

PARKWAY PERSONALIZED

A personalized approach to student learning will create opportunities for students to meet mission by focusing on these *vision statements* and *learning principles*:

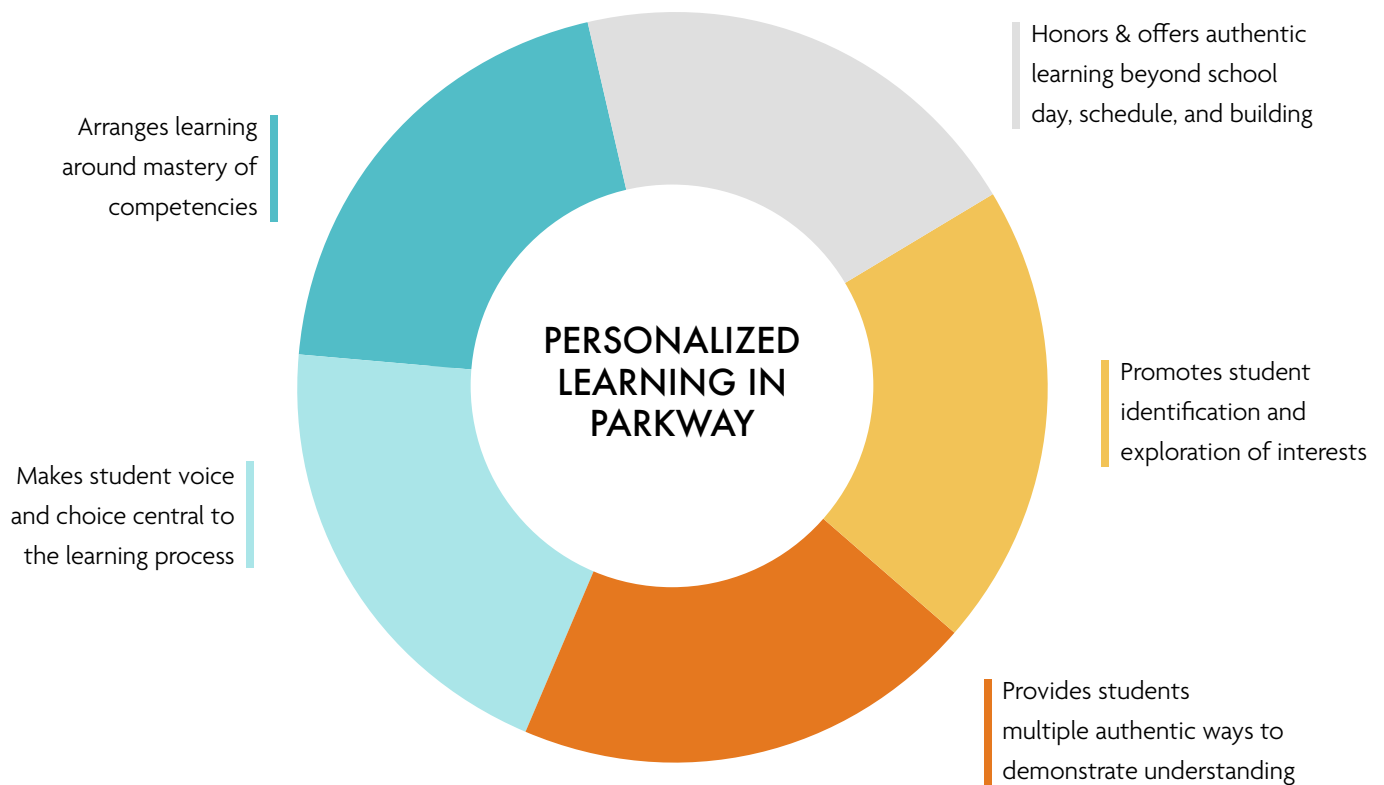

VISION

- Seek to become increasingly self-directed, skilled and persistent learners
- Be creative, thoughtful and effective problem solvers
- Pursue a personal direction based on individual talents and interests

LEARNING PRINCIPLES

- Transfer learning to new situations beyond the classroom and school
- Test ideas, take intellectual risks and learn from mistakes in pursuit of understanding
- Experience learning challenges that match individual abilities, needs and interests

PARKWAY'S PERSONALIZED LEARNING MODEL

WITHIN PERSONALIZED LEARNING, PARKWAY STUDENTS WILL:

- ▶ Solve authentic problems by using a variety of strategies, taking calculated risks, and engaging in deliberate design processes.
- ▶ Explore local and global issues by connecting beyond the classroom and working skillfully with others to achieve common goals and engage with the broader community.
- ▶ Demonstrate a growth mindset by intentionally seeking feedback, capitalizing on their strengths and transferring their understandings to new demands.
- ▶ Create original and remixed works to make their learning visible.
- ▶ Display perseverance by seeking out challenges and new experiences to see problems as opportunities.
- ▶ Reflect on their learning experiences and advocate for their individual learning needs.
