

Bolt's Tips for Distance Learning

Stay Focused

Stay focused when the learning is live and when you are working by yourself. Always try your best even when it is hard.

Create a Learning Space

Find a space that is quiet and free of distractions. Keep materials close so you don't waste time and are prepared.

Make Good Choices

Be respectful, responsible, safe, and kind when interacting in a Meet or Zoom. Be appropriate and follow directions when completing assignments and posting on discussion boards and apps like flipgrid.

Participate

Share your thinking and ask questions.

Be Patient

This is new and we are learning together.

Be On Time

Make sure you know the schedule for the day. Use timers to be on time.
