

## WORLD LANGUAGES

Encourage your 6th grader to sign up for a language for next year. This is the best time that your student will have to begin a new language and get started on earning high school credit.

Students who have been in level A of a language this year should continue to level B in 8th grade. Together levels A and B are equivalent to level 1 in high school.

Your 8th grade students should continue to level 2 in the high school next year. Consider that most colleges often expect incoming students to have completed at least level 2 of a language, and normally even more is better.
