## HIDDEN IN PLAIN VIEW

AN INITIATIVE TO HELP PARENTS SPOT SIGNS OF RISKY BEHAVIOR

### Would you recognize signs of youth alcohol or drug use in your home?

This interactive display of a teenager's bedroom contains over 60 items that could signal a teen is involved in risky activities. Parents will learn how to spot these warning signs and get tips for talking with their kids about the dangers of alcohol and drug use.

*Remember: Teens whose parents talk to them regularly about the dangers of drugs are up to 50% less likely to try them! Come learn how to get these conversations started.*
