. The course will discuss individuals who are important to the development of the city, but will emphasize the significant contributions (e.g. architecture, music, art) of the culturally diverse people who have made the city of St. Louis what it is today. The course will culminate with students examining and debating contemporary, as well as future issues that face our community.

157370  
MEDIA IN AMERICA  
Grades: 11-12  
½ Social Studies credit  
Prerequisite: Junior or Senior standing  

This course will examine the role of various types of media such as print, film, cinema, radio, television, newspapers, news magazines, campaign ads, and the Internet in shaping American culture and history. The changing media and changing role of the influence of the media will be examined related to significant topics, periods, and events in history such as the role of colonial news in the American Revolution, enticing people to move west, stating the north/south case at the time of the Civil War, building the west, influencing views during war, as well as shaping today’s issues and events in our own nation and abroad.

157870  
COMMUNITY AND LAW ENFORCEMENT OUTREACH  
Grades: 11-12  
½ Social Studies credit  
Prerequisite: Junior or Senior standing  

This course will focus on generating balanced community-based dialogue and solutions to ongoing tension and conflict between community members and law enforcement officials. The aim will be to engage, inform, empower, and activate students as viable stakeholders in this cause. Historical inquiry will be a foremost priority and essential to understanding the societal forces that have generated present circumstances and tension—the notion of ‘lucky’ and ‘unlucky’ zip codes in the St. Louis Region, the history of racial segregation and violence, coupled with an examination of the rise of ‘law and order’, ‘War on Drugs’, ‘Just Say No’ and ‘Three Strikes’ political responses. With context thus established, a thorough debate on the intersecting issues of gun rights vs gun control will follow. To conclude the semester, students will be charged with generating, coordinating, promoting, and conducting (a) community-based solution(s) aimed at alleviating the tense relationship many citizens have with law enforcement and vice-versa. The ultimate product(s) will be open to student input, but some examples may include an Open House with Gallery Walk for invited community stakeholders, a panel discussion with a balance of experts, and/or a barbecue at a local park that includes members of the community and law enforcement officials.
157571 & 157572 (Year-long)
AFRICAN-AMERICAN HISTORY & LITERATURE
Grades: 10-12
1 Social Studies credit
Prerequisite: Successful completion of English I and Modern US History

This interdisciplinary course will focus on the study of African-American history and culture from the roots in Africa to the modern day. Through a blending of the study of African-American history and literature, this course serves to broaden students' knowledge of African-Americans regarding the broader concepts of race, class, and gender. The historical survey will include African origins and Diasporas, slavery and reconstruction, all the way up to African-Americans in the 21st century. A variety of literary pieces and historical texts from diverse authors and time periods serve as the foundation of materials for the course. Students will develop high level skills in literary and historical reading, writing, and analysis.

Semester 1: Africa and the African Diaspora
Students will explore the beginnings of African culture, history, and literature and how these spread throughout and further influenced the development of other cultures throughout the world.

Semester 2: Africans in America
Students will examine African-American culture, history and literature from the Trans-Atlantic Slave Trade up until current day.

157750
CRIME AND THE LAW
Grades: 11-12
½ Social Studies credit
Prerequisite: Junior or Senior standing

This course studies crime in America and how our society deals with those who break its laws. Topics studied will include an examination of civil and criminal law, constitutional law, individual rights, theories of the causes of criminal behavior, the structure and function of the legal system, and examination of the penal system, and the roles of police, attorneys, and judges. The course will introduce landmark decisions, case studies, and guest speakers. This course will provide for individual research.

157790
SOCIOLOGY
Grades: 11-12
½ Social Studies credit
Prerequisite: Junior or Senior standing

Sociology is the study of human behavior in groups which range from two people to societies of millions of people. Students will gain an understanding of important sociological concepts such as culture, socialization, status, role and group dynamics. Students will use the tools and techniques of sociology along with audiovisuals, group discussions, and simulations to investigate and analyze human relationships.

This course is also available as a completely virtual/online course. Students who are interested should contact their counselor regarding the process for enrolling in an online course.

157800
PSYCHOLOGY
Grades: 11-12
½ Social Studies credit
Prerequisite: Junior or Senior standing

Psychology introduces students to the systematic and scientific study of the behavior and mental process of human beings. Psychology is a behavioral science, which studies the individual's personality, emotions, intelligence, interactions, creativity and motivation. Topics include an introduction to the field, experimental method, sensation, perception, learning, personality, memory and thinking, abnormal psychology, states of consciousness and psychological therapy.

159801 & 159802 (Year-long)
AP PSYCHOLOGY
Grades: 11-12
1 Social Studies credit
Prerequisite: Junior or Senior standing

AP Psychology introduces students to the systematic and scientific study of the behavior and mental process of human beings. Students will be exposed to psychological facts, principals, and phenomena associated with each of the major subfields within psychology. They will also learn about the methods psychologists use to explore the process involved in normal and abnormal perceptions, thoughts, feelings and actions. This course prepares students to take the AP Psychology exam. A weighted grade is given.
157830
MODERN WARFARE
Grades: 11-12
½ Social Studies credit
Prerequisite: Junior or Senior standing

This course will take a look at some very important questions concerning the origins of war as well as the study of World War I and World War II, the Cold War conflicts, the Gulf War, and the War on Terrorism. Students will confront and discuss tough questions such as "Is war part of human nature?" "What reasons (if any) justify the use of war?" "What limits should be used in waging war?" and "Can there ever be an end to warfare altogether?" An in-depth look into the military history of our past century will challenge students to evaluate how war fits into our future world.

157840
PHILOSOPHY AND ETHICS
Grades: 11-12
½ Social Studies credit
Prerequisite: Junior or Senior Standing

This course is an introduction to the broad, essential, philosophical questions raised and theories proposed about human nature, decision-making, societal problems and issues, and the world. Students will become familiar with the specialized knowledge gained from research and discussion, communication skills, and personal attitudes needed to engage in philosophical discourse and apply these understandings to their lives.

158700
ECONOMICS (HONORS)
Grades: 11-12
½ Social Studies credit
Prerequisite: Junior or Senior standing

This course introduces students to basic economic concepts associated with our free enterprise/capitalistic economy. Basic principles included in the course include scarcity, production, distribution, consumption, supply/demand, inflation, recession, business, labor, and banking. Students will have the opportunity to learn through independent research and discussion.

157360
HISTORY OF THE AMERICAN WEST
Grades: 11-12
½ Social Studies credit
Prerequisite: Junior or Senior standing

This course is a comprehensive examination of the exploration and settlement of the trans-Mississippi West. Using eyewitness accounts, important secondary sources and media, the following topics will be studied: animals, the Indians, explorers, mountain men, miners, military, farmers, ranchers, the Western outlaw and women. In each case, the traditional stereotype will be compared to and contrasted with the historical reality.

157780
ANTHROPOLOGY
Grades: 11-12
½ Social Studies credit
Prerequisite: Junior or Senior standing

This course provides an introduction to the discipline of Anthropology with an emphasis on the subfield of Cultural Anthropology. It considers the major concepts and topics of Anthropology including a brief exploration of the four major subfields, the concept and characteristics of culture, and basic categories of study ranging from culture and survival (communication, social identity, economic systems), the formation of groups and the challenge of cooperation (sex and marriage, family and household, kinship, social groups), the search for order and the challenge of disorder (politics and power, spirituality and religion, and the arts), and finally the challenge of globalization (processes of change, global challenges, local responses and the role of anthropology).

157850
GENDER, TIME AND PLACE
Grades: 11-12
½ Social Studies credit
Prerequisite: Junior or Senior standing

This course is a study of the development of women's economic, political and social roles in the United States. Students will analyze, debate, and discuss primary source documents, photographs, films and other resources to discover and evaluate the female perspective.

SPECIAL OFFERINGS

813100
LEADERSHIP DEVELOPMENT 1
Grades: 9-12
½ Elective credit
Prerequisite: None

This course is designed for any student interested in developing his/her leadership potential and learning the basic concepts of leadership skills. Topics include: communication and interpersonal skills, time management, meeting skills, problem solving, and goal setting. Classroom activities will be combined with practical school-community projects to demonstrate skills learned in class. Students who desire to become leaders in future endeavors or for current school organizations or activities/athletics are encouraged to enroll.

997001 & 997002
CADET TEACHING
Grades: 11-12
½ Elective credit
Prerequisite: Junior or Senior in good standing. Minimum GPA of 2.5 for placement at an elementary school and 3.0 for placement at a secondary school. See Mr. Lawrence for application.

This course is offered to junior senior students who have an interest in pursuing a degree in teaching or are wanting to gain mentoring/tutoring hours to use toward their A+ status. Students will assist and observe cooperating teachers within the school. The student will share in the work of the cooperating teacher and will perform a variety of teaching-related tasks under the direction of a certified teacher. The program requires that the student be responsible, dependable, and maintain a good work ethic. Placement options include: North High, Northeast Middle, and Bellerive, Craig, McKelvey, and Ross Elementary Schools. For placement at an off-campus site, the students must provide their own transportation and it must be scheduled during 4th or 8th block. Please indicate 1st semester, 2nd semester, or both.

993300
SENIOR PROJECT: SERVICE LEARNING AND SOCIAL JUSTICE
Grade: 12
½ Elective credit
Prerequisite: Senior standing

The addition of a community service and social justice program will become the hallmark of a Parkway education and will elevate Parkway to leadership status nationwide. The call to reform education and create students who are thriving democratic citizens is demanding public education to move in the direction of service learning. This course will support personal projects and its senior student’s participating in weekly service at multiple agencies in the St. Louis area and perhaps beyond. Imagine over 1000 senior students devoting more than 56,000 hours to serving those in need. Each student will be encouraged to engage the world in a loving way and reform structures in a way that leads to justice. The ultimate goal will be to generate students who tie community service to academic analysis of justice issues and graduate with the ability to make life choices informed by the context of social justice.

995641 & 995642 (Year-long)
INTERVENTION AND INSTRUCTION (I^2)
Grade: 9
1 Elective credit
Prerequisite: Administrator recommendation only

During this course, students receive direct instruction in prerequisite math, reading, and writing skills required for Algebra 1 and English 1. Differentiated instruction is the foundation of this course, as staff work with students to increase their academic capability, confidence and curiosity. Pre-assessments are used to identify specific mathematics skill gaps, then each student is prescribed lessons and practice problems specific to their individual learning needs. Formative and summative assessments are given throughout the course to ensure students are retaining these math skills. In addition, staff administers a baseline reading assessment, and then assigns non-fiction reading articles targeted to each student's individual reading level. Students complete a short comprehension quiz, and also complete a brief, written assignment for each article. Students set learning goals and develop skills needed in order help monitor their own progress. Staff works closely with Algebra 1 and English 1 teachers to provide academic support for the students enrolled in these classes.
TECHNOLOGY & ENGINEERING

INFORMATION TECHNOLOGY (IT)

The digital world is expanding so rapidly that it is creating IT job openings faster than trained people can be found to fill them. Older workers are retiring in droves, but there aren’t enough high school and college graduates with the technical skills to step into their shoes. Right now there are more than 600,000 unfilled IT jobs globally in business, education, healthcare, government, all branches of the armed services, and the intelligence community.

Technology trends are creating a strong demand for certified IT professionals in a number of specific fields, including healthcare IT, security IT, cloud computing/SaaS, and data storage and management. These professionals will have an increasingly stronger voice in how their companies are run. You could be one of them

</thead>
<tbody>
<tr>
<td>037400</td>
<td>FUNDAMENTALS OF IT / COMPUTER MAINTENANCE</td>
<td>In this introductory course, you will learn the basics of computer hardware, software, networking, troubleshooting, and emerging technologies. You will learn about configuring operating systems, file and folder management, networks and network configuration, and the role of the OSI model in networking and troubleshooting. Through presentations, demonstrations, and knowledge-based exercises, you will gain a fundamental understanding of local and wide area network technologies and protocols, web browsers, identifying security risks and troubleshooting errors, and system maintenance. You will also learn about cutting-edge technologies such as cloud computing and green IT. This course will also prepare you for the CompTIA Strata IT Fundamentals certificate exam and also serves as launch pad for taking other IT courses, such as A+ Computer Maintenance, Network+, and Computer Science.</td>
</tr>
<tr>
<td>037411 &amp; 037412 (Year-long)</td>
<td>A+ COMPUTER MAINTENANCE</td>
<td>A+ Certification is an industry recognized credential that certifies the competency of PC service specialists. The certification program is supported by over 50 major computer hardware and software manufacturers including HP, Cisco, IBM, Sun and Microsoft. A+ Certification provides a wealth of benefits to any person seeking a job in the computer industry. To obtain A+ Certification, the student must pass two exams, a core hardware exam and an operating systems technologies exam. This course provides two semesters of training that focus on the core knowledge and hands on skills necessary to prepare the students for taking and passing an independently administered A+ Certification exam.</td>
</tr>
<tr>
<td>037651 &amp; 037652 (Year-long)</td>
<td>NETWORK+ CERTIFICATION</td>
<td>This course provides students with the core understandings necessary to prepare for and pass the CompTIA Network+ Certification Exam. This curriculum and the certification it represents, recognized internationally as a standard for entry level network technicians, prepares a student with the skills and knowledge to implement a defined network architecture with basic network security. Furthermore, students will learn to configure, maintain, and troubleshoot network devices using appropriate network tools and understand the features and purpose of network technologies. Students will be able to make basic solution recommendations, analyze network traffic, and be familiar with common protocols and media types.</td>
</tr>
</tbody>
</table>
TECHNOLOGY EDUCATION

107050
POWER, ENERGY, AND TRANSPORTATION TECHNOLOGY 1
Grades: 9-12
½ CTE credit
Prerequisite: None

Engineering and technology students will explore the prime movers for technology. The students study control and transmission of electrical, fluid, thermal, and mechanical energies. After learning the components for each prime mover system through practical application, the student couples power sources to control devices to transmit power to output equipment. In addition, students explore careers that use power and energy technology. Students may be asked to purchase consumables.

107060
POWER, ENERGY, AND TRANSPORTATION TECHNOLOGY 2
Grades: 9-12
½ CTE credit
Prerequisite: Power, Energy and Transportation Technology 1

Engineering and technology students experience electrical, fluids, thermal and mechanical energy applications. The students use the knowledge and skills learned in Power, Energy and Transportation 1 to solve problems associated with power, energy and transportation systems. Students research transportation systems topics. Students learn about small engines by removing parts of the engine and assembling them to restore the engines to running condition. Once the engine is running, the student couples it to drive hydraulic, pneumatic, or electrical output devices to provide direct application of the scientific principles supporting the power and energy application. In addition, students explore careers in power and energy technology. Students may be asked to purchase consumables.

107070
DRAFTING
Grades: 9-12
½ CTE credit
Prerequisite: None

Drafting is the universal language of industry, as it is used in technical fields such as architecture, electrical, machining, and mechanical technologies. In this course, students will become familiar with the fundamentals of drafting and the significance it has in our present way of life. Areas to be covered include sketching, mechanical drawing, pictorials, views of objects, and dimensioning. Students will use conventional techniques and/or CAD to complete drawings.

107121
DESIGN AND TECHNOLOGY 1
Grades: 9-12
½ CTE credit
Prerequisite: None

This is the first course in a two semester sequence of courses that provides opportunities for students to explore technologies in communications, design engineering, power, energy and transportation. Students will explore the fundamentals of Computer Aided Design Software and its application in the design process. Students will develop the necessary skills in design and problem solving to enable them to undertake a variety of problem solving and design tasks.

107132
DESIGN AND TECHNOLOGY 2
Grades: 9-12
½ CTE credit
Prerequisite: Design and Technology 1 or Instructor approval

This is the second course in a two semester sequence of courses that provides opportunities for students to explore technology. In Design and Technology II, students cover information on the following systems: structural, mechanical, fluid, and alternative energy. Students analyze applications of technology through a process of investigation and exploration in these fields which create and produce manufactured goods, products, structures, and services in our society.
107500
CONSTRUCTION TECHNOLOGY
Grades: 9-12
½ CTE credit
Prerequisite: None

Students will study the construction industry and methods used in construction. The major areas of investigation in the course are planning, designing and constructing the project. Students will know how a building is constructed from the beginning planning to the completion of roof and interior. Installation of mechanical systems, electrical systems, plumbing systems, and other systems will be studied. Many activities will be incorporated to demonstrate and reinforce the lessons. Students interested in engineering, architecture, and building trades careers may find this course of great benefit. Students may be asked to purchase consumables.

107510
ADVANCED CONSTRUCTION TECHNOLOGY
Grades: 9-12
½ CTE Credit
Prerequisite: Construction Technology

In this semester course, students will apply the technical skills learned in Construction Technology. Students will experience project design and site preparation, substructures and superstructures, utilities installation, enclosure, finishing and landscaping. Students will develop a project from conception to completion.

107680
ROBOTICS TECHNOLOGY 1
Grades: 9-12
½ CTE credit
Prerequisite: None

The field of robotics requires a working knowledge of electronics, mechanics and software. It is usually accompanied by a large working knowledge of many subjects. Focusing on mobile robots and using a hands-on, collaborative approach, students will be introduced to the basic concepts/systems, terminology, and programming involved in robotics. This course will be of specific interest to students interested in applications of electronics, computer science, and physics.

107451 & 107452 (Year-long)
DIGITAL ELECTRONICS (HONORS)
Grades: 9-12
½ CTE credit
Prerequisite: None

This honors course introduces students to applied digital logic, a key element of careers in engineering and engineering technology. This course explores the smart circuits found in watches, calculators, video games, and computers. Students use industry-standard computer software in testing and analyzing digital circuitry. They design circuit boards, and use appropriate components to build their designs. Students use mathematics and science in solving real-world engineering problems. This course covers several topics, including: analog and digital fundamentals, number systems and binary addition, logic gates and functions, Boolean algebra and circuit design, decoders, multiplexers and de-multiplexers. Students can receive 3 semester hours of transcribed college credit. A weighted grade is given for this course.
PRE-ENGINEERING

The pre-engineering Program at Parkway North is a sequence of courses, which follows a proven hands-on, real-world, problem-solving approach to learning. Students learn and apply the design process, acquire strong teamwork and communication proficiency and develop organizational, critical-thinking and problem-solving skills. They discover the answers to questions like how are things made and what processes go into creating products. Students acquire skills which will prepare them for today’s high-tech, high-skill global economy.

*** A variety of college credit is available for all pre-engineering courses. Consult the instructor for more information.

108711 & 108712 (Year-long)
INTRODUCTION TO ENGINEERING DESIGN (HONORS)
Grades: 9-12
1 CTE credit
Prerequisite: None

This honors course develops students' problem-solving skills, with emphasis on visualization and communication skills, using a computer and a 3-D solid modeling software. The student will learn to combine models into assemblies and animate the new assembled model in order to assess operation in a practical representation. Students will also learn how to import or convert the model for visual presentation or fabrication/prototyping possibilities. Students can receive 3 semester hours of transcribed college credit. A weighted grade is given for this course.

108751 & 108752 (Year-long)
PRINCIPLES OF ENGINEERING (HONORS)
Grades: 10-12
1 CTE credit
Prerequisite: Sophomore, Junior or Senior standing

This honors course is designed to be a broad-based survey course that will help students understand engineering, engineering technology and identify career possibilities. Theoretical and hands-on problem-solving activities are emphasized. In this course, the students will be able to understand 3-D modeling and general engineering design principles, mechanical assembly and design, electronic control circuits, statics, properties of materials, and engineering job opportunities. Students can receive 3 semester hours of transcribed college credit. A weighted grade is given for this course.

108451 & 108452 (Year-long)
DIGITAL ELECTRONICS (HONORS)
Grades: 10-12
1 CTE credit
Prerequisite: Sophomore, Junior or Senior standing

This honors course introduces students to applied digital logic, a key element of careers in engineering and engineering technology. This course explores the smart circuits found in watches, calculators, video games and computers. Students use industry-standard computer software in testing and analyzing digital circuitry. They design circuits to solve problems, export their designs to a printed circuit auto-routing program that generates printed circuit boards, and use appropriate components to build their designs. Students use mathematics and science in solving real-world engineering problems.

This course covers several topics, including: analog and digital fundamentals, number systems and binary addition, logic gates and functions, Boolean algebra and circuit design, decoders, multiplexers and de-multiplexers. Students can receive 3 semester hours of transcribed college credit. A weighted grade is given for this course.

108201 & 108202 (Year-long)
CIVIL ENGINEERING AND ARCHITECTURE (HONORS)
Grades: 10-12
1 CTE credit
Prerequisite: Introduction to Engineering Design, Drafting or Instructor approval

This honors course provides an overview of the fields of Civil Engineering and Architecture, while emphasizing the interrelationship and dependence of both fields on each other. Students use state of the art software to solve real world problems and communicate solutions to hands-on projects and activities. This course covers topics such as: The Roles of Civil Engineers and Architects, Project Planning, Site Planning, Building Design, and Project Documentation and Presentation. Students can receive 3 semester hours of transcribed college credit. A weighted grade is given for this course.
108211 & 108212 (Year-long)  
**COMPUTER INTEGRATED MANUFACTURING (HONORS)**  
Grades: 10-12  
1 CTE credit  
Prerequisite: Robotics, any PLTW class or Instructor approval

This is an honors course that applies the principles of robotics and automation. Students use CNC equipment to produce actual models of their three-dimensional designs. Fundamental concepts of robotics used in automated manufacturing and design analysis are included. Students will utilize RoboCell, Edge Cam, and Inventor software throughout the course. Students will also learn about G-code programming and tooling for CNC machining. Students can receive 3 semester hours of transcribed college credit. A weighted grade is given for this course.

---

108221 & 10822 (Year-long)  
**ENVIRONMENTAL ENGINEERING (HONORS)**  
Grades: 11-12  
1 CTE credit  
Prerequisite: Students should have experience in biology, chemistry, mathematics, and technology education.

The growing market for jobs in biological engineering is playing a central role in energy and agricultural sustainability solutions. The Biological Engineering (BioE) course develops students’ thinking skills and prepares them for emerging careers through topics such as genetic engineering, biofuels, and biomanufacturing.

### 057720 THEATRE ARTS

Grades: 9-12  
½ Fine Arts credit  
Prerequisite: None

This survey course is designed for both the student new to drama and the student with a general background in the theatre. The class will cover all aspects of the theatre: the play, the actor, and the audience. Group and individual work will be used to develop skills in movement, voice, story development, conflict building, characterization, use of theatre terminology, and application of production techniques. Improvisation and limited line memorization are required.

### 057730 IMPROVISATIONAL THEATRE

Grades: 9-12  
½ Fine Arts credit  
Prerequisite: Theater Arts or Instructor Approval

The student actor will become proficient in pantomime and creative improvisational acting skills. Emphasis in this class will not be on memorization, but on the training of the performer to isolate movement and to respond spontaneously and appropriately to given situations and characterizations.
057760  
TECHNICAL THEATRE  
Grades: 9-12  
½ Fine Arts credit  
Prerequisite: Theatre Arts or Instructor Approval  

This course will survey major areas of technical theatre including elements of design/ construction of sets, set painting, properties, stage lighting, sound, costuming, make-up, business, house, and theatre management. The course will allow the students to select an area of specialization. After-school and/or evening work will be expected. Students may repeat this course with an emphasis in advanced technical projects.

057770  
CHILDREN'S THEATRE  
Grades 9-12  
½ Fine Arts credit  
Prerequisite: Theater Arts or Instructor Approval  

This class will examine the wealth of children's literature and its adaptability to live performances. Emphasis will be on improvised and prepared scripts, with mini-units on pantomime, storytelling and story theatre.

*This is a practical course. Each student will be expected to perform in a full production which includes evening performances for an audience.

057800  
ACTOR'S STUDIO 1  
Grades: 10-12  
½ Fine Arts credit  
Prerequisite: Theatre Arts or Instructor Approval  

The developing actor will be able to determine characterization, motivation, creative movement and staging through in-depth scene study. Although improvisation is used, the memorization of both monologues and duet acting scenes will be required. Emphasis is on 20th Century material.

057810  
ACTOR'S STUDIO 2 (HONORS OPTION)  
Grades: 11-12  
½ Fine Arts credit  
Prerequisite: Actor's Studio or Instructor Approval  

This class is an exploration of characterization through different methods and styles of acting, using classical literature. Students will continue to analyze plays, and learn how to further analyze a character, through research and critical thinking. Monologues will be used as the means to study characterization. Memorization and successful completion of Actors' Studio 1 is required. An Honors grade may be earned.

057830  
SHAKESPEARE ALIVE!  
Grades: 10-12  
½ Fine Arts Credit  
Prerequisite: English 1  

This course is designed for the student interested in performing Shakespeare. The reading, analysis, and interpretations of literature are performance based. Students will also study the production aspects associated with Elizabethan Theatre. Memorization is required.

057820  
DIRECTING (HONORS OPTION)  
Grade: 12  
½ Fine Arts credit  
Prerequisite: Actor's Studio 1 and 2, Tech Theatre or equivalent co-curricular technical experience with instructor approval.  

This course is for the advanced theatre student who is ready to demonstrate proficiency as a director. It is a laboratory course, which uses the theatrical production process as its experiment. Through the art of directing, acting, and design, students will apply these concepts to a final production, to be presented to the school and public. Successful completion of Actor's Studio 2 is required, as well as time commitment after school. An Honors grade may be earned.
WORLD LANGUAGES

The World Language program has been designed to achieve two major goals. The first one is to offer students the opportunity to develop proficiency in a second language and culture so they can acquire skills, knowledge and attitudes important for living and working in a multi-lingual, multi-cultural world. The second goal is to develop students’ insight into their own language and culture so that they can increase their knowledge about the English language and their understanding of their own society.

To achieve these goals, an articulated sequence of courses, from Level 1 to Level 5, is offered in several modern languages and one classical language. Learning a second language will also serve the purpose of meeting college entry requirements or recommendations in Foreign Language.

All Level 4 courses have Honors option and are for Juniors and Seniors. All Level 5 courses are designated Honors courses. In Levels 3, 4, and 5, students who qualify may have the option of earning college credit. See the department leader.

067011 & 067012 (Year-long)
FRENCH 1
Grades: 9-12
1 Elective credit
Prerequisite: None

French 1 is an introduction to one of the most global languages of the world. Students will study various French-speaking countries and peoples to better understand their diverse cultures. Students will also begin to describe themselves, family and friends, and preferences. They will learn to speak, listen, read, and write French with their classmates through paired practice, small group work, and role plays. By the end of this course, students will have been introduced to skills, knowledge, and attitudes that will help them live and work in an increasingly global society. This course is intended for students who have never taken French.

067021 & 067022 (Year-long)
FRENCH 2
Grades: 9-12
1 Elective credit
Prerequisite: French 1 or French A & B

French 2 is for students who can speak, read, understand and write at a basic level, and want to be able to do more with the French language. Students will continue to study the history and culture of the French-speaking world. At the end of French 2, students will be able to use French to communicate for many different purposes such as telling stories, talking about the past, daily life, describing people, things, and places, and making requests. Emphasis will be on learning to communicate in French. This course is for students that have successfully completed French 1 or French A & B.

067031 & 067032 (Year-long)
FRENCH 3
Grades: 10-12
1 Elective credit
Prerequisite: French 2

French 3 students will be able to communicate more freely and creatively in the French language. Students will study the history and culture of various regions to better make connections within the cultures of the French-speaking world and the United States. At the end of French 3, students will be able to use the language to understand and communicate in many different situations. Emphasis will be on learning to elaborate in formal and informal situations in French. In Levels 3, 4, and 5, students who qualify may have the option of earning college credit. See department leader.

067041 & 067042 (Year-long)
FRENCH 4 (HONORS OPTION)
Grades: 11-12
1 Elective credit
Prerequisite: French 3

Organized around themes based on contemporary social, political and cultural issues of French-speaking societies, French 4 students will explore topics such as the cultural identity, the changing roles in families and relationships, environmental issues, and the power of the media in today's society. Students will begin to use increasingly sophisticated vocabulary and grammatical structures in a variety of contexts as they tackle listening, speaking, reading and writing tasks and assignments featuring authentic literature, film, and topics of contemporary interest and concern. There will be opportunities for student performance events via multimedia presentations. The French 4 course will seek to improve the students' ability to read and appreciate literary and non-literary texts in French. Students in French 4 will have a deeper awareness and understanding of the cultural diversity of the French-speaking world and their role in it. An Honors grade may be earned. In Levels 3, 4, and 5, students who qualify may have the option of earning college credit. See department leader.

068051 & 068052 (Year-long)
FRENCH 5 (HONORS)
Grade: 12
1 Elective credit
Prerequisite: French 4

The integrated study of art, history, film, literature, and music in French 5 promotes cultural knowledge and understanding as well as the further development of language skills. Students experience the culture of the French language firsthand by harnessing technology and, at times even interacting with native speakers, and exploring cultural texts. They are challenged to use increasingly sophisticated vocabulary and grammatical structures in a variety of contexts as they tackle listening, speaking, reading and writing tasks featuring authentic literature, film, and topics of contemporary interest and concern. Student performance events may take the form of multimedia presentations. Ultimately, students in French 5 will understand clearly that they are members of a diverse and increasingly global society. In Levels 3, 4, and 5, students who qualify may have the option of earning college credit. See department leader. A weighted grade is given for Level 5. Those wanting to earn AP credit may also choose to take the AP Language Examination in the language.
GERMAN

067111 & 067112 (Year-long)
GERMAN 1
Grades: 9-12
1 Elective credit
Prerequisite: None

German 1 is an introduction to the language spoken by the people of Europe's economic leader. Students will study various German-speaking countries, peoples, and cultures. They will also learn to discuss their feelings, families, friends, and daily life in simple terms. Paired practice, small group work, and role play will help students learn the language. By the end of this course students will have been introduced to skills, knowledge, and attitudes that will help them live and work in an increasingly global society. This course is intended for students that have never taken German.

067121 & 067122 (Year-long)
GERMAN 2
Grades: 9-12
1 Elective credit
Prerequisite: German 1 or German A & B

German 2 is for students who can speak, read, understand, and write at a very basic level, and want to be able to do more with the German language. Students will study the history and culture of various cities to better understand the variety within the cultures of the German-speaking world. By the end of German 2, students will be able to use German to communicate for many different purposes such as telling stories, talking about the past, giving preference and opinions, describing people, things, and places, and making requests. Emphasis will be on learning to communicate in German. This course is for students who have successfully completed German 1 or German A & B.

067131 & 067132 (Year-long)
GERMAN 3
Grades: 10-12
1 Elective credit
Prerequisite: German 2

German 3 students will learn to communicate more freely and creatively in the language. They will study the history and culture of various regions of the German-speaking world. By the end of German 3, students will be able to use German to understand and communicate in many different situations. Emphasis will be on learning to elaborate in formal and informal situations in German. In Levels 3, 4, and 5, students who qualify may have the option of earning college credit. See department leader.

067141 & 067142 (Year-long)
GERMAN 4 (HONORS OPTION)
Grades: 11-12
1 Elective credit
Prerequisite: German 3

Organized around themes based on contemporary social, political and cultural issues of German-speaking societies, German 4 students will explore topics such as the cultural identity, the changing roles in families and relationships, environmental issues, and the power of the media in today's society. Students will begin to use increasingly sophisticated vocabulary and grammatical structures in a variety of contexts as they tackle listening, speaking, reading and writing tasks and assignments featuring authentic literature, film, and topics of contemporary interest and concern. There will be opportunities for student performance events via multimedia presentations. The German 4 course will seek to improve the students' ability to read and appreciate literary and non-literary texts in German. Students in German 4 will have a deeper awareness and understanding of the cultural diversity of the German-speaking world and their role in it. An Honors grade may be earned. In levels 3, 4, and 5, students who qualify may have the option of earning college credit. See department leader.

068151 & 068152 (Year-long)
GERMAN 5 (HONORS)
Grade: 12
1 Elective credit
Prerequisite: German 4

The integrated study of art, history, film, literature, and music in German 5 promotes cultural knowledge and understanding as well as the further development of language skills. Students experience the culture of the German language firsthand by harnessing technology and, at times even interacting with native speakers, and exploring cultural texts. They are challenged to use increasingly sophisticated vocabulary and grammatical structures in a variety of contexts as they tackle listening, speaking, reading and writing tasks featuring authentic literature, film, and topics of contemporary interest and concern. Student performance events may take the form of multimedia presentations. Ultimately, students in German 5 will understand clearly that they are members of a diverse and increasingly global society. As an Honors course, a weighted grade is given for Level 5. Those wanting to earn AP credit may also choose to take the Advanced Placement Language Examination in the language.
LATIN

067211 & 067212 (Year-long)
LATIN 1
Grades: 9-12
1 Elective credit
Prerequisite: None

In Latin 1, we dig into the past and explore the world of gladiators, political intrigue, and the ghosts of Pompeii. Students who take Latin will see the impact of the Roman world everywhere! One important aspect of learning Latin is to understand how languages work. With this understanding, students will gain a deeper knowledge of Latin and other languages, particularly English. In Latin 1, students will learn the basics of Latin in order to build a foundation for reading. Latin class will improve reading abilities through the learning of Latin vocabulary. After completing this course, students will have expanded their English vocabularies and gained skills for improving standardized test scores.

067221 & 067222 (Year-long)
LATIN 2
Grades: 9-12
1 Elective credit
Prerequisite: Latin 1 or Latin A & B

This year in Latin, students will travel to the ends of the Roman Empire and meet new characters as they continue to build upon their knowledge of the Roman world and Latin language. As in Latin 1, students will focus upon developing increasingly advanced skills in the areas of vocabulary, reading, and grammar. Through the lens of Roman conquest in Egypt and Britain, students will also explore bigger concepts of religion, imperialism, and race alongside the more amusing everyday aspects of Roman life in a province. After completing this course, students will have a solid foundation and understanding of Latin language and culture to apply to the world around them.

067231 & 067232 (Year-long)
LATIN 3
Grades: 10-12
1 Elective credit
Prerequisite: Latin 2

Within the context of the Eternal City of Rome, we build upon the previous foundations of Latin language study. Students begin to grasp the complexities of the Latin language and continue to develop and improve upon their Latin reading and vocabulary skills. Students will begin to encounter real Roman authors. Through the use of more advanced Latin reading skills, students will find themselves swept up in the intrigues of urban Roman life and will explore the history and monuments of ancient Rome. At the completion of this course, students will have learned the majority of Latin grammatical concepts and will be ready for more advanced literary study.

067241 & 067242 (Year-long)
LATIN 4 (HONORS OPTION)
Grades: 11-12
1 Elective credit
Prerequisite: Latin 3

Veni, Vidi, Vici! This course concludes the acquisition of Latin grammar and introduces historical Roman authors. Students will see their years of hard work pay off as they delve into selected readings from Virgil, Cicero, Ovid, Pliny, Horace, Catullus, and/or Caesar. Students will be able to read these challenging texts well by combining their previously acquired knowledge of grammar with new concepts of literary analysis and devices, historical context, and interpretation. This course will help students develop an appreciation for the foundations of Western literature. An honors grade may be earned.

068251 & 068252 (Year-long)
LATIN 5 (HONORS)
Grade 12
1 Elective credit
Prerequisite: Latin 4

This course will include readings of extended portions of Latin writers, e.g., Virgil, Cicero, Ovid, Pliny, Horace, and Catullus. Readings will be selected to serve the needs and interests in the class. The works will be discussed in detail, using methods of literary analysis and developing historical background. Students wanting to earn AP credit may choose to take the Advanced Placement Exam. A weighted grade is given.
SPANISH

067311 & 067312 (Year-long)
SPANISH 1
Grades: 9-12
1 Elective credit
Prerequisite: None

Spanish 1 is an introduction to one of the most widely spoken languages in the world. Students will study various Spanish-speaking countries and peoples to better understand their diverse cultures. Students will also begin to discuss their feelings, family and friends, and daily life. They will speak and write with their classmates through paired practice, small group work, and role plays. By the end of this course, students will have been introduced to skills, knowledge, and attitudes that will help them live and work in an increasingly global society. They will be able to communicate at a basic level. This course is intended for students that have never taken Spanish.

067321 & 067322 (Year-long)
SPANISH 2
Grades: 9-12
1 Elective credit
Prerequisite: Spanish 1 or Spanish A & B

Spanish 2 is for students who can speak, read, understand, and write at a basic level, and want to be able to do more with the Spanish language. Students will continue to study the cultures and histories of various Spanish-speaking countries. By the end of the course, students will be able to use the language to communicate for many different purposes such as telling stories, talking about the past, giving preferences and opinions, describing people, things, and places, and making requests. Emphasis will be on learning to communicate in Spanish. This course is for students that have successfully completed Spanish 1 or Spanish A & B.

067331 & 067332 (Year-long)
SPANISH 3
Grades: 10-12
1 Elective credit
Prerequisite: Spanish 2

Spanish 3 students will learn to communicate more freely and creatively in the language. They will study the history and culture of various regions to better make connections within the cultures of the Spanish-speaking world and the United States. By the end of the course, students will have learned to use Spanish to understand and communicate in many different situations in the present, past and future. Emphasis will be on learning to elaborate in formal and informal situations in Spanish. Students who qualify may have the option of earning college credit.

067341 & 067342 (Year-long)
SPANISH 4 (HONORS OPTION)
Grades: 11-12
1 Elective credit
Prerequisite: Spanish 3

Organized around themes based on contemporary social, political and cultural issues of Spanish-speaking societies, Spanish 4 students will explore topics such as the cultural identity, the changing roles in families and relationships, environmental issues, and the power of the media in today’s society. Students will begin to use increasingly sophisticated vocabulary and grammatical structures in a variety of contexts as they tackle listening, speaking, reading and writing tasks and assignments featuring authentic literature, film, and topics of contemporary interest and concern. There will be opportunities for student performance events via multimedia presentations. The Spanish 4 course will seek to improve the students' ability to read and appreciate literary and non-literary texts in Spanish. Students in Spanish 4 will have a deeper awareness and understanding of the cultural diversity of the Spanish-speaking world and their role in it. An Honors grade may be earned. Students who qualify may have the option of earning college credit.

068351 & 068352 (Year-long)
SPANISH 5 (HONORS)
Grade: 12
1 Elective credit
Prerequisite: Spanish 4

The integrated study of art, history, film, literature, and music in Spanish 5 promotes cultural knowledge and understanding as well as the further development of language skills. Students experience the culture of the Spanish language firsthand by harnessing technology and, at times even interacting with native speakers, and exploring cultural texts. They are challenged to use increasingly sophisticated vocabulary and grammatical structures in a variety of contexts as they tackle listening, speaking, reading and writing tasks featuring authentic literature, film, and topics of contemporary interest and concern. Student performance events may take the form of multimedia presentations. Ultimately, students in Spanish 5 will understand clearly that they are members of a diverse and increasingly global society. In Levels 3, 4, and 5, students who qualify may have the option of earning AP credit. As an Honors course, a weighted grade is given for Level 5. Those wanting to earn AP credit may also choose to take the Advanced Placement Language Examination in the language.
ADVANCED COLLEGE CREDIT & ADVANCED PLACEMENT OPPORTUNITIES

ADVANCED COLLEGE CREDIT PROGRAMS

Several courses taught by experienced Parkway High School teachers as part of the regular curriculum have been approved to receive credit from local colleges and universities as per our articulation agreements. Students who choose to enroll for college credit pay a modified tuition and when each course is completed, have that credit available for advanced credit at the cooperating college or for transfer to other colleges. The grade received becomes part of the student’s permanent college record.

Acceptance of transfer credit is subject to approval by the receiving college and is not guaranteed. Each student should contact the colleges which he or she hopes to attend for information regarding transfer of the credit and to determine if advanced credit can be earned through the Advance Placement Exam program or campus placement exams as an alternative to transfer credit.

View CTE Articulation/Dual Credit Agreements at the following link or scan the QR code. https://goo.gl/ncpfYn

ADVANCED PLACEMENT

Advanced Placement (AP) is a program of college-level courses or examinations for secondary school students. Taking Advanced Placement examinations may benefit you in the following ways:

1. Your college or university may exempt you from beginning courses and permit you to elect higher level courses in certain fields.

2. You may be eligible for honors and other special programs not open to students who have not been given AP recognition.

3. Students are graded on the Honors scale and have the potential to earn an extra point in their GPA.

4. Your college or university may grant college academic credit for successful scores on examinations.

Contact the Guidance department for information describing the Advanced Placement Program and test fees.

**Advanced Placement Examinations are Offered in the Following Subjects:**

*While we offer the AP Language exams, we do not teach the AP curriculum in those courses.*
**TECHNICAL HIGH SCHOOL**

Per the Administrative Guidelines for Parkway’s Policy IKF “Diploma Requirements:”

“Parkway may accept credits awarded by the Special School District (SSD) of St. Louis County to Parkway students attending (on a part or full time basis) a SSD technical high school. Transcripts are to indicate when the student attended and which courses were completed at the technical high school. Parkway grade point averages (GPA’s) and class rankings will be based only on coursework completed in Parkway high schools and transferred in from a previously attended accredited high school. Parkway students completing their high school requirements on a part or full time basis at a Special School District of St. Louis County technical high school may be eligible to receive a Parkway diploma from the Parkway school within whose boundaries they reside, provided they have satisfied both State and Parkway requirements.”

South Tech MAKES develops entrepreneurial skills in students so that they can solve problems by making things. Students are exposed to the principles of business management and design thinking while being taught technical skills to design and create using technology and our hands. Students then put those principles and skills to work in a personal project that they will design and prototype and a separate class project they will work as a team to produce.

### SOUTH TECH PROGRAM DESCRIPTIONS

#### AUTO BODY

This program focuses on the repair and appearance of the interior and exterior of vehicles. Students learn how to assess, estimate, and repair using modern welding, sanding, masking and painting techniques and the same advanced equipment used in professional auto collision repair companies. Students learn from I-CAR curriculum and earn advanced college credit from State Technical College in Missouri. **COLLEGE CREDIT OFFERED:** State Technical College of MO, 3 credits ~ Universal Technical Institute, 12 units. **CERTIFICATIONS OFFERED:** Automobile Service Excellence (ASE) Student Certification in Nonstructural/Paint & Refinishing, S/P2 Safety Certification.

#### AUTOMOTIVE TECHNOLOGY

This program is driven by the 4 main systems of vehicle operation: brakes, suspension and steering, engine performance, and electrical/electronics. Students will diagnose, service, and repair a wide range of vehicles alongside their ASE certified Master Technician instructor. The classroom includes modern diagnostic equipment which students operate as they work toward multiple ASE certifications. **COLLEGE CREDIT OFFERED:** State Technical College of MO, 3 credits ~ Universal Technical Institute, 12 units. **CERTIFICATIONS OFFERED:** Automobile Service Excellence (ASE) Student Certification in Brakes, Electrical, Engine Performance, Suspension, S/P2 Safety Certification.

#### CARPENTRY (Seniors Only)

Students will build a skill set that includes, framing, estimating, roofing, and interior finishing. Students learn how to read and interpret blueprints and build structures using a wide range of professional power tools and carpentry materials. **COLLEGE CREDIT OFFERED:** St. Louis Community College, 6 credits. **APPRENTICESHIP CREDIT OFFERED:** Carpenter’s Apprentice, 1-3 days of Pre-Employment Course, 1 specialty or elective unit of training, advanced placement testing in related areas per joint agreement with the St. Louis Carpenter’s Joint Apprenticeship Program ~ Construction Craft. Laborers—credit for 40 hours of apprentice training and 500 hours of on-the-job training. **CERTIFICATIONS OFFERED:** Home Builders Institute (HBI)-Pre-Apprenticeship Training Core Certification ~ Occupational Safety and Health Administration (OSHA)-10 hour Construction Industry.

#### CISCO NETWORKING ACADEMY

This honors course has students learn how to design, install and troubleshoot complex computer networks. Students will navigate a variety of projects as they complete Cisco’s online curriculum in preparation for their certification exams. **CERTIFICATIONS OFFERED:** CompTIA A+ Certification, Cisco Certified Entry Level Network Technician (CCENT) Certification.
CONSTRUCTION INNOVATIONS
Our Construction Innovations major allows students to customize a year or semester of construction exploration to match their interests. A wide variety of quarter long courses give students a solid foundation of basic knowledge and experience. Students can continue into an Advanced Construction course in their second year. Students choose from: Carpentry, Electrical Trades, General Construction, Floor Layers Middle Apprenticeship, or Heating, Ventilation, & Air Conditioning. CERTIFICATIONS OFFERED: Home Builders Institute (HBI)-Pre-Apprenticeship Training Core Certification ~ Occupational Safety and Health Administration (OSHA)-10 hour Construction.

CONSTRUCTION AND MAINTENANCE
Students will be introduced to safety, building repair, preventative maintenance, general building upkeep, and problem solving. They will learn to work through problems and identify the best solutions.

CONSTRUCTION TRADES (Seniors Only)
This program provides students with general skills in carpentry, masonry, plumbing, electricity, and heating and cooling. This program allows students to take a variety of construction projects from blueprints to completion.

COSMETOLOGY
The curriculum is the same as those used by private cosmetology schools, following Missouri State Board of Cosmetology guidelines. Students learn in a full-service salon along with classroom instruction from licensed Cosmetologists. By graduation, students will have had the opportunity to earn all the hours required to take their Missouri State Board certification exam to become a licensed cosmetologist. CERTIFICATIONS OFFERED: Cosmetology Missouri State Board of Certification.

CULINARY ARTS
Students are taught in a modern, fully equipped, restaurant style kitchen. Students plan, prepare, and cater meals alongside professional chefs in both the classroom and at various competitions throughout the year. COLLEGE CREDIT OFFERED: St. Louis Community College, 5 credits ~ Sullivan University, 3 credits ~ Illinois Institute of Art, 20 ¼ hours ~ Johnson and Wales University, 13.5 ¼ hours ~ Robert Morris University, 9 ¼ hours. CERTIFICATION OFFERED: American Culinary Federation Certification ~ Servsafe Certification.

DESIGN & ENTREPRENEURSHIP
Inventors will thrive in this product development course designed to support creation and innovation. Bring your ideas to fruition with support from local St. Louis professionals and your fellow South Tech students. Learn how to protect, promote, pitch, and produce the products or services you are inspired to create in this course. CERTIFICATIONS OFFERED: Occupational Safety and Health Administration (OSHA)-10 hour Certification.

DENTAL SCIENCES
This program gives students a clinical experience in the classroom and through internships which are available during the senior year. Our modern operatory allows students to conduct mock exams and perform X-rays, preventative practices, and emergency care using professional dental equipment. COLLEGE CREDIT OFFERED: Missouri Baptist University, Dual Credit, 8 credits. CERTIFICATIONS OFFERED: Missouri Expanded Dental Assistant Certification ~ CPR Certification

EARLY CHILDHOOD EDUCATION
This program turns students into teachers in our certified preschools. Students research, create, and implement lesson plans while learning effective preschool teaching techniques. Upon graduation, students will have a portfolio of work to present to colleges and/or employers. COLLEGE CREDIT OFFERED: St. Louis Community College, 6 credits. CERTIFICATIONS OFFERED: American Association of Family & Consumer Sciences (AAFCS)- Early Childhood Certification ~ CPR and First Aid Certifications.

ELECTRICAL TRADES (Seniors Only)
This program teaches students how to design, stage, and install commercial and residential electrical wiring for power and telecommunications systems. Skills include blueprint interpretation, layout, design, and programming equipment while emphasizing logical thinking. APPRENTICESHIP CREDIT OFFERED: Construction Craft Laborers-credit for 40 hours of apprentice training and 500 hours of on-the-job training. CERTIFICATIONS OFFERED: Home Builders Institute (HBI)-Pre-Apprenticeship Training Core Certification ~ Occupational Safety and Health Administration (OSHA)-10 hour Construction Industry.

ELECTRONICS & ROBOTICS ENGINEERING
This program focuses on exploring the complex electrical, electronic, mechanical, and robotic components used in manufacturing and industry. Students’ design and program robots for the annual FIRST Robotics Competition using modern equipment and techniques. COLLEGE CREDIT OFFERED: St. Louis Community College, 4 credits CERTIFICATIONS OFFERED: International Society of Certified Electronics Technicians (IS CET)-4 certifications in DC Electronics, AC Electronics, Semiconductor, and Digital Electronics.
EMERGENCY MEDICAL TECHNICIAN
This program brings students into real world emergency scenarios. Students are trained to perform detailed trauma patient assessments using advanced medical and diagnostic equipment and in the operation of emergency response and rescue vehicles. COLLEGE CREDIT OFFERED: St. Louis Community College, 10 hours CERTIFICATIONS OFFERED: Emergency Medical Technician Basic certification through National Registry, National First Responder certification, Hazardous Materials Awareness and Operations Certification.

FIREFIGHTING
This is an academy level program that allows students to do the bulk of their required Fire Academy hours at the high school level. Using a wide range of firefighting and life-saving equipment, students develop their skills through rigorous metal and physical training. COLLEGE CREDITS OFFERED: St. Louis Community College, 3 credits. CERTIFICATIONS OFFERED: Fire I and Fire II certifications, National First Responder.

FLOOR LAYERS MIDDLE APPRENTICESHIP
This program allows students to begin their post-secondary training while in high school. While learning to install hardwood, vinyl, carpet, and ceramic flooring students earn apprenticeship credit that can also lead to an associate’s degree shortly after high school graduation. Paid summer internships with licensed contractors are also available. APPRENTICESHIP CREDIT OFFERED: U.S. Department of Labor Journey Level Certificate-this certificate can be articulated into college credit with Ivy Tech Community College of Indiana and completes all but 5 courses required to earn an Associate’s degree in Applied Science. CERTIFICATIONS OFFERED: Home Builder’s Institute (HBI)-Pre-Apprenticeship Training Core Certification ~ Occupational Safety and Health Administration (OSHA)-10 hour Construction Industry Certification.

GRAPHIC DESIGN
This program channels students’ passion for art into advertising and marketing projects using the full Adobe Suite of design software. Through advanced tutorials combined with a study of fonts, color theory, sketching and drawing, students produce a professional portfolio of their work to share with prospective colleges and employers. COLLEGE CREDIT OFFERED: St. Louis Community College, 3 credits. CERTIFICATIONS OFFERED: Adobe Certifications.

HEALTH SCIENCES
This course immerses students into healthcare through lab and patient care experiences, high-level academic coursework in anatomy and physiology, and clinical rotations at area hospitals and assisted living facilities. ARTICULATING INSTITUTIONS & CREDIT OFFERED: St. Louis Community College, 4 credits ~ Missouri Baptist University, Dual Credit, 8 credits. CERTIFICATIONS OFFERED: Certified Nursing Assistant (CNA)-State of Missouri certification ~ Occupational Safety Health Administration (OSHA)-10 hour General Industry-Healthcare Certification ~ CPR and First Aid Certifications.

HEATING, VENTILATION AND AIR CONDITIONING (Seniors Only)
Our HVAC major teaches students to design, install, repair, and maintain residential and commercial refrigeration, heating, and air conditioning systems. Students will learn blueprint reading, electrical schematics, and operational sequencing charts as they progress toward certification. APPRENTICESHIP CREDIT OFFERED: Construction Craft Laborers-credit for 40 hours of apprentice training and 500 hours of on-the-job training. CERTIFICATIONS OFFERED: Home Builders Institute (HBI)-Pre-Apprenticeship Training Core Certification ~ Occupational Safety and Health Administration (OSHA)-10 hour Construction Industry Certification ~ Environmental Protection Agency (EPA)-608, Refrigeration Handling Certification.

INFORMATION TECHNOLOGY
Students will be introduced to a number of information technology skills including web design and coding, help desk skills, and network essentials.

LAW ENFORCEMENT
This program introduces students to the Police Academy through an array of training exercises, crime scenarios, self-defense, and fitness training. Students will learn conflict mediation and resolution, investigation techniques, and be trained in the use of advanced security related training equipment, including vehicles. COLLEGE CREDIT OFFERED: University of Central Missouri, Dual Credit, 3 hours. CERTIFICATIONS: Missouri Law Enforcement Skills and Knowledge (MOLESK) Certification.

LIGHT MANUFACTURING
This program will explore an introduction to manufacturing skills including welding, precision machining, and fabrication. This program will also include an overview of safety, equipment operation, and problem solving.
MEDICAL SERVICES (Senior Only)
This program will explore dietary and nutrition needs, teach the skills required of a nursing home health aide, and include study of Patient Care Technician curriculum. Student will also learn about customer service and communications skills required in a healthcare setting.

PHARMACY SCIENCES
This 1 year program has students use the same advanced equipment as industry professionals as they perform testing and research drug treatments and interactions. In preparation for their Pharmacy Technician Certification Board exam, students learn skills required for careers in retail, hospital, and medical center pharmacies. Juniors in Pharmacy can choose to continue their studies in the Pre-Professional Health Sciences Academy.

CERTIFICATIONS OFFERED: Pharmacy Technician Certification Board (PTCB) Certification.

PRE-PROFESSIONAL HEALTH SCIENCES ACADEMY (Seniors Only)
This program provides an intense exploration of the medical field for college bound students. Through shadowing opportunities, guest lecturers, medical terminology study, and anatomy and physiology curriculum, students learn about a wide variety of patient care professions and leave our program with a solid understanding of those careers and how to pursue them. COLLEGE CREDIT OFFERED: Missouri Baptist University, Dual Credit, 8 credits.

CERTIFICATIONS OFFERED: Occupational Safety and Health Administration (OSHA)-10 hour General Industry Healthcare Certification ~ CPR and First Aid Certifications.

PRECISION MACHINING
This program teaches students to invent, design, and manufacture tools and components for a wide range of production needs. Using advanced computer controlled technology, 3D printing, and traditional machining skills, students develop projects designed with MasterCAM and Computer Aided Design (CAD) Software. COLLEGE CREDIT OFFERED: St. Louis Community College, 5 credits ~ State Technical College of Missouri, 6 credits.

VETERINARY ASSISTANT
This program explores the science of veterinary medicine including animal care and training, clinical procedures, medical terminology, grooming, and disease prevention. Students interact daily with a wide variety of animals fostered in our facilities, providing their medical care, while learning from certified professionals. COLLEGE CREDIT OFFERED: Jefferson College, 2 credits.

SPECIAL EDUCATION

In conjunction with the Parkway School District, the Special School District (SSD) of St. Louis County (SSD) provides special education staff, services, and programs for Parkway students with disabilities. A student qualifies for special education when it is determined, through evaluation, that there is an educational disability which “adversely affects educational performance” and requires special education services.

All decisions regarding a student’s “free appropriate public education” (FAPE) and “individualized education program” (IEP) are to be made by the student’s IEP Team, which includes the student’s parent(s) and, as appropriate, the student. Emphasis is on keeping the student in the “least restrictive environment” (LRE) and supporting the student in Parkway’s general education curriculum. The types and amounts of special education and related services, service delivery models, settings in which the services are delivered, curriculum modifications, accommodations, and all other educational decisions related to the student’s disability are to be made by the IEP Team. Certain procedural safeguards, which include the right to appeal diagnostic and IEP decisions, are available to students with disabilities and their parents.

The opportunity to participate in a Parkway general education classroom, earn credit toward graduation, and a high school diploma is available to all students, regardless of the nature and severity of their disabilities. With appropriate accommodations and supportive services, most students are able to meet standard curriculum objectives and be graded on the expectations set for all students.

Depending upon a student’s individual special needs, diploma requirements may be modified, waived and/or added. The student’s IEP team must formally determine, authorize, and document (in the student’s records) waived, modified, and added requirements, modification of curriculum, and any individualized grading methods (e.g., pass/fail instead of letter grade).

Modification of a general education curriculum/course may be done when, despite accommodations and supportive services, a student is unable to achieve the standard learning objectives defined for each course and therefore requires the essence of the Parkway course to be changed (modified) to allow them the opportunity to participate in and benefit from the general education instruction. Grades are to be based on the extent to which the modified requirements, expectations, and competencies/skills are met, not met, or exceeded by the student, as well as other variables (i.e., class participation, homework completion) used by teachers to determine grades. The amount of credit earned will be the same as for a non-modified course and will count toward a earning a Parkway diploma.

When a general education course is modified for a student, the course title will include an asterisk (*) and, possibly, a different course number on the transcript. The following notation will appear on Parkway transcripts: (*) = Modified Curriculum. Modified course grades are averaged in the same manner as regular course grades to compute grade point averages and determine eligibility for extracurricular activities. Eligibility for extracurricular activities is determined in the same manner for all students. To determine potential implications for eligibility in high school or college competitive interscholastic athletics/activities, refer to the Missouri State High School Activities Association (MSHSAA), the NCAA Clearinghouse, and/or the school guidance counselor and athletic director.

When a student with an IEP earns the normally required number of credits for a diploma, but the IEP team recommends that the student’s individually prescribed course of study should include additional special education programming (i.e., Vocational Skills Program), the diploma is to be awarded after completion of all the student’s prescribed programming. However, the student may participate in their high school graduation ceremony with classmates, as deemed appropriate by the IEP team.

Special education services can be provided in a variety of ways. See next page.
SPECIAL EDUCATION SERVICES IN A GENERAL EDUCATION SETTING

Co-Teaching/Collaborative Instruction
Special education services are provided through collaborative planning and co-teaching involving a Parkway content area teacher and a special education teacher. Co-teaching is not offered in all content areas, grade levels, or classrooms. Placement in a co-taught class will depend upon student needs identified through the IEP process and consideration of other service delivery options. Co-taught courses are listed in a student’s schedule like any other course, with no indication/notation that it is a co-taught section/course. To determine if your child is enrolled in a co-taught course, contact your child’s case manager and counselor.

Work Experience (WORK EXP)
Students gain training in job skills in the classroom +/- school building or at a local community job site under the direct supervision of an on-site special education staff. Post-secondary transition goals developed by the IEP team drive the job site selection and job skills taught through the work experience program. Work Experience courses count toward the required elective credits for graduation. (This is a special education course and the setting is considered general education.)

SPECIAL EDUCATION SERVICES IN A SPECIAL EDUCATION SETTING

Strategies Classes (e.g., Writing Strategies, Reading Strategies, Math Strategies)
These courses follow specific research-based curricula and instruction tailored specifically to a student’s learning objectives to teach reading, writing, and math strategies designed to meet the student’s individual goals. Skills taught in strategies classes will support the student in their general education courses.

Strategies classes count toward the required elective credits for graduation.

Alternative Courses (e.g., ALT MATH, ALT ENG)
These courses involve direct instruction by a special education teacher in content areas (i.e., math, reading, writing) that is tailored specifically to a student’s learning objectives, IEP goals, and instructional needs. The curriculum in alternative courses may be the standard Parkway content area course curriculum in whole or part, or an alternative curriculum may be utilized to meet the student’s unique needs.

Individualized Instruction (INDINSTRUCT)
These courses involve a curriculum which is individualized for a student by the IEP team to address IEP goals/objectives. The individualized curriculum does not relate to a specific content area or Parkway course. Rather, it is based on materials, activities, and elements of established curriculums identified by the special education teacher to support the student in achieving his/her IEP goals/objectives. Individualized instruction does NOT mean 1-to-1 instruction; students are in a classroom with peers and all activities are individualized to each student’s needs/goals/objectives. Individualized Instruction courses count toward the required elective credits for graduation.

For more details regarding the curriculum and course objectives for each special education course, use the Online Curriculum Guide on the Parkway Teaching, Learning, & Accountability department website.
