**Guion Bluford Jr. was the first African American in Space and has received over 40 awards in his lifetime. He logged over 688 hours in space. He said, " I felt an awesome responsibility very seriously, of being a role model and opening another door to Black Americans, but the important thing is not that I am black, but that I did a good job as a scientist and an astronaut. There will be black astronauts flying in later missions... and they, too, will be people who excel, not simply who are black...who can ably represent their people, their communities, their country"**

**Jr. Vikings act with Integrity and Grit in the Great Hall when we wait our turn in line. We are all Jr. Vikings and it's a great day to be a Jr. Viking!**
