Plastic Caps to Benches

2020-2021

We have partnered with The Rotary Club of West St. Louis County for the Plastic Caps to Benches Community Service Project. Our goal is to recycle plastic caps and lids and prevent them from ending up in our landfills and oceans. Bellerive students and community will collect plastic lids and caps at home. There will be school collection dates given in the future. Mr. John Drake, our Rotary sponsor, will drive our collection to Green Tree Plastics in Evansville, Indiana. Green Tree Plastics will then take the plastic lids and cap and build a bench for our students!

It takes 200 pounds of plastic lids and caps to make one plastic bench.
