

# Technical High School

Per the Administrative Guidelines for Parkway's Policy IKF "Diploma Requirements:"

"Parkway may accept credits awarded by the Special School District (SSD) of St. Louis County to Parkway students attending (on a part or full time basis) a SSD technical high school. Transcripts are to indicate when the student attended and which courses were completed at the technical high school. Parkway grade point averages (GPA's) and class rankings will be based only on coursework completed in Parkway high schools and transferred in from a previously attended accredited high school. Parkway students completing their high school requirements on a part or full time basis at a Special School District of St. Louis County technical high school may be eligible to receive a Parkway diploma from the Parkway school within whose boundaries they reside, provided they have satisfied both State and Parkway requirements."

South Tech MAKES develops entrepreneurial skills in students so that they can solve problems by making things. Students are exposed to the principles of business management and design thinking while being taught technical skills to design and create using technology and our hands. Students then put those principles and skills to work in a personal project that they will design and prototype and a separate class project they will work as a team to produce
