GLOSSARY	DEFINITION
NETWORK	Network – when used to describe a provider of health care services, this means a provider that has a participation agreement in effect (either directly or indirectly) with the Claims Administrator
GENERIC DRUGS	-generally these are the least expensive and are the most cost effective for both you and the plan.
PREFERRED BRAND DRUGS	-generally these drugs do not have a generic equivalent or may be a less-expensive, but equally effective, alternative to its Non-Preferred counterpart.
NON-PREFERRED BRAND DRUGS	-generally these drugs have either a generic or Preferred Brand alternative available. These drugs tend to be the most expensive drugs for both you and the plan.
NOTE :	In the event of any inconsistency between this summary and the actual Plan Document for each plan, the provisions of the Plan Document shall apply.
