

How to Schedule an Appointment with the CareATC App

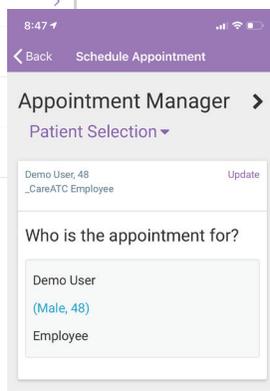

1

Log in to the CareATC mobile app with your username and password. If you don't have an account, you can log in using the "I'm New Here" option and entering the verification information. You can request an access code to activate your account by calling the Patient Access Center or by asking the clinic staff at your first appointment.

2

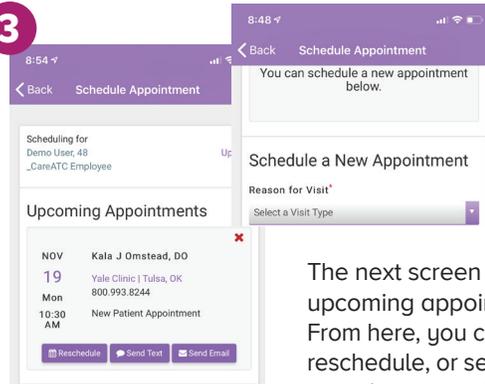

Select "Schedule an Appointment", and then choose the patient you are scheduling for.

Three easy ways to schedule an appointment:

- ↓ CareATC App
- ↶ careatc.com/patients
- ☎ 800.993.8244

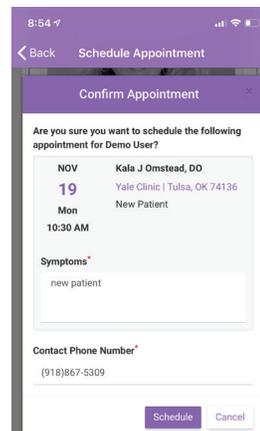

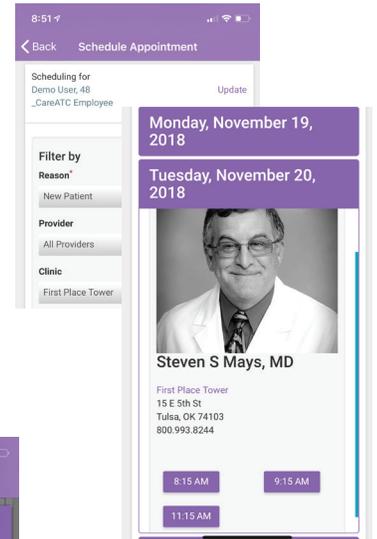

3

The next screen shows any upcoming appointments. From here, you can cancel, reschedule, or send yourself a text/email reminder. To schedule a new appointment, select the reason for your visit.

4

Use the filters to narrow down available appointments, then scroll down to choose your preferred appointment date and time.

5

Once you have selected your preferred appointment time, fill out your symptom information and contact phone number. Click "schedule."
