

MOSAICS

6th grade: Students are starting their Design Thinking Unit. They will be inventing and creating cool new products! Ask your student what we are working on in class! *Architect* presentations are right around the corner. Please be sure your student is working on this presentation at home. They will begin presenting in January.

7th grade: Students finished their Skate Parks project. They were very creative. Students should be working on their *I Know It, You Will Too* projects. They should find a topic that has had some sort of “global impact.” They need to prepare a 20 minute oral presentation about their topics. Please be sure your student is working on this at home. Students are starting their Design Thinking Unit. They will be inventing and creating cool new products! Ask your student what we are working on in class!

8th grade: We completed our Rollercoaster Unit! We are starting our 5 Pieces Unit after health. It is a historical research project. Students find five photos, artifacts, and other documents involving their topics and they put them all together like a jigsaw puzzle. Typically students really enjoy this unit!
