

## Buddies

Each grade level periodically pairs up with another grade level. Kindergarten pairs up with third grade, fourth pairs with first grade and second pairs up with fifth grade. During Buddy activities, our teachers integrate important Parkway curriculum, deliver additional peer mentorship and opportunities to build a strong, safe school climate. Buddy field trips and events are communicated to families by grade level teams.

Kindergarten and Third Grade buddies are working together to celebrate the end of the Kindergarten writing unit. Students were able to share their published piece of writing and then worked to write a story together using pictures and words on the pages.
