RE: Executive Summary July 2023

Abstract

The July financial statements are attached. The salary and benefit expenditures are slightly lower than last year. Part of this is due to open positions and partially based turnover savings. You will notice a large decrease in federal revenues. This is due to an FY22 payment for free and reduced lunch received in July of 22. You will also note that in July of FY22 there was a large payment from SSD for transportation. This is currently billed monthly and not just once per year. For expenditures, we want to note that the credit for workers compensation from MUSIC was received in July 2023. For the prior year's financials, this was received in August 2022.

Future Issues

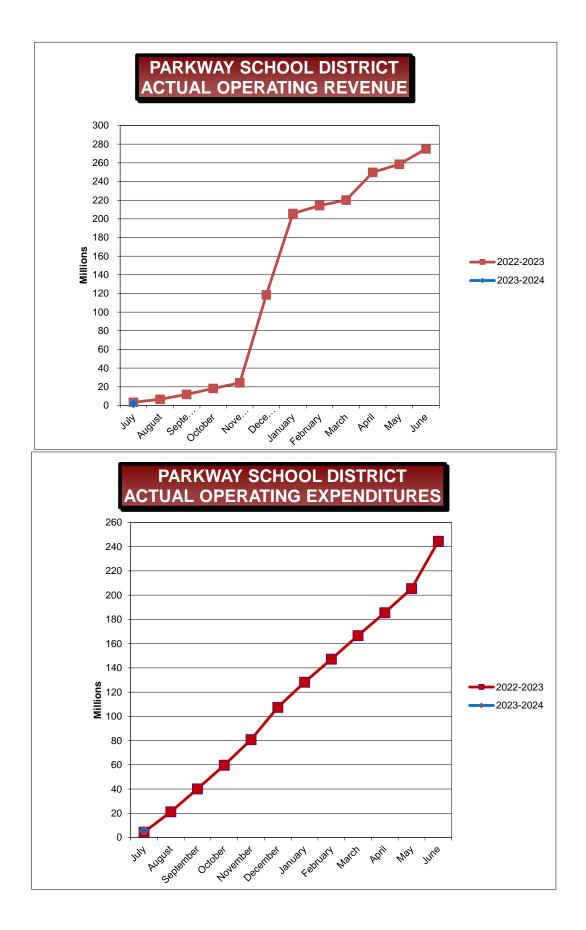

The following issues are still pending and could affect district finances in the future:

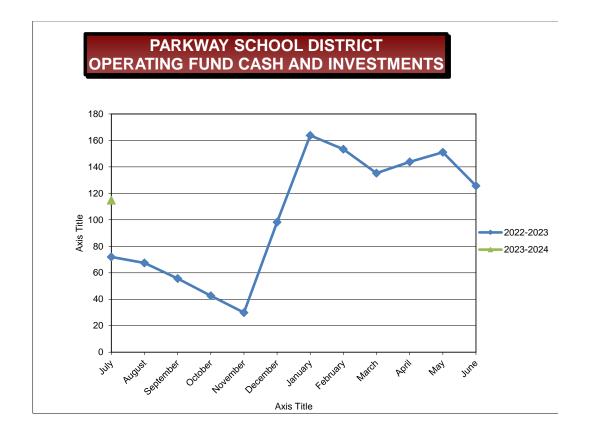

- <u>Health Insurance Costs</u> Health costs are a large portion of our benefit expenses. Our pharmacy benefit manager is through Business Health Coalition and we have substantial savings over market trends for our pharmacy. With the implementation of CVS as our PBM, we have seen savings and a reduction of the market increases. We opened our near site clinics for our employees and staff effective August 2018 and selected Care ATC as our continued provider. We had no increase in our premiums for 2023 and 2024 and our only plan change is the change in the HD plan deductible.
- 2. <u>Commercial Property Assessments Appeals</u> As you are aware this has been a struggle over the last several years. We have seen our collection rate fluctuate due to these settlements. We worked with the state auditor's office last year and have approved \$3.7 million in recoupment. We are delaying the levy of the recoupment to future years. Our collection rate has improved to 97% from our prior year, but anticipate high protest with the current reassessment year.
- 3. <u>New Construction Assessments</u> In September we received our final amounts from St. Louis County. We had another strong year with new construction with just over \$16 million in commercial and residential property and \$28 million in new personal property mainly attributed to the increased value of used cars.
- 4. <u>Interest Income</u> –Our interest from our banking account is budgeted to increase significantly due to the Fed's increasing the treasury rate. Our current rate earned is 5.64%.

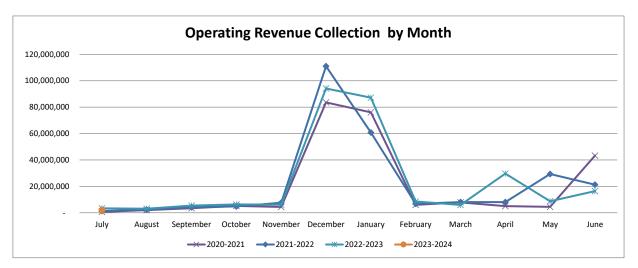

- 5. <u>State Revenue</u> –DESE will be basing our formula calculation on our attendance from two years ago. With the pandemic, our lowest attendance year was last year.
- 6. <u>Spot Market Purchases</u> For information purposes, fiscal year-to-date purchases under the spot market procurement policy are as follows:

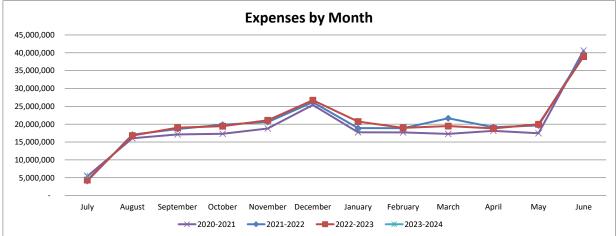

Fuel (Facilities)	\$ 12,686.55

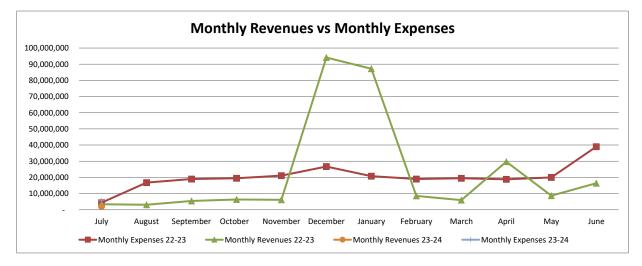

- Fuel (Trans) \$
- Paper \$ 5,046.80
