$\qquad$
PREREQUISITE Mathematics

## Number Lines

1. Mark and label the following numbers on the number line below: $-31 / 2,8, \quad-6.5,2 \frac{1}{2}$, and 0.5

2. Mark and label the following numbers on the number line below: $\frac{3}{5},-1.7,-\sqrt{1},-2.3$

3. Mark and label the following numbers on the number line below: $\sqrt{3}, \quad 1.65, \frac{26}{20}, 1 \frac{2}{8}$

Parkway North- Algebra 1 Summer Skill Set

page 1

Comparing Numbers Fill in the blank using $<,>$, or $=$.
4. $\frac{2}{7}-0.22$
5. -3.67 $\qquad$ -3.62

## Ordering Numbers

6. Place the following numbers in order from least to greatest:
8.05, 8.51, 8.1, 8.01,
8.15

7. Place the following numbers in order from greatest to least:

$$
-\sqrt{3}, \quad 1.8, \quad-\frac{3}{7}, \quad-\frac{1}{3}, \quad \frac{5}{3}
$$

## Compare Numbers:

8. Fill in the blank using $<,>$, or $=. \quad \frac{1}{7} \quad \frac{1}{3}$
9. Fill in the blank using $<,>$, or $=$.

10. Fill in the blank using $<,>$, or $=. \quad \frac{9}{5} \quad 1.6$
11. Fill in the blank using $<,>$, or $=$.
$\frac{5}{3}-1.6$
12. Fill in the blank using $<,>$, or $=$.
$\sqrt{7}$
2
13. Fill in the blank using $<,>$, or $=$.

## Create a Table

14. Given the function: $P=5 h-42$, find the output $P$ for the following inputs.

| $b$ | -3 | -1 | 0 | 1 | 3 |
| :--- | :--- | :--- | :--- | :--- | :--- |
| $P$ |  |  |  |  |  |

15. Given the function $y=8-3 x^{2}$, find the output, $y$, for the following inputs.

| $b$ | -3 | -1 | 0 | 1 | 3 |
| :--- | :--- | :--- | :--- | :--- | :--- |
| $P$ |  |  |  |  |  |

16. Given the graph of the following function, create an input-output table for at least five points.

| $x$ |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- |
| $y$ |  |  |  |  |  |

## Create a Graph

17. Given the table below, create an accurate graph. Include labels for the x and y axis.

| Surface Area <br> (feet) | Shipping Cost |
| :---: | :---: |
| 3 | 4.90 |
| 6 | 10.90 |
| 7 | 12.90 |
| 11 | 20.90 |
| 19 | 36.90 |

18. Given the following equation, create an input-output table. Then create an accurate graph.

$$
f(x)=x^{2}-4
$$

## Create a table and graph from context

19. The temperature outside at $8: 00 \mathrm{pm}$ is 95 degrees. The weather report claims that the temperature ( T ) will drop by 5 degrees per hour (h).
a. What will the temperature be at the end of each hour from 8:00 pm to 2:00 am?
Make a table to display this data.
b. Create a graph to model the temperature outside after 8:00 pm .

## Making Predictions

20. Your friend Leah just got a job working at Apple. She will start off making $\$ 7.50$ per hour and she is expecting to work about 15 hours a week. If Leah owes you $\$ 200$ for when you paid for her concert ticket, make a prediction about how many weeks will it take Leah to pay you back.
21. Anthony got a job! Use the chart below to predict how much money he will earn after working 9 hours.

| Hours <br> Worked | Money <br> Earned |
| :---: | :---: |
| 1 | 7.15 |
| 2 | 14.30 |
| 3 | 21.45 |

Variables on One Side
Solve the following equations:
22. $4+x=13$
23. $4 x-7 x=-15$
24. $\frac{a}{6}=\frac{5}{2}$
26. $\frac{1}{4} x+7=5.6$
27. $\frac{2}{9}=\frac{5}{x+4}$
28. $3(2-4 x)+8 x=27$

## Variables on Both Sides

 Solve the following equations:29. $5 \mathrm{x}+8-2 \mathrm{x}=34+\mathrm{x}$
30. $7(x+3)+5 x=12 x+21$
31. $3-5(a+12)-7=-5 a+13$
32. $\frac{3}{7}(\mathrm{p}+7)+7=\mathrm{p}-12$

## Context

## Context

33. The rectangle shown in the diagram has a perimeter of 28 . Solve for x .

34. Chandra is selling handmade bead bracelets to pay for her spring break trip. Each bracelet sells for $\$$ 7.50. She paid $\$ 250$ for all the supplies. How many bracelets does she need to sell in order to make a profit of $\$ 1000$ ?

Write and solve an equation that represents the situation.
35. You have $\$ 20$ in your wallet as you walk into Goodwill. You want to get 2 Grandpa Coats at $\$ 6$ apiece. You also want to get some slippers for your comfy nights in.
The slippers are $\$ 3$ a pair. How many slippers can you afford?
Write and solve an equation that represents the situation.

## Rate of Change

Identify the rate of change.
$36 .$.
