ANNUAL COMPREHENSIVE FINANCIAL REPORT AND INDEPENDENT AUDITORS' REPORT

PARKWAY C-2 SCHOOL DISTRICT

June 30, 2024

October 31, 2024

Members of the Board of Education and Residents of the Parkway School District

The Annual Comprehensive Financial Report (ACFR) of the Parkway C-2 School District (District), Chesterfield, Missouri for the fiscal year ended June 30, 2024, is presented on the following pages. This report provides full disclosure of the District's financial operation. Missouri revised statute 165.111 requires an audit to be performed at least biennially of the financial records of all funds of the District. Parkway has always chosen to have an audit done annually rather than biennially. This ACFR, which includes an opinion from the Independent Auditors that conducted the District's audit, conforms to the Generally Accepted Accounting Principles in the United States of America (GAAP) as applicable to governmental entities. The District maintains full responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures.

We believe that all data, as presented, is accurate in all material respects and that it is presented in a manner to fairly set forth the financial position and results of the District's operations as measured by the financial activity of its various funds. We further believe that all disclosures necessary to enable the reader to gain the maximum understanding of the District's financial activities have been included.

This letter of transmittal is designed to be read in conjunction with the Management Discussion and Analysis (MD&A) report which is located following the independent auditors' report. Financial highlights and a discussion of the District's financial condition are provided in the MD&A.

The Annual Comprehensive Financial Report is presented in three sections as follows:

- 1. The Introductory Section, which includes a Letter of Transmittal, Principal Officials, Organizational Chart of the District, and Association of School Business Officials (ASBO) Certificate of Excellence in Financial Reporting.
- 2. The Financial Section, which begins with the Independent Auditors' Report and includes the Management's Discussion and Analysis, the Basic Financial Statements, Notes To Basic Financial Statements and Required Supplementary Information.
- 3. The Statistical Section, which includes selected comparative financial, non-financial, demographic and economic data for the District.

Profile of the Organization

This report includes all funds of the District. The District is a political subdivision of the State of Missouri created under the Constitution of Missouri.

Parkway C-2 School District is considered a national leader in innovative education. Its teachers, administrators and students strive for excellence each day. Parkway is more than just a school system; it is a nurturing community that fosters individual talents and encourages collaborative thinking. At Parkway, when one person succeeds, everyone grows. It is the Mission of the Parkway School District to ensure all students are capable, curious, caring and confident learners who understand and respond to the challenges of the ever changing world. The District believes that Higher Expectations bring Brighter Futures For All By All. Certain accomplishments of the District are as follows:

Accomplishments

National School District of Character

Parkway School District is one of only two school districts recognized as a 2022 National School District of Character. Each of these schools has put into place a comprehensive approach that inspires their students to understand, care about and consistently practice a set of core values that will enable them to flourish in school, in relations, in the workplace and as citizens. In addition, Parkway has 19 National Schools of Character.

McKelvey Elementary: State School of Character

McKelvey Elementary has been recertified as a Missouri State School of Character. McKelvey has demonstrated a focus on character development which has positively impacted academic achievement, student behavior and school climate. This recognition is given to schools and districts that have achieved a standard of excellence in the area of character development through their exemplary implementation of Character.org's 11 Principles of Effective Character Education, a framework for whole-school improvement.

Champions for Character: Early Childhood Center

The Parkway Early Childhood Center is one of three area schools named 2023 Champions for Character by CharacterPlus and the St. Louis Cardinals. This recognition program honors schools in the metro area that have a school-wide focus on service learning and service projects for students.

Blue Ribbon School: Pierremont Elementary

Pierremont Elementary is one of only eight schools in Missouri to earn the 2023 recognition. The Blue Ribbon recognition is based on a school's overall academic performance or progress in closing achievement gaps among student subgroups on assessments. Parkway now has 18 National Blue Ribbon Schools.

Best Schools in Missouri

All five Parkway middle schools and all 18 elementary schools have been named among the best middle and elementary schools in the state, according to U.S. News & World Report.

ISTE Distinguished District

Parkway is one of only three school districts nationwide to be recognized as an ISTE (International Society for Technology in Education) Distinguished District. The ISTE award highlights school districts that search out and embrace change or improve teaching and learning and serve as an example for other schools. Awardees must

demonstrate effectiveness and innovation in the use of technology throughout their district, ensure equitable, accessible and appropriate technology use for all students, and are focused on improving learner outcomes and continuously enhancing the learning experience, and bring along all stakeholders, including staff, students, families and the community, in the process.

Bell Seal for Workplace Mental Health

Parkway recently received the Mental Health America's Platinum Bell Seal award. The Bell Seal for Workplace Mental Health national certification program recognizes employers committed to employee mental health and well-being. This is the third year in a row that Parkway has received this recognition.

U.S. Department of Education Green Ribbon School District

Parkway Schools has been named a 2020 U.S. Department of Education Green Ribbon School District. Parkway is one of just 11 districts in the nation with this honor. Additionally, Parkway has six National Green Ribbon Schools - Bellerive Elementary, Claymont Elementary, Green Trails Elementary, Highcroft Elementary, McKelvey Elementary and North High - honored for innovative efforts to reduce environmental impact and utility costs, improve health and wellness, and ensure effective sustainability education.

2022 ENERGY STAR Partner of the Year Award

Parkway received the 2022 ENERGY STAR Partner of the Year award from the U.S. Environmental Protection Agency and the U.S. Department of Energy. This recognition honors our comprehensive approach to energy improvements, community engagement and curriculum development.

Best High Schools in America

Central, North, South and West high schools rank in the top 5% for best public high schools in Missouri. Parkway Schools ranked in the top 1% for best school districts in Missouri according to the 2024 rankings on Niche.com. All four Parkway high schools have again been named Best High Schools by U.S. News and World Report. Central, North, South and West high schools all rank among the top third of all high schools in the country.

National Merit Finalists receive scholarship

Five Parkway students were awarded National Merit scholarships. Two received corporate-sponsored scholarships and three students are recipients of National Merit \$2,500 scholarships. Eighteen Parkway seniors were named finalists in the 2024 National Merit Scholarship program. These students represent less than 1% of high school seniors in the United States.

The Merit Scholar designees were chosen from a talent pool of more than 15,000 outstanding finalists in the 2024 National Merit Scholarship program.

National Merit Scholarship winners are the finalists in each state judged to have the strongest combination of accomplishments, skills, and potential for success in rigorous college studies. The number of winners named in each state is proportional to the state's percentage of the nation's graduating high school seniors.

Missouri Scholars 100

Six Parkway high school students were selected for the 2024 Missouri Scholars 100 list, a statewide program that honors 100 of Missouri's top academic students in the graduating class of 2024.

Missouri Scholars Academy

Eleven Parkway students have been selected to participate in the Missouri Scholars Academy this summer. Students are selected by GPAs, standardized test scores, IQs, recommendations, and formal essays.

ACT

ACT Perfect Scores

Eight Parkway students recently learned they scored a 36 -- the highest possible score -- on the ACT college admissions and placement exam. Nationally, while the actual number of students earning the top score varies from year to year, on average, fewer than 1% of students who take the ACT earn a top score.

Best Communities for Music Education

Parkway Schools is one of seven school districts in the state to be awarded a Best Communities award for Music Education by the NAMM Foundation. Designations are made to districts and schools that demonstrate an exceptionally high commitment and access to music education. This is the sixth year Parkway has received this honor.

State Tennis Champions

Congratulations to Yvonne Shannon and Emily Koo from North High on becoming MSHSAA Class 2 Doubles Girls Tennis State Champions! Yvonne and Emily are the first doubles state champs in the history of Parkway North!

State Swim Champions

The boys swim and dive teams from Central, West and South high schools finished first, second and fourth at the MSHSAA Class 1 State Championship. Central High had several individual state champions in addition to several new records. Central High's boys swim and dive team won back-to-back state champions.

DESE Exemplary Fleet Award/Missouri Highway Patrol Fleet Excellence Award

The Parkway bus fleet passed annual inspections, conducted by the Missouri State Highway Patrol, with a score of 97% first-time pass rate. Thank you to our mechanics for keeping our buses and students safe and sound. The district will once again be recognized with the Exemplary Fleet Maintenance award from the Department of Elementary and Secondary Education (DESE).

National Board Certified Teachers

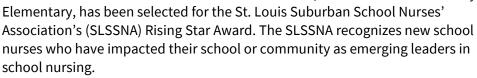

Parkway now has 62 teachers who have achieved the status of National Board Certification. Less than 3% of teachers in the nation are board certified. In the teaching programs, individuals meet high standards in content, practice, reflective research and application. The certification program is quite challenging and takes teachers to a new level in their craft and professional journey.

National Certified School Nurses

Parkway has 23 nationally certified school nurses, the most in Missouri. The NCSN credential is granted to registered nurses who meet educational, employment, and other criteria, and who have successfully passed the national examination managed by the National Board for Certification. Lisa Munch, the school nurse at Henry

Missouri Principal of the Year

Dr. Nathan Burch, principal of Claymont Elementary, selected as Missouri Principal of the Year. Every year, the Missouri Association of Elementary School Principals (MAESP) honors school leaders who set high standards for instruction, student achievement, character, and climate for the students, families and staff in their learning communities. Shown here during a school spirit day where students dressed like staff members and staff dressed like students.

Dr. Angie Pappas-Muyco of South High was named Exemplary New Principal for St. Louis by the Saint Louis Association of Secondary School Principals (SASSP). Angie, in her second year as principal.

Missouri Outstanding Assistant Principal

Ashley Deckelman, assistant principal at Oak Brook Elementary, has been selected as the Missouri Outstanding Assistant Principal of the Year by the Missouri Association of Elementary School Principals (MAESP).

St. Louis Regional Teacher of the Year

South High math teacher Anne Erehart has been named one of 34 regional honorees in the Missouri Teacher of the Year program coordinated by Education Plus and the St. Louis Regional Professional Development Center. Erehart was named the Parkway District Teacher of the Year, as well as the district's High School Teacher of the Year for 2023.

Emerson Excellence in Teaching Award

Three Parkway teachers have been selected as winners of the 2023 Emerson Excellence in Teaching Award – Zora Shields, first-grade teacher at Wren Hollow Elementary; Jeffrey Stephenson, social studies teacher at Parkway Central Middle, and Anne Erehart, math teacher at Parkway South High. The annual program recognizes St. Louis area instructors, selected by their schools' administrators, for their accomplishments and dedication to their students and the teaching profession.

St. Louis School Librarian of the Year

Katie Pendleton, a librarian at South High, has been named the St. Louis Suburban School Librarian of the Year. Katie and media specialist Dawn Murray, were named one of nine libraries in the state to receive the Exemplary Library Program award from the Department of Elementary and Secondary Education (DESE) for the 2022-2023 school year.

High School Chemistry Teacher of the Year

Bethanie Karfs has been named the 2023 High School Chemistry Teacher of the Year by the American Chemical Society's St. Louis Section. With more than 16 years of experience, Karfs teaches A.P. and Honors Chemistry at Central High. She has a background in engineering from the automotive industry and incorporates it into her lessons. Bethanie is also the science department leader and coach of the girls' lacrosse team.

Accomplishments (concluded)

MoASBO Business Official of the Year

Chief Financial Officer, Patty
Bedborough was named the 2024
Missouri School Business Official of the
Year. The award is a peer recognition
program established to acknowledge
someone who has demonstrated
excellence in service to their school
district, community and profession.

MoASBO Emerging Leader of the Year

The Missouri Association of School Business Officials (MoASBO) announced Nickie Otten as this year's Emerging Leader. Otten's peers nominated her for exhibiting leadership qualities as a "rising star" in our profession and association. This award recognizes

school business professionals who are committed to leading with integrity and continuous improvement.

"AAA" rated

Parkway is one of only four school districts in Missouri to have an "AAA" rating. The ranking is based on strong financial performance and management, good financial practices and maintaining low debt levels. S&P Global Rating Services recently reviewed Parkway's finances and reaffirmed the district's "AAA" long-term rating, the highest available for school districts. S&P Global Ratings views the outlook for this rating as stable.

Certificate of Excellence in Financial Reporting

The Association of School Business Officials International (ASBO) is pleased to award Parkway School District the Certificate of Excellence in Financial Reporting (COE). ASBO International's COE recognizes districts that have met the program's high standards for financial reporting and transparency. The school district earned the Certificate of Excellence for its Annual Comprehensive Financial Report (ACFR) for the

fiscal year ended 2023.

Meritorious Budget Award

Parkway was recognized by the Association of School Business Officials International (ASBO) for excellence in budget presentation with the Meritorious Budget Award (MBA) for the fiscal year 2023–2024. ASBO International's MBA programs promote and recognize excellence in school budget presentation. Program participation enhances school business officials' skills in developing, analyzing, and presenting a school system budget.

Profile of the Organization

The Parkway School District Board of Education (the "Board"), consisting of seven elected officials, has the power to sue and to be sued and to make rules and regulations for its own government consistent with the laws of the State of Missouri and the State Board of Elementary and Secondary Education (DESE). The Board has oversight responsibility and control over all activities related to public education in the District, including the authority to designate management, and the ability to significantly influence operations and primary accountability for fiscal matters.

It is the responsibility of the District to make public education available to residents of the Parkway C-2 School District. The District is an independent entity and receives its funding from local, state and federal government sources and must comply with the requirements of these funding agencies.

The District operates the seventh largest school district of the 557 districts operating in the State serving 17,416 students for Fiscal Year 2023-2024. The District provides a full range of public education services at all grade levels ranging from kindergarten through grade twelve. In addition to a superior regular academic curriculum, the District offers a broad range of other programs for students including gifted/talented, English as a second language, fine arts, advanced college placement, interscholastic and intramural athletics, assistance for at-risk students and others. In addition, the District provides services beyond the broad K-12. The District operates three Early Childhood Education centers and multiple classrooms throughout the district buildings, which serves children before they attend kindergarten and a Community Education program for adult continuing education. Some of the services provided to our students include instructional staff, instructional materials, instructional facilities, administrative and business service support, food service and bus transportation services and facility maintenance.

Accounting System and Budgetary Control

The District's Annual Comprehensive Financial Report was prepared pursuant to School Board Policy and in accordance with the standards established by the Governmental Accounting Standard Board (GASB).

The District utilizes a fully automated accounting system as well as an automated system of control for fixed assets and payroll. This system provides a complete set of self-balancing accounts for each District fund. The chart of accounts used in this accounting system was developed in accordance with the Missouri Financial Accounting Manual prepared by the Department of Elementary and Secondary Education, School Finance Section, State of Missouri.

The District's accounting system for governmental funds operates on the modified accrual basis of accounting. At year end, the governmental funds are converted from the modified accrual basis to a full accrual basis for the presentation of government wide financial statements. In developing the District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of these controls should not exceed the benefits and the evaluation of costs and benefits requires estimate and judgments by management.

Accounting System and Budgetary Control (concluded)

The District believes that the internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

A complete budgetary system of accounts is maintained in all of the District's funds in accordance with District policy. The accounting system provides interim financial reports which detail year-to-date expenditures and encumbrances as compared to the budget. These reports are distributed to the District's management and Board on a monthly basis showing the status of the budget accounts for which they are responsible. These reports compare each program, building and line-item account balance to the approved budget. A monthly financial statement is prepared and distributed to the Board for their approval.

The District's budget is prepared according to the Public School Laws of Missouri. During the course of the fiscal year, the School Board has the opportunity to approve budget adjustments on at least two separate occasions, once in the fall and again in the spring. Missouri Revised Statute 67.030 permits budget amendments to the expenditure budget as long as the changes do not exceed estimated revenues to be received during the year plus the unencumbered balance at the beginning of the fiscal year. The original budget for the School District was adopted June 14, 2023 with amendments being approved on November 15, 2023 and April 11, 2024.

Economic Condition and Outlook

The District is located in St. Louis County, Missouri, and covers an area of approximately 68 square miles, including portions of unincorporated St. Louis County as well as areas of the following municipalities: Maryland Heights, Creve Coeur, Chesterfield, Town & Country, Des Peres, Ballwin, Manchester, Twin Oaks, Country Life Acres, Valley Park, Westwood and Winchester. The District is a blend of commercial, industrial and residential activity. The economic diversity of the District, along with the high quality of education, makes Parkway C-2 School District an attractive community.

Since the District was organized in 1954, it has expanded from a rural farming community to a suburban industrial one, expanding from a small district to one of the largest in St. Louis County and tenth largest in Missouri. Today, the District includes four high schools, five middle schools, 19 elementary schools and three Early Childhood Development Centers. Parkway is currently accredited with distinction in performance under the Missouri School Improvement Program (MSIP) Standards administered by the State Department of Elementary and Secondary Education. The District is governed by the Board of Education, whose seven members are elected for staggered three-year terms of office.

The population within the District's boundaries is estimated to be 143,452 by 2026. There were 16,618 children that attended school during the 2023-2024 academic year. The District employed 1,331 full time equivalent certificated instructional staff. The current certified staffing created a certified staff to student ratio of 12.48:1 during the past academic year. The enrollment, staffing ratio and number of certified staff are expected to be similar in the 2024-2025 school year.

Major Initiatives

Current Year and Future Years

The District has spent the past year following the strategic plan, Project Parkway 2.0. The District operates on a Mission Statement that focuses on successfully educating all Parkway students and preparing them for the next stage of their lives. The District is actively working on Parkway 3.0 as part of our strategic plan which we will beginning following in the 2024-2025 school year.

Under Project Parkway 2.0, Goal 3 is dedicated to the efficient allocation of resources including finances, facilities, personnel and time. The plan includes three measurable objectives and key performance indicators will indicate success or improvements needed. The measurable objectives are as follows:

- Each school, department and program will maintain ethical and fiscally responsible practices to effectively accomplish mission
- All personnel, time and resources will be allocated responsibly and flexibly based on mission related needs of students and the financial reality of the district
- Each school, department and program will successfully integrate environmentally, socially and fiscally sustainable best practices into their area of focus.

The key performance indicators include fund balance growth, evidence of an unqualified audit, successful bond issue elections, maintaining AAA credit rating, capital projects completion on time and on budget, personnel allocation based on targets, energy usage by building, water usage by building, wellness initiatives, etc.

Bond Issue

The voters approved a \$265 million no-tax bond issue in 2022 and \$90 million of these bonds were sold. The District has already started using these bond funds for improvements across all buildings in the District. The District has 29 school buildings with an average age of 54 years. The age of the well-constructed buildings means they require ongoing updates, renovation and replacement of systems.

Debt Administration

As of June 30, 2024, long-term general obligation bonds totaled \$287,585,000. The District has remaining bonded debt capacity of \$700,055,240 on June 30, 2024.

Significant Board Policies

The District has entered into agreements with the Parkway National Education Association, the Parkway Registered Nurses' Association and the Parkway United Maintenance Association. Each of these agreements dictate the work environment and compensation for the members of each organization.

The Parkway National Education Association is a three year agreement that covers 2023-2024, 2024-2025, and 2025-2026. The Parkway Registered Nurses' Agreement covers 2021-2022, 2022-2023, and 2023-2024. The Parkway United Maintenance Association Agreement is annual.

Reserve requirements are set by the Board of Education policy at 17.3% of the current year's operating expenditure budget. These reserves include a 13.5% operating reserve maintained to cover cash flow needs during the first half of the fiscal year and the stabilization reserve of 3.8% of operating expenditures to cover either an unexpected facilities issue or VST program funding issue. The facilities contingency is needed due to the age of District buildings and the documented list of deferred maintenance projects. In order to lessen our need for annual borrowing for Tax Anticipation Notes, the Board has established a policy that operating fund reserves are to grow by at least .75% every three year period.

Independent Audit

The revised statutes of the State of Missouri require that an independent audit be conducted on a biennial basis. The District policy, however, requires that an independent certified public accounting firm conduct an audit annually. This requirement has been satisfied and the opinion of Kerber, Eck & Braeckel, LLP is included in this report.

The District is also required to undergo an annual single audit in conformity with the provisions Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Information related to this single audit, including the schedule of expenditures of federal awards, and independent auditors' reports on the internal control over financial reporting and compliance with applicable laws and regulations is included in a separate single audit report and is available at the School District's Administrative Offices for inspection.

Acknowledgments

It is our desire that this report contain the necessary information and data that will provide a better understanding of the operations of the District to the District's Board of Education, outside investors and interested local constituents. It is further hoped that this report has been produced in a manner that all readers will obtain a clear and concise picture of the District's financial condition to enhance our accountability to the public.

The preparation of the Annual Comprehensive Financial Report on a timely basis could not have been achieved without the efficiency and dedication of the District's Finance Department. Each member of the Finance Department has our sincerest appreciation for their efforts that contributed to the quality of this report. All contributed significantly toward this project and should be very proud of the final product.

We would also like to express our appreciation to the Board of Education for their interest and support in planning and conducting the financial operations of the District in a responsible and progressive manner.

Independent Auditors' Report

Board of Education Parkway C-2 School District

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Parkway C-2 School District, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise Parkway C-2 School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Parkway C-2 School District, as of June 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Parkway C-2 School District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Parkway C-2 School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Parkway C-2 School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant
 accounting estimates made by management, as well as evaluate the overall presentation of the
 financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Parkway C-2 School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Parkway C-2 School District's basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information Included in the Annual Comprehensive Financial Report

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory and statistical sections but does not include the financial statements and our auditors' report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 31, 2024 on our consideration of the Parkway C-2 School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Parkway C-2 School District's internal control over financial reporting and compliance.

Keller, Eck & Branchel LLP

St. Louis, Missouri October 31, 2024 The Management's Discussion and Analysis (MD&A) of the Parkway C-2 School District's (District) financial performance provides an overall review of the District's financial activities for the Fiscal Year ended June 30, 2024. The intent of this MD&A is to look at the District's financial performance. Readers should also review the transmittal letter, financial statements and the accompanying notes to the financial statements to enhance their understanding of the District's financial performance.

This reporting model was adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments* issued June 1999 and implemented by the District in 2002.

FINANCIAL HIGHLIGHTS

Key financial highlights for the Fiscal Year 2023-2024 include the following:

• The net position increased by \$40,407,630 for the year ended June 30, 2024. The net increase was comprised of the following elements:

	Incre	Increase / (Decrease)	
Invested in capital assets, net of related debt	\$	(76,661,201)	
Restricted for:			
Capital Projects		86,884,321	
Debt service		4,523,341	
Certificated employee compensation and benefits		10,957,041	
Unrestricted		14,704,128	
Net increase	\$	40,407,630	

The amount, "Net investment in capital assets, net of related debt" decreased by \$76,661,201. There are 2 items that make up this decrease. 1)Existing long-term debt related to capital assets decreasing by \$17,217,776 (due to the new bond issuance last year and no new bonds issued in FY 24) less payments on outstanding debt. 2)Result of the cost of capital assets less net of accumulated depreciation decreasing by \$9,933,708 (additional capital assets of \$26,967,115 and capital asset depreciation of \$17,033,407).

"Net position restricted for capital projects" increased by \$86,884,321 because of funds received from the new sale of bonds last year less the funds that were used to pay current capital projects less unspent bond proceeds.

"Net position restricted for debt service" increased primarily as a result of dedicated debt revenues exceeding payments for non-crossover general obligation bonds.

"Net position restricted for Certified employee compensation and benefits" increased due to higher revenue received from Prop C and local taxes leaving a higher fund balance.

Parkway C-2 School District MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED

"Unrestricted net position" increased \$14,704,128 due to an increase in operating revenues exceeding operating expenses by \$34,794,313. The increase was partially offset by a decrease in proprietary fund balance of \$4,209,078. Other changes in compensated absences, early retirement payable and postemployment benefits also led to the net change in unrestricted net position.

 Total assets and deferred outflows increased by \$20,195,341, attributed to the following elements:

	Increase / (Decrease)	
Cash and investments - restricted and unrestricted	\$	9,976,525
Receivables		613,221
Prepaid expenses and inventory items		(2,440,570)
Capital assets, net of depreciation		9,933,706
Deferred OPEB outflows		(2,844,647)
Deferred pension contributions		4,957,106
Net increase	Ś	20,195,341
	<u> </u>	==,===,= :=

The increase in cash and investments is a result of a few different elements. One of the biggest contributors to this increase is the \$14,674,867 the District received in interest payments this year due to the higher interest rates on our bank and investment balances and the large amount of bond funds the District had the entire year. The other income to discuss would be the ESSER III payments received this year. All of these funds have been spent and reimbursed.

There was a net increase in capital assets of \$9,933,708. This is primarily made up of current year additions of \$26,967,115 mainly due to the continuing capital project activity using our Prop S funds less \$17,033,409 in depreciation. The deferred pension contributions increased as a result of a rise in the net difference between expected and actual earnings on pension plan investments as well as changes in assumptions.

FINANCIAL HIGHLIGHTS (continued)

 Total liabilities and deferred inflows of resources decreased by \$20,211,655 due to the following items:

	Increase / (Decrease)	
Accounts payable, salaries and other payables	\$	(5,173,057)
Claims payable		320,508
Unearned revenues		(403,633)
Interest payable		1,034,879
Net pension liability		7,298,722
Other postemployment obligation		816,721
Liabilities due within one year		(425,009)
Liabilities due in more than one year		(16,872,776)
Pension deferrals		(2,505,338)
OPEB deferrals		(4,302,672)
Net decrease	\$	(20,211,655)

The largest portion of the decrease is due to the \$16,872,776 decrease in liabilities due in more than one year primarily caused by the payment completion of the Series 2011 bond.

Other financial highlights are as follows:

- The largest source of revenue for the District continues to be locally assessed property taxes. In Fiscal Year 2023-2024, the assessed valuation increased \$687,766,010 (12.06%) to \$6,389,932,630 from the prior year. The collection rate, on a full accrual basis of accounting, decreased to 96.3% from 97.3% in the prior year. The collection rate is slightly lower than our historic collection of around 97.0%. A collection rate decrease was expected as there were more protested tax settlements, dragging down the collection rate. Total property tax revenue received amounted to \$233,035,241.
- Other local Ad Valorem tax revenues, such as county stock insurance, M&M surtax, financial
 institution taxes and locally assessed railroad and utility taxes are collected and distributed by
 the St. Louis County Department of Revenue. These taxes accounted for \$10,726,840 in general
 revenues which is an increase from prior year of \$115,115. A rise in 'In Lieu of Taxes' were the
 primary reason for this increase.
- State aid is generated from the State of Missouri's School Foundation Formula and is
 distributed based on a modified per pupil basis. The District is considered a hold harmless
 District which means that local proceeds mainly support the District's operations. Hold
 harmless Districts receive a minimum per pupil allocation from the State of Missouri. The per

weighted average daily attendance rate for Fiscal Year 2023-2024 was \$561.29. The actual formula funding received was \$8,785,033 which is \$361,466 less than the prior year.

- Total interest income generated in Fiscal Year 2023-2024 was \$14,674,566 which is \$6,815,172 higher than prior year. Interest income was higher as a result of higher interest rates available in our depositor accounts and in investment options. In Fiscal Year 2024-2025, the District has already seen a lower interest rate in our depositor accounts, therefore the District is projecting lower interest income. Also, the District will continue to have less funds to invest as the bond funds are being spent.
- Prop C (School District Trust Fund) is another large source of revenue for the District. Prop C revenue increased by \$1,652,003 for Fiscal Year 2023-2024.

Charges for services are considered program revenue. Below is a breakdown of these revenues:

- The service program revenue generated decreased by \$1,276,178 compared to the previous year.
- The largest revenue source of charges for services is the tuition reimbursement for students living in the City of St. Louis and attending the District. The District received \$4,834,708 in tuition revenue from this source, which is a decrease of \$900,235 from the prior year. This revenue source is projected to continue to decrease due to the program halting new entrants.
- The child nutrition program also was a large contributor to this revenue category. Fees charged for the nutrition program accounted for \$3,980,039 in local revenue, an increase of \$437,459 from the prior year. During the pandemic, the District saw an increase to federal funding. Due to the pandemic program which offered free of charge meals to all students with federal reimbursement for these meals. Now the District will receive local funds from parents paying for meals and federal funding for those students who qualify for the free and reduced program.
- Another large source of program revenues includes student activity receipts of \$3,599,643. That was a decrease of \$29,810. This decrease is so small that it is still considered showing signs of continuing participation in student activities post pandemic.
- Transportation reimbursements from other Districts and the Special School District decreased by \$1,460,554. The McKinney-Vento transportation reimbursements from other Districts decreased by \$389,548 (during the Fiscal Year 2023-2024, current and prior year revenues were received). Special School District reimbursements decreased by \$1,071,006 due to decreased bus routes.
- Grants and contributions account for \$17,704,818 in program revenues. This is an increase from the prior year of \$1,156,454. An explanation of this increase is as follows:
 - ➤ ESSER III reimbursements in Fiscal 2023-2024 were \$2,955,185 higher than in prior year. This is due to completing the spending of these funds in the current year.
 - > The decrease in federal child nutrition funds due to the shift between local and federal child nutrition revenue discussed above.

FINANCIAL HIGHLIGHTS (concluded)

- The adult education and literacy program, \$1,085,650. This is a decrease from the prior year of \$272,113.
- ➤ Federally funded Title programs, \$1,355,404. This is a decrease from the prior year of \$226,080.
- > Transportation state funding continued to be fully funded in Fiscal 2023-2024 (75% of allowed transportation expenditures equal fully funded). This resulted in \$4,333,666 being received in Fiscal Year 2023-2024 which is a slight decrease of \$608,718 from the prior year but still much higher than history.

ANNUAL COMPREHENSIVE FINANCIAL REPORT (ACFR)

The District uses the Annual Comprehensive Financial Report (ACFR) format to report financial information. This document consists of a series of financial statements and associated notes to those statements. These statements are organized so the reader can understand the District's financial standing. The "Government-wide Financial Statements" Section, consisting of the Statement of Net Position and the Statement of Activities provide highly consolidated financial information and render a government-wide perspective of the District's financial position. The "Fund Financial Statements" Section that follows provides increasingly more detailed information on specific financial activities.

THE DISTRICT AS A WHOLE

The Statement of Net Position and Statement of Activities

The Statement of Net Position and the Statement of Activities present an aggregate view of the District's financial standing. It also provides a more in-depth view of the District's current financial standing than would normally be seen in the Governmental Fund Type statements. These statements include all assets and liabilities using the full accrual basis of accounting. Accrual basis of accounting factors when the funds are used regardless of when the District receives funds or when the District pays for services.

These two statements report on the District's net position and changes in that net position. By showing the change in net position, the readers can determine whether the financial condition of the District improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, student enrollment, facility conditions and required educational programs for which little or no funding is provided.

Fund Financial Statements

The District's major funds financial statements provide more in depth information about the District's financial position and results of operations. The District's major funds are the General Fund, Special Revenue Fund, Capital Projects Fund and the Debt Service Fund. These fund statements report on governmental activities on a current or short-term basis.

THE DISTRICT AS A WHOLE (continued)

Most of the District's activities are reported in governmental funds format. This format focuses on how money flows in and out of these funds and shows the reader the remaining balances left at end of the fiscal year. These funds are reported using the modified accrual basis of accounting. The statements measure cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a short-term view of the District's general governmental operations and the basic services the District provides. Governmental fund information helps the reader determine the changes in financial resources to understand what can be spent in the near future. The relationship between governmental activities (as reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds

Proprietary funds use the same basis of accounting as business-type activities because the District attempts to recover costs through charges to the user. An example of a proprietary fund would be the Internal Service Fund (Self-Funded Health Insurance Plans).

Governmental Activities

As reported in the Statement of Activities on page 18, the cost of the District's governmental activities for the year ended June 30, 2024 was \$249,351,475. The Statement of Activities shows the cost of program services, the charges for services and the operating grants and contributions offsetting some of these services. Grants and contributions totaled \$17,704,818 and helped pay for certain programs. Charges for services include the following activities: tuition reimbursement, activity fees, fees for school lunches and facility use charges, contributed \$20,487,371 towards these programs. The remaining amount was financed primarily by the taxpayers of the District through ad valorem, and property tax revenue totaling \$266,300,208. Investment earnings contributed \$14,673,865. State aid and unrestricted grants and contributions accounted for \$8,785,032. The "net cost" statement, on the following page, determines the remaining cost of the various categories and informs the reader how much each program is funded by proceeds other than charges for services and operating grants and contributions.

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

District Funds

Total sources of revenue for all governmental funds were \$327,961,293 while District expenditures were \$310,346,591. As the District completed its Fiscal Year ended June 30, 2024, the governmental fund balance was \$273,139,110 as compared to \$255,524,671 on June 30, 2023. The increase was a result of operating funds (General and Special Revenue Fund) performing better than budgeted due to federal grant revenues and high performing local revenues.

The General Fund actual revenues were higher than budget by \$4,461,625 or 4.09%. Total actual expenditures for the General Fund were below the revised budget estimates by \$10,087,985 or 10.11%. The fund balance of \$99,229,481 is \$18,146,147 higher than the prior year. While the District plans to grow operating fund balances every year, this year's increase was also a result of lowered expenditures. Those expenditures were lower in salaries due to turnover and unfilled positions.

The Special Revenue Fund actual revenues were over the revised budget by \$2,753,620. Total actual expenditures for the Special Revenue Fund were under revised projections by \$2,067,437. The fund balance of \$35,948,908 is \$10,957,041 higher than the prior year. The District combines the General Fund and Special Revenue Fund balance to measure operating fund balances. This is a measure used by the State of Missouri as well. In total, the two fund balances as a percentage of expenditures grew to 53.37%, an increase of 10.00%. The District policy calls for growth in operating funds of at least .75% over three years.

The Debt Service Fund actual revenues of \$32,151,084 and expenditures of \$26,592,864 resulted in an increase in the fund balance of \$5,558,220. The debt service schedule for bond payments will lead to the debt service fund increasing in some years and lowering in other years. The increase in Fiscal Year 2023-2024 was a result of higher revenues based on an increase in assessed valuation.

The Capital Projects Fund actual revenues and other financing sources were \$13,440,209 (which includes the transfer from the general fund of \$5,700,000) while expenditures were \$30,487,179, decreasing the fund balance by \$17,046,970. The decrease is a result of no funds being received from the sale of bonds plus capital spending related to a bond issue. We expect this fund balance to decrease any year there is no bond issuance.

BUDGETING HIGHLIGHTS

The District's budget is prepared according to the Public School Laws of Missouri. During the course of the fiscal year, the School Board has the opportunity to approve budget adjustments on at least two separate occasions, once in the fall and again in the spring. Missouri Revised Statute 67.030 permits budget amendments to the expenditure budget as long as the changes do not exceed estimated revenues to be received during the year plus the unencumbered balance at the beginning of the fiscal

BUDGETING HIGHLIGHTS (continued)

year. The original budget for the School District was adopted June 14, 2023 with amendments being approved on November 15, 2023 and April 11, 2024.

Statements showing the District's original and final budget compared with the actual operating results of the District are provided in this Annual Comprehensive Financial Report (ACFR) on pages 53, 54, 59, and 60. The School District's year-end results were slightly better than had been projected, as conservative budgetary practices are customary.

During the fall of each school year, budget amendments are presented to the Board of Education. The main objective of these adjustments is to refine the initial budget based on newly acquired information from the State of Missouri's Department of Elementary and Secondary Education for purposes of revenue projections along with local tax revenues based on projections following the setting of the tax rate. On the expenditure side, adjustments are made to the initial salary and benefit projections to reflect actual salary and staffing levels. In addition, school and program budgets are adjusted to include certain budget surpluses left unspent from the prior year. These amounts are not known at the time the initial budget is developed but have the Board of Education's approval to add them at a later date. Throughout the year, \$25,384,189 was added to the expenditure budgets within the General, Special Revenue, Debt Service and Capital Projects Funds. This increase was made as a result of unspent funds from the prior year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

On June 30, 2024, the District had \$661,477,583 invested in land, buildings, furniture, equipment, vehicles, buses and construction projects in process. Of this amount, \$350,244,832 has been taken in depreciation. The District currently has a net book value of \$311,232,751 or 47.05% of the all capital asset's original cost. Increases during the year represent additions to those categories, while decreases represent retirements of assets during the year and depreciation of assets for the year.

During the current year, additions of \$88,985,192 of capital assets were capitalized while \$60,125,020 were deleted or retired. Depreciation for the year ended June 30, 2024 was \$18,926,464. Accumulated depreciation on the retired assets was \$1,893,057. Making the total net increase in capital assets \$70,058,728 and the total net increase of deleted or retired assets \$60,125,020.

Table IV Capital Assets June 30,

	2024		2023

		_	
Totals	\$	661,477,583	\$ 634,510,470

Debt Administration

On June 30, 2024, the District had \$287,585,000 in outstanding general obligation bonds. These bonds were originally issued for the purpose of capital improvements, building additions, and technology system advancements.

Note: Other long-term obligations include accrued compensated absences, obligations under capital leases, other postemployment benefit obligations and early retirement incentives. More detailed information on capital assets and debt administration can be found in notes D and E of the notes to the basic financial statements beginning on pages 37 and 38, respectively.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The operating budget (which excludes debt service and bond issue) presented to the Board of Education for approval for Fiscal Year 2024-2025 includes operating revenues of \$271,267,550, operating expenditures of \$268,887,585 with no transfer from general to capital. The result is an anticipated operating fund balance gain for Fiscal Year 2024-2025 of \$2,379,965.

As part of the normal budgeting process, long-range projections are developed and continually updated. This process allows the District to determine how much of the available resources can be used for ongoing projects, such as new programs or initiatives, versus one-time projects, such as facility repairs.

In addition to balancing the revenue and expenditure budgets, District policy sets two separate and distinct beginning of the fiscal year minimum cash requirements. The first is an operating reserve equal to 13.5% of the original combined operating expenditure budgets. Due to the cyclical nature of District revenues and expenditures, this reserve is designed to cover cash flow needs during the period of October thru December, just prior to the collection of the property tax revenues in late December and January. This reduces the need to do short-term borrowing to cover cash requirements.

The second of the minimum cash requirement reserves is for contingency planning. This reserve is equal to 3.8% of the combined operating expenditure budgets. Due to the age of the buildings within the District, the potential for emergency situations will continue to persist. The District fund balance policy also requires growth in the operating fund balance of .75% every three year period. This requirement is planned growth in the fund balance in order to eliminate the need for short-term borrowing in the future. In addition to emergency funding for facilities, there is also a need to continuously update our bus fleet. The District has been making transfers to the capital projects fund for these purchases as well levying a property tax in the capital projects fund.

The District's largest source of revenue is property taxes and there is uncertainty related to the collection rate and assessed valuations in future years. Reassessment occurs in odd calendar years in Missouri. Local food service revenues are parent funded and federally sourced for those that are part of the free and reduced program.

The District's largest expense is salaries and that is followed by benefits. Salary and benefits account for over 82.68% of the District operating expenditures. Most of those expenses are directly tied to enrollment which is declining slightly each year.

This report is designed to provide our citizens, taxpayers, investors and creditors with a full and complete disclosure of the District's finances and to show the District's accountability for the money it receives. If you have any questions about this report or need additional copies, they can be obtained by contacting the following people:

Parkway C-2 School District RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES WITH THE STATEMENT OF ACTIVITIES

Year ended June 30, 2024

Net change in fund balances - total governmental funds		\$	17,614,438
Capital outlays are reported as expenditures in the governmental funds. However, in the Statement of Activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:			
Capital asset purchases	88,985,192		
Depreciation expense	(18,926,464)		
			70,058,728
The governmental funds report debt (e.g. bonds) proceeds as an other financing source, while repayment			
of debt principal is reported as an expenditure. Also, governmental funds report the effect of			
premiums when debt is first issued, whereas these amounts are deferred and amortized in			
the Statement of Activities. The net effect of these differences in the treatment of debt and related items			
is as follows:			
Repayment of bond principal	15,780,000		
Repayment of lease obligation	118,607		
Amortization on bond premium	1,437,776		
Total	1,131,110		17,336,383
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of: Increase in compensated absences Net decrease in accrued interest Pension expense OPEB expense			(38,598) (1,034,880) 164,352 641,305
The internal service fund used by management to charge the costs of insurance to individual funds is not			
reported in the Statement of Activities. Governmental fund expenditures and the related internal			
service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated			
among the governmental activities.			(4,209,078)
In the Statement of Activities, the loss or gain on the sale or disposal of capital assets is recognized. The fund financial statements recognize only the proceeds from these assets.			
Proceeds from sale of capital assets	9,736		
Net book value of capital assets disposed	(60,134,756)

NOTE A | SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Parkway C-2 School District (the "District") is a political subdivision of the State of Missouri and operates under the regulations pursuant to Section 162.092 RSMo of the Public School Laws of Missouri, which designates a Board of Education to act as the governing authority. The District provides educational services to primarily prekindergarten through high school residents.

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Principles Determining the Scope of Reporting Entity

Generally accepted accounting principles require that the financial reporting entity is to include (1) the primary government, (2) organizations for which the primary government is financially accountable and, (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The criteria provided in the applicable GASB statements have been considered and there are no other agencies or entities, which should be presented with the District.

Fund Accounting

The accounts of the District are organized on the basis of legally established funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures. District resources are allocated to, and accounted for, in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The following fund types are used by the District:

Governmental Funds

Governmental funds are those through which most functions of the District are financed. The District's expendable financial resources (except those accounted for in Proprietary Funds) are accounted for through Governmental Funds. The measurement focus is based upon determination of changes in the financial position rather than upon net income determination. Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's governmental funds, each of which the District considers to be a major fund:

General (Incidental) Fund

This fund is the general operating fund of the District and accounts for expenditures for noncertified employees, pupil transportation costs, operation of plant, fringe benefits, student body activities, community services, the food service program, and any expenditure not required or permitted to be accounted for in other funds.

Special Revenue (Teachers') Fund

The Special Revenue (Teachers') Fund is a special revenue fund which accounts for expenditures for certified employees involved in administration and instruction, and includes revenues restricted, committed or assigned for the payment of teachers' salaries and certain benefits.

Debt Service Fund

This fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for the periodic payment of principal, interest and fiscal charges on certain long-term debt.

Capital Projects Fund

This fund is used to account for and report financial resources that are restricted, committed or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities or other capital assets.

Proprietary Funds

The Proprietary Fund is used to account for the District's ongoing activities which are similar to those often found in the private sector. The measurement focus is upon determination of net income. The District's Proprietary Fund is:

Internal Service Fund

This fund accounts for the proceeds from contributions for the payment of claims and the liabilities associated with the District's self-insurance activities (primarily medical and dental benefits). Expenses include claims paid, direct insurance payments and administrative fees. A liability for estimated claims incurred but not reported is recorded in this fund.

Fund Balances - Governmental Funds

In the fund financial statements, governmental funds report the following classifications of fund balance:

<u>Nonspendable</u> – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

<u>Restricted</u> – includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.

<u>Committed</u> – includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to limitations imposed by the Board of Education, the District's highest level of decision making authority. Commitments may be modified or rescinded only through ordinances approved by the Board. The District does not have any committed fund balances.

<u>Assigned</u> – includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the District's adopted policy, amounts may be assigned by the Chief Financial Officer.

<u>Unassigned</u> – includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed or assigned to those purposes, a negative unassigned fund balance may be reported. The District's policy requires a minimum unassigned fund balance of 17.3% of total operating expenditures in order to cover unexpected expenditures and revenue shortfalls.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board has provided otherwise in its commitment or assignment actions.

The details of the fund balances are included in the Balance Sheet – Governmental Funds.

Basis of Presentation

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities present financial information about the District as a whole. These statements include the financial activities of the primary government. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The Statement of Net Position presents the financial condition of the governmental activities of the District at year-end. The government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Amounts reported as *program revenues* include (a) charges paid by the students for tuition,

fees, goods and services offered by the program and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as *program revenues* are presented as general revenues and include all property taxes. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements

The fund financial statements provide detailed information about the District's funds. The emphasis of fund financial statements is on *major* governmental funds. Each fund is displayed in a separate column. The internal service fund total is presented in a single column on the face of the proprietary fund statement.

The accounting and reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are the balance sheet, which generally include only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

Basis of Accounting

Basis of accounting determines when transactions are reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting at the fund level. Proprietary funds also use the accrual basis of accounting at both reporting levels.

Revenues – Exchange and Non-Exchange Transactions – Revenues resulting from exchange transactions, in which each party receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of the fiscal year-end. The one exception is revenues collected for expenditure-driven grants utilize a ninety-day collection period.

Nonexchange transactions, in which the District receives value without directly giving value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements

and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenues from nonexchange transactions must also be available before they can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes, sales tax, interest, tuition, grants, student fees and rentals.

<u>Unearned Revenue</u> – unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received, (i.e., cash advances) before eligibility requirements are met are recorded as unearned revenues.

<u>Expenses/Expenditures</u> – On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds at the fund reporting level.

Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1 and are payable by December 31. The County collects the property tax and remits it to the District. An allowance for uncollectible taxes has been provided for delinquent taxes.

At the fund reporting level, property tax revenues are recognized when they become measurable and available. Available includes those property tax receivables expected to be collected within sixty (60) days after year end. Revenue recognition of delinquent property taxes not collected within sixty (60) days of fiscal year end is deferred.

The District also receives sales tax collected by the State and remitted based on prior year weighted average daily attendance. The District is required to reduce its property tax levy by one-half the amount of sales tax estimated to be received in the subsequent calendar year. The voters in the District approved a waiver of this tax rollback.

The assessed valuations of the tangible taxable property for the calendar years 2023 and 2022 for purposes of local taxation were \$6,389,932,630 and \$5,702,166,620, respectively.

The tax levy per \$100 of assessed valuation of tangible taxable property for the calendar years 2023 and 2022 for purposes of local taxation were:

	 December 31,							
	<u>2023</u>	<u>2022</u>						
General Fund	\$ 1.1378	\$	1.2065					
Special Revenue Fund	2.1130		2.2406					
Debt Service Fund	0.4900		0.4900					
Capital Projects Fund	 0.0477		0.0610					
Total	\$ 3.7885	\$	3.9981					

The receipts of current property taxes during the fiscal year ended June 30, 2024, aggregated approximately 96.26% of the current assessment computed on the basis of the levy as shown above.

Pooled Cash and Temporary Investments

Cash resources are combined to form a pool of cash and temporary investments which is managed by the District Treasurer, except resources from the Debt Service Fund, as state law requires these deposits to be separately maintained. The reported value of the pool is the same as the fair value of the pool shares.

The District may invest in bonds of the State of Missouri, of the United States, or any wholly-owned corporation of the United States; or in commercial paper or other short-term obligations of the United States.

Investments in external investment pools are stated at amortized cost, which approximates fair value.

Interest income earned is allocated to contributing funds based on each funds' proportionate share of funds invested.

For purposes of the statement of cash flows, the District's internal service fund considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

Restricted Cash and Investments

Restricted cash and investments represent amounts whose use is limited by legal requirements and consist of unexpended bond proceeds.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2024, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

<u>Inventory</u>

Inventories are stated at cost, on a first-in, first-out (FIFO) basis, and are expensed when used.

Capital Assets

General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are recorded at cost (or estimated historical cost) net of accumulated depreciation and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition values as of the date received. The District maintains a capitalization threshold of one thousand dollars for each individual asset for inventory control purposes and five thousand dollars for financial reporting purposes.

The cost of normal maintenance and repairs that do not add value to the asset or materially extend the asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed and placed in service. Improvements are depreciated over the remaining useful lives of the related capital assets. Except for land and construction in progress, all reported capital assets are depreciated. Depreciation is calculated using the straight-line method over the following useful lives:

Land Improvements20 yearsBuildings and improvements20 - 50 yearsVehicles and equipment7 - 20 years

Deferred Outflows of Resources

The District reports decreases in net position that relate to future periods as deferred outflows of resources in a separate section of its government-wide and proprietary funds statements of net position. The District reported two deferred outflows of resources in this year's financial statements. The two are deferred outflows of resources for contributions made to the District's defined benefit pension plans and the OPEB plan between the measurement date of the net liabilities from those plans and the end of the District's fiscal year. Additionally, the net difference between expected and actual experience and changes in assumptions in the plans are required to be reported as deferred outflows of resources. No deferred outflows of resources affect the governmental funds financial statements in the current year.

Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for this amount is reported in governmental funds only after they become payable, for example, as a result of employee resignations and retirements.

Accrued Liabilities, Early Retirement, and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, special termination benefits, claims and judgments, and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment. In general, liabilities that mature or come due for payment during the fiscal year are considered to have been made with current available financial resources. Bonds, leases and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

Individuals who retire with thirty years in the Missouri Public School Retirement System are entitled to a fixed retirement bonus if they provide certain nominal services over the first four to five years of their retirement. The liability for those benefits in the government-wide financial statements is recorded at the time of retirement.

Deferred Inflows of Resources

The District's statements of net position and its governmental fund balance sheet report a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in net position that applies to a future period(s). Additionally, the net difference between expected and actual experience and changes in assumptions in the plans are required to be reported as deferred inflows of resources. Deferred inflows of resources are reported in the District's statement of net position for actual pension plan investment earnings in excess of the projected amounts included in determining pension expense and changes in assumptions for the OPEB plan. This deferred inflow of resources is attributed to pension and OPEB expense over multiple years, including the current year. In its governmental funds, the only deferred inflow of resources is for revenues that are not considered available. The District will not recognize the related revenues until they are available (collected not later than 60 days after the end of the District's fiscal year) under the modified accrual basis of accounting.

Net Position

Net position is displayed in three components. Net investment in capital assets consist of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowings used for the acquisition, construction or improvement of those assets, net of any unspent bond proceeds, plus deferred amounts on refundings resulting from advance refundings. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by regulators, grantors or laws or regulations of other governments. The remaining balance of net position is reported as unrestricted. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are charges for services for self-insurance programs and insurance proceeds. Operating expenses are necessary costs incurred to provide the goods and services that are the primary activity of the fund. All revenues and expenses not meeting this definition are recorded as nonoperating revenues and expenses.

<u>Interfund Activity</u>

Interfund transfers are reported as other financing sources (uses) in governmental funds. The District transferred \$5,700,000 to the Capital Projects Fund from the General Fund during year ended June 30, 2024. The purpose of the transfer is to build the capital projects fund balance in order to fund future capital needs such as new buses.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from these estimates.

NOTE B | CASH AND INVESTMENTS

The District maintains a cash and temporary investment pool that is available for use by all funds except the Debt Service Fund (State law requires that all deposits of the Debt Service Fund be kept separate and apart from all other funds of the District). Each fund's portion of this pool is displayed on the balance sheet as "cash and investments" under each fund's caption.

Deposits

Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At June 30, 2024, the carrying amount of the deposits under District control was \$231,974,294 (which includes the restricted cash of \$61,799,028) and the bank balance was \$276,983,606. All of the District's deposits were covered by federal depository insurance or collateral held by the District or by its agent in the name of the District.

Investments

The District may purchase any investments allowed by the State Treasurer. These include (1) obligations of the United States Government or any agency or instrumentality thereof maturing and becoming payable not more than three years from the date of purchase, or (2) repurchase agreements, maturing and becoming payable within 90 days secured by U.S. Treasury obligations or obligations of U.S. Government agencies or instrumentalities of any maturity, as provided by law. As of June 30, 2024, the District had the following investments and maturities (which includes restricted investments of \$20,000,000).

	Fair		Investment Maturities					
Туре	Value	0 t	o 1 year	1 to 3	years			
External investment pools -MOSIP Commerce CD's MOCAAT CDAR	\$ 9,012 35,000,000 10,000,000		9,012 5,000,000 0,000,000	\$	- - -			
	\$ 45,009,012	\$ 4	5,009,012	\$	_			

Investments in external investment pools are stated at amortized cost, which approximates fair value. A separate financial report for the MOSIP external investment pool program can be obtained from PFM Asset Management LLC, 77 West Port Plaza Drive, Suite 220, St. Louis, Missouri 63146. The MOSIP program is exempt from regulatory oversight as it is a local Government Investment Pool.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, one of the ways the District manages its exposure to interest rate risk is by purchasing a combination of short-term and long-term investments and by timing cash flows from maturities so a portion of the portfolio is maturing and coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investment in MOSIP and MOCAAT are rated AAAm.

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond what is provided by law. Concentration of credit risk is required to be disclosed by the District for any single investment that represents 5% or more of the total investments (excluding investments issued or explicitly guaranteed by the U.S. government, investments in mutual funds, external investment pools and other pooled investments). At June 30, 2024, the District had no concentrations of credit risk required to be disclosed.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District does not have a formal policy regarding the custody of its cash and investments. As of June 30, 2024, the District had no concentrations of credit risk required to be disclosed.

Summary

The cash deposits and investments are summarized and presented in the financial statements as follows as of June 30, 2024:

Cash on hand	\$ 300
Carrying amount of deposits	231,974,294
Investments	45,009,012
	\$ 276,983,606
Cash and investments - governmental funds	\$ 183,129,611
Restricted cash and investments - governmental funds	81,799,028
Cash - proprietary funds	12,054,968
Total reporting entity	\$ 276,983,607

The District has funds invested in MOSIP. All funds in this program are invested in accordance with Section 165.061 RSMo. Each school district owns a pro rata share of each investment, which is held in the name of the Fund.

NOTE C | TAXES RECEIVABLE

Taxes receivable are as follows at June 30, 2024:

			9	Special		Debt	Ca	pital			
	General		R	Revenue		Service		ojects			
		Fund	Fund			Fund		Fund		Total	
Property taxes	\$	201,590	\$	374,865	\$	88,882	\$	8,462	\$	673,799	

There were no allowances for uncollectible receivables at June 30, 2024.

NOTE D | CAPITAL ASSETS

The following is a summary of changes occurring in capital assets for the year ended June 30, 2024:

		Balance								Balance

NOTE E | CHANGES IN LONG-TERM LIABILITIES

The following is a summary of changes occurring in long-term liabilities for the year ended June 30, 2024:

	Balance July 1, 2023	Additions	Reductions	Balance June 30, 2024	Amounts due within one year
Governmental activities					
Bonds payable					
General obligation bonds	\$ 303,365,000	\$ -	\$ (15,780,000)	\$ 287,585,000	\$ 15,435,000
Deferred amounts for					
issuance premium	19,187,582	-	(1,437,776)	17,749,806	-
Total bonds payable, net	322,552,582	-	(17,217,776)	305,334,806	15,435,000
Obligations under					
capital leases	118,607	-	(118,607)	-	-
Compensated absences	1,462,357	1,500,955	(1,462,357)	1,500,955	1,500,955
Total governmental activity long-term liabilities	\$ 324,133,546	\$ 1,500,955	\$ (18,798,740)	\$ 306,835,761	\$ 16,935,955

Payments on the general obligation bonds are made by the Debt Service Fund. The obligations under leases are paid by the General Fund or the Capital Projects Fund. The compensated absences will be liquidated by the fund in which the employee's salary was charged.

Bonds Payable

The District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities.

Bonds payable consist of the following at June 30, 2024:

				Original		Balance								
Date	Maturity	Rate of		Issue		at June 30,								
Issued	Date	Interest		Amount		Amount		Amount		Amount		Amount		2024
3/4/15	3/1/2025	1.50% - 5.00%	\$	27,080,000	\$	8,680,000								
3/25/15	3/1/2035	3.00% - 4.00%		50,000,000		50,000,000								
10/12/16	3/1/2036	2.125% - 3.00%		44,000,000		44,000,000								
4/9/19	3/1/2039	3.00% - 5.00%		55,000,000		50,690,000								
10/20/20	3/1/2040	1.250% - 5.00%		55,000,000		44,215,000								
4/19/23	3/1/2043	4.000% - 5.250%		90,000,000		90,000,000								
			,											
			\$	321,080,000	\$	287,585,000								

The annual requirements to amortize bonded debt outstanding as of June 30, 2024, are as follows:

		Principal		Principal Interest		Interest		 Total
Year ending June 30,								
2025	\$	15,435,000		\$	10,631,056	\$ 26,066,056		
2026		9,910,000			10,032,907	19,942,907		
2027		11,055,000			9,537,407	20,592,407		
2028		11,835,000			8,862,282	20,697,282		
2029		12,515,000			8,330,057	20,845,057		
2030-2034		77,430,000			34,100,261	111,530,261		
2035-2039		115,890,000			19,189,531	135,079,531		
2040-2043		33,515,000			2,359,276	35,874,276		
	\$	287,585,000		\$	103,042,777	\$ 390,627,777		

Legal Debt Margin

Article VI, Section 26(b), Constitution of Missouri, limits the outstanding amount of authorized general obligation bonds of a District to fifteen (15%) percent of the assessed valuation of the District (including State assessed railroad and utility). The legal debt margin, computed using assessed valuation of \$6,389,932,630 excluding the assessed valuation of State assessed railroad and utilities, of the District at June 30, 2024, was:

Constitutional debt limit	\$ 958,489,895
General obligation bonds payable	(287,585,000)
Amount available in Debt Service Fund	 29,150,345
Legal debt margin	\$ 700,055,240

NOTE F | RETIREMENT PLAN

Public School and Education Employee Retirement Systems of Missouri

The District contributes to the Public School Retirement System of Missouri (PSRS), a cost-sharing multiple-employer defined benefit pension plan.

Plan Description

PSRS is a mandatory cost-sharing multiple employer retirement system for all full-time certificated employees and certain part-time certificated employees of all public school districts in Missouri (except the school districts of St. Louis and Kansas City) and all public community colleges. PSRS also includes certificated employees of PSRS, Missouri State Teachers' Association, Missouri State High School Activities Association, and certain employees of the state of Missouri who elected to remain covered by PSRS under legislation enacted in 1986, 1987 and 1989.

The majority of PSRS members are exempt from Social Security contributions. In some instances, positions may be determined not to be exempt from Social Security contributions. Any PSRS member who is required to contribute to Social Security comes under the requirements of Section 169.070 (9) RSMo, known as the "two-thirds statute." PSRS members required to contribute to Social Security are required to contribute two-thirds of the approved PSRS contribution rate and their employer is required to match the contribution. The members' benefits are further calculated at two-thirds the normal benefit amount.

The Public Education Employee Retirement System (PEERS) is a mandatory cost-sharing multiple employer retirement system for all public school district employees in Missouri (except the school districts of St. Louis and Kansas City), employees of the Missouri Association of school administrators, and community college employees (except the Community College of St. Louis). Employees of covered districts who work 20 or more hours per week on a regular basis and who are not contributing members of the Public School Retirement System of Missouri (PSRS) must contribute to PEERS. Employees of the System who do not hold Missouri educator certificates also contribute to PEERS. PEERS was established as a trust fund by an Act of the Missouri General Assembly effective October 13, 1965. Statutes governing the System are found in Sections 169.600 - 169.715 and Sections 169.560-169.595 RSMo. The statutes place responsibility for the operation of PEERS on the Board of Trustees of the Public School Retirement System of Missouri.

Benefits Provided

PSRS is a defined benefit plan providing retirement, disability, and death/survivor benefits. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of 5 years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 2.5% benefit factor. Actuarially age-reduced benefits are available for members with five to 24.9 years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced

in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

PEERS is a defined benefit plan providing service retirement and disability benefits to its members. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of five years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 1.61% benefit factor. Members qualifying for "Rule of 80" or "30-and-out" are entitled to an additional temporary .8% benefit multiplier until reaching minimum Social Security age (currently age 62). Actuarially age-reduced retirement benefits are available with five to 24.9 years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

Summary Plan Descriptions detailing the provisions of the plans can be found on the Systems' website at www.psrs-peers.org.

Cost-of-Living Adjustments ("COLA")

If the June to June change in the Consumer Price Index for All Urban Consumers (CPI-U) is less than 2% for consecutive one-year periods, a cost-of-living increase of 2% will be granted when the cumulative increase is equal to or greater than 2%, at which point the cumulative increase in the CPI-U will be reset to zero. For the following year, the starting CPI-U will be based on the June value immediately preceding the January 1 at which the 2% cost-of-living increase is granted. If the June to June change in the CPI-U is greater than or equal to 2%, but less than 5%, a cost-of-living increase of 2% will be granted. If the June to June change in the CPI-U is greater than or equal to 5%, a cost-of-living increase of 5% will be granted. If the CPI decreases, no COLA is provided. For any PSRS member retiring on or after July 1, 2001, such adjustments commence on the second January after commencement of benefits and occur annually thereafter. For PEERS members, such adjustments commence on the fourth January after commencement of benefits and occur annually thereafter. The total of such increases may not exceed 80% of the original benefit for any member.

Contributions

PSRS members were required to contribute 14.5% of their annual covered salary during fiscal year 2022, 2023 and 2024. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 1% of pay.

PEERS members were required to contribute 6.86% of their annual covered salary during fiscal year 2022, 2023, and 2024. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 0.5% of pay.

The District's contributions to PSRS and PEERS were \$19,594,011 and \$2,638,907 respectively, for the year ended June 30, 2024.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At June 30, 2024, the District recorded a liability of \$203,662,339 for its proportionate share of PSRS' net pension liability and \$17,336,978 for its proportionate share of PEERS' net pension liability. In total, the District recorded net pension liabilities of \$220,999,317. The net pension liability for the plans in total was measured as of June 30, 2023 and determined by an actuarial valuation as of that date. The District's proportionate share of the total net pension liability was based on the ratio of its actual contributions paid to PSRS and PEERS of \$19,244,841 and \$2,535,392, respectively, for the year ended June 30, 2023, relative to the actual contributions of \$790,025,525 for PSRS and \$146,077,920 for PEERS from all participating employers. At June 30, 2023, the District's proportionate share was 2.4360% for PSRS and 1.7356% for PEERS.

For the year ended June 30, 2024, the District recognized pension expense (income) of (\$499,932) for PSRS and \$335,580 for PEERS, its proportionate share of the total pension expense. Pension expense is the change in the net pension liability from the previous reporting period to the current reporting period, less adjustments. This may be a negative expense (pension income).

At June 30, 2024, the District reported deferred outflows of resources from the following sources related to PSRS and PEERS pension benefits:

	Deferred Outflows of Resources						
Balance of Deferred Outflows due to:		PSRS		PEERS	District Total		
Differences between expected and actual experience	\$	33,421,304	\$	2,285,082	\$	35,706,386	
Changes in assumptions		6,921,524		91,385		7,012,909	
Net difference between projected and actual earnings on pension plan investments		12,426,798		1,210,084		13,636,882	
Changes in proportion and differences between employer contributions and proportionate share of contributions		1,282,087		-		1,282,087	
Employer contributions subsequent to the measurement date		19,594,011		2,638,907		22,232,918	
Total	\$	73,645,724	\$	6,225,458	\$	79,871,182	

At June 30, 2024, the District reported deferred inflows of resources from the following sources related to PSRS and PEERS pension benefits:

	Deferred Inflows of Resources							
Balance of Deferred Inflows due to:		PSRS		PEERS	District Total			
Differences between expected and actual experience	\$	1,328,885	\$	-	\$	1,328,885		
Changes in proportion and differences between employer contributions and proportionate share		7.004.000		1 270 705		0.244.204		
of contributions		7,964,609		1,279,785		9,244,394		
Total	\$	9,293,494	\$	1,279,785	\$	10,573,279		

Deferred outflows of resources to PSRS and PEERS resulting from contributions subsequent to the measurement date of June 30, 2023 will be recognized as a reduction to the net pension liability in the year ended June 30, 2025.

Other amounts reported as collective deferred (inflows)/outflows of resources are to be recognized annually in pension expense as follows for the year ending June 30;:

	PSRS	PEERS	Di	District Total		
2025	\$ 4,107,001	\$ 516,259	\$	4,623,260		
2026	(2,091,985)	(988,740)		(3,080,725)		
2027	36,565,687	2,529,763		39,095,450		
2028	5,864,031	249,483		6,113,514		
2029	313,485	-		313,485		
	\$ 44,758,219	\$ 2,306,765	\$	47,064,984		

Actuarial Assumptions

Actuarial valuations of the Systems involve assumptions about the probability of occurrence of events far into the future in order to estimate the reported amounts. Examples include assumptions about future employment, salary increases, and mortality. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Board of Trustees adopts actuarial assumptions, each of which individually represents a reasonable long-term estimate of anticipated experience for the Systems, derived from experience studies conducted every fifth year and from Board policies concerning investments and COLAs. The most recent comprehensive experience studies were completed in May 2021. All economic and demographic assumptions were reviewed and certain assumptions were updated, where appropriate, based on the results of the studies and effective with the June 30, 2021 valuation. Significant actuarial assumption and methods are detailed below. For additional information please refer to the Systems' Annual Comprehensive Financial Report (ACFR). The next experience studies are scheduled for 2026.

Significant actuarial assumptions and other inputs used to measure the total pension liability:

Measurement Date - June 30, 2023

<u>Valuation Date</u> – June 30, 2023

Expected Return on Investments – 7.30% net of investment expenses and including 2.00% inflation.

Inflation - 2.00%

<u>Total Payroll Growth PSRS</u> – 2.25% per annum consisting of 2.00% inflation, 0.125% real wage growth due to the inclusion of health care costs in pensionable earnings, and 0.125% of real wage growth due to productivity.

<u>Total Payroll Growth PEERS</u> – 2.50% per annum consisting of 2.00% inflation, 0.25% real wage growth due to the inclusion of health care costs in pensionable earnings, and 0.25% of real wage growth due to productivity.

<u>Future Salary Increases PSRS</u> – 2.625% - 8.875%, depending on service and including 2.00% inflation, 0.125% real wage growth due to the inclusion of health care costs in pension earnings, and 0.125% of real wage growth due to productivity, and real wage growth for merit.

<u>Future Salary Increases PEERS</u> – 3.25% - 9.75%, depending on service and including 2.00% inflation, 0.25% real wage growth due to the inclusion of health care costs in pension earnings, and 0.25% of real wage growth due to productivity, and real wage growth for merit.

Cost-of-Living Increases PSRS & PEERS – Given that the actual increase in the CPI-U index from June 2022 to June 2023 was 2.97%, the Board approved an actual cost-of-living adjustment (COLA) as of January 1, 2024 of 2.00%, in accordance with the Board's funding policy and Missouri statutes, compared to an assumed COLA of 2.00%. Future COLAs assumed in the valuation are 2.00% as of January 1, 2024 and 1.35% each January 1, thereafter. This COLA assumption is based on the 20-year stochastic analysis of inflation performed in the 2021 experience study, the application of the Board's COLA policy, and the short-term expectations of COLA due to recent CPI activity. It is also based on the current policy of the Board to grant a COLA on each January 1 as follows:

- If the June to June change in the CPI-U is less than 2% for consecutive one year periods, a cost-of-living increase of 2% will be granted when the cumulative increase is equal to or greater than 2%, at which point the cumulative increase in the CPI-U will be reset to zero. For the following year, the starting CPI-U will be based on the June value immediately preceding the January 1 at which the 2% cost-of-living increase is granted.
- If the June to June change in the CPI-U is greater than or equal to 2%, but less than 5%, a cost-of-living increase of 2% will be granted.
- If the June to June change in the CPI-U is greater than or equal to 5%, a cost-of-living increase of 5% will be granted.
- If the CPI decreases, no COLA is provided.

The COLA applies to service retirements and beneficiary annuities. The COLA does not apply to the benefits for in-service death payable to spouses (where the spouse is over age 60), and does not apply to the spouse with children pre-retirement death benefit, the dependent children pre-retirement death benefit, or the dependent parent death benefit. The total lifetime COLA cannot exceed 80% of the original benefit. PSRS members receive a COLA on the second January after retirement, while PEERS members receive a COLA on the fourth January after retirement.

Morality Assumption

Actives PSRS - Experience-adjusted Pub-2010 Teachers Mortality Table for Employees with generational projection using the MP-2020 improvement scale. Experience adjustments are equal to the healthy retiree experience-based adjustment factors at all ages for both males and females.

Actives PEERS - Experience- adjusted Pub-2010 General (Below-Median Income) Mortality Table for employees with generational projection using the MP-2020 improvement scale. Experience adjustments are equal to the healthy retiree experience-based factors at all ages for both males and females.

Nondisabled Retirees, Beneficiaries and Survivors PSRS - Mortality rates for non-disabled retirees and beneficiaries are based on the Pub-2010 Teachers Mortality Table for Healthy Retirees and the Pub-2010 Teachers Mortality Table for Contingent Survivors, respectively. The tables are projected generationally using the MP-2020 improvement scale and multiplied by the experience-based adjustment factors shown in the tables below at all ages for both males and females.

	Males	Females
Non-Disabled	1.10	1.04
Contingent Survivor	1.18	1.07

Nondisabled Retirees, Beneficiaries and Survivors PEERS - Mortality rates for non-disabled retirees and beneficiaries are based on the Pub-2010 General (Below-Median Income) Mortality Table for Healthy Retirees and the Pub-2010 General (Below-Median Income) Mortality Table for Contingent Survivors, respectively. The tables are projected generationally using the MP-2020 improvement scale and multiplied by the experience-based adjustment factors shown in the tables below at all ages for both males and females.

	Males	Females
Non-Disabled	1.13	0.94
Contingent Survivor	1.01	1.07

Disabled Retirees PSRS- Experience-adjusted Pub-2010 Teacher Disability Mortality Table, projected generationally using the MP-2020 improvement scale. Experience adjustments are equal to the health retiree experience-based adjustment factors at all ages for both males and females.

Disabled Retirees PEERS- Experience-adjusted Pub-2010 General Disability Mortality Table projected generationally using the MP-2020 improvement scale. Experience adjustments are equal to the healthy retiree experience-based adjustment factors at all ages for both males and females.

Changes in Actuarial Assumptions and Methods

For PSRS, the retirement rates assumption was updated for the June 30, 2023 valuation due to the passage of Senate Bill 75 (HCS/SS/SB 75), which added the 2.55% benefit formula multiplier for members that retire with 32 or more years of service. There have been no other changes to the actuarial assumptions and methods for PSRS or PEERS since the June 30, 2021 valuations, which included various assumption updates pursuant to the 2021 experience study. The next experience studies are scheduled

for 2026. Fiduciary Net Positions: The Systems issue a publicly available financial report that can be obtained at www.psrs-peers.org.

Expected Rate of Return

The long-term expected rate of return on investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, Selection of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed rate of return. The long-term expected rate of return on the Systems' investments was determined using a building-block method in which best-estimate ranges of expected future real rates of returns (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Systems' target allocation as of June 30, 2023 are summarized below.

		Long-term	
		Expected Real	
	Target Asset	Return Arithmetic	
Asset Class	Allocation	Basis	
U.S. Public Equity	23.00%	4.81%	
Hedged Assets	6.00%	2.39%	
Global Equity	16.00%	6.88%	
U.S. Treasuries	15.00%	-0.02%	
U.S. TIPS	0.00%	0.29%	
Public Credit	0.00%	0.80%	
Private Credit	8.00%	5.61%	
Private Equity	21.00%	10.90%	
Private Real Estate	11.00%	7.47%	
Total	100.00%		

Discount Rate

The long-term expected rate of return used to measure the total pension liability was 7.3% as of June 30, 2023 and is consistent with the long-term expected geometric return on plan investments. The actuarial assumed rate of return of 7.3% is consistent with the June 30, 2022 valuations and is based on the actuarial experience studies conducted during the 2021 fiscal year. The projection of cash flows used to determine the discount rate assumed that employer contributions would be made at the actuarially calculated rate computed in accordance with assumptions and methods stated in the funding policy adopted by the Board of Trustees, which requires payment of the normal cost and amortization of the unfunded actuarially accrued liability in level percent of employee payroll installments over 30 years utilizing a closed period, layered approach. Based on this assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Discount Rate Sensitivity

The sensitivity of the district's net pension liabilities to changes in the discount rate is presented below. The district's net pension liabilities calculated using the discount rate of 7.30% is presented as well as the net pension liabilities (assets) using a discount rate that is 1.0% lower (6.30%) or 1.0% higher (8.30%) than the current rate.

Discount Rate	1% Decrease 6.30%	Current Rate 7.30%	1% Increase 8.30%
Proportionate Share of the Net Position Liability / (Asset)			
PSRS	\$ 379,019,793	\$ 203,662,339	\$ 58,456,920
PEERS	\$ 32,913,801	\$ 17,336,978	\$ 4,343,305

NOTE G | OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Plan Description and Benefits Provided

In addition to providing the pension benefits described above, the District provides continuation of medical, dental and vision insurance coverage, including prescription drugs to employees who are eligible for normal or early retirement under PSRS or PEERS under a single employer plan. Retirees may cover spouses and eligible dependent children. Surviving spouses can continue coverage after retiree's death. The District does not have a trust for this plan, and the plan does not issue a standalone report. No assets are accumulated in a trust that meets all of the criteria in GASB Statement No. 75, paragraph 4.

Retirees who elect to participate must pay the premium in effect for the current plan year or any subsequent year at the premium rates in effect at that time. Since the retirees pay the premium for each year, the District's share of any premium cost is determined on the basis of a blended rate or implicit rate subsidy calculation.

Employees covered by benefit terms at January 1, 2024:

	Number	Average Age	Average Service
Actives	2,229	45.4	10.5
Inactive Plan Participants	589_	69.3	
Total	2,818		

Parkway C-2 School District NOTES TO BASIC FINANCIAL STATEMENTS June 30, 2024

Contributions

The District currently pays for the implicit rate subsidy associated with these postemployment health care benefits on a pay-as-you-go basis. The implicit rate is the difference between the calculated claims cost and the premiums paid by retirees. The District determines contribution requirements and may be amended by the District. For fiscal year 2024, claims paid for retirees totaled \$5,117,863. Retirees contributed \$3,714,601 through premiums, the remaining \$1,403,262 was paid by the District.

Total OPEB Liability

The District's total OPEB liability of \$31,518,966 was measured as of December 31, 2023, and the total liability used to calculate the total OPEB was determined by an actuarial valuation as of that date.

Actuarial Assumptions

<u>Inflation</u> – 2.50% long-term inflation

Discount Rate - 3.77%

<u>Mortality rates</u> – Pub-2010 Public Retirement Plans Teachers mortality table projected generationally with Scale MP-2021 for PSRS participants and Pub-2010 Public Retirement Plans General mortality table projected generationally with Scale MP-2021 for PEERS participants.

<u>Participation</u> - It is assumed that 45% of employees who retire prior to age 65 will elect medical coverage upon retirement and 50% will elect dental and vision coverage.

Actuarial cost method - Entry age normal

Changes in Total OPEB Liability

The components of the total OPEB liability of the District at June 30, 2024 are as follows:

	-	otal OPEB Liability
Balances at July 1, 2023	\$	30,702,245
Service cost		892,604
Interest		1,251,175
Difference between expected and actual experience		(754,974)
Employee contributions		3,714,601
Benefits paid		(5,117,863)
Changes in assumptions		831,178
Balances at June 30, 2024	\$	31,518,966

Parkway C-2 School District NOTES TO BASIC FINANCIAL STATEMENTS June 30, 2024

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower and 1 percentage point higher than the current discount rate.

	10	% Decrease		C	urrent Rate		1% Increase
		2.77%			3.77%	_	4.77%
			_				_
Total OPEB liability	\$	35,485,047		\$	31,518,966		\$ 28,149,961

Sensitivity of the NET OPEB Liability to Changes in the Health Care Cost Trends

The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a healthcare trend rate that is 1 percentage point lower and 1 percentage point higher than the current healthcare trend rate.

	10	% Decrease		Cu	rrent Rate		1	% Increase
		6.50%	_		7.50%	_		8.50%
		_	_					
Total OPEB liability	\$	27,844,817		\$	31,518,966		\$	35,917,831

OPEB Expense and Deferred Outflows of Resources Related to OPEB

For the year ended June 30, 2024, the District recognized OPEB expense of \$641,305.

Amounts reports as deferred outflows of resources, net of deferred inflows, related to OPEB will be recognized in OPEB expense as follows:

Year ending	Net C	utflows				
June 30	of Re	sources				
2025	\$	(893,304)				
2026		(750,468)				
2027	(1,311,483)				
2028	(1,054,937)				
2029		12,699				
Thereafter		-				
Total	\$ (3,997,493)				

NOTE H | RISK MANAGEMENT

<u>District Health Insurance Plan</u> – The District utilizes an internal service fund to account for the risks associated with the employees' health insurance plan. A premium is charged to each fund that accounts for employees' salaries based upon past trends in claims experience. Provisions are also made for unexpected and unusual claims.

Liabilities of the fund are recorded when it is probable that a loss has occurred and the amount of loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Claim liabilities are calculated based upon recent claim settlement trends. Settlements have not exceeded coverage for each of the past three fiscal years.

Changes in the balance of claims liabilities are as follows for the year ended June 30:

	<u>2024</u>	<u>2023</u>
Unpaid claims, beginning of year Incurred claims (including IBNRs) Claim payments	\$ 2,634,741 37,739,239 (37,428,204)	\$ 2,083,740 34,951,888 (34,400,887)
Unpaid claims, end of year	\$ 2,945,776	\$ 2,634,741

The District purchases specific reinsurance with an attachment point of \$350,000 annually, per employee, to limit its exposure to catastrophic claims. There have not been any significant reductions in insurance coverage from the prior year.

<u>District's Other Risk</u> – The District is exposed to various risks of loss related to theft, damage to and destruction of assets; errors and omissions; injuries to employees and natural disaster. To cover these risks, the District is a participant in the Missouri United School Insurance Council (the "Council") which is a Protected Self-Insurance Program of Missouri Public School Districts with 400 members. The District pays an assessment to the Council. Part of the assessment then goes to buy excess insurance contracts for the group as a whole. Should the contributions received by the Council not be sufficient, special assessments can be made to the member Districts.

NOTE I | COMMITMENTS AND CONTINGENCIES

Grants

The District received financial assistance from federal and state agencies in the form of grants. The disbursements of funds received under these programs generally require compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2024.

Parkway C-2 School District NOTES TO BASIC FINANCIAL STATEMENTS June 30, 2024

Litigation

The District is a party to legal proceedings. The District management is of the opinion that ultimate disposition of these claims will not have a material effect on the financial condition of the School District.

Contracts

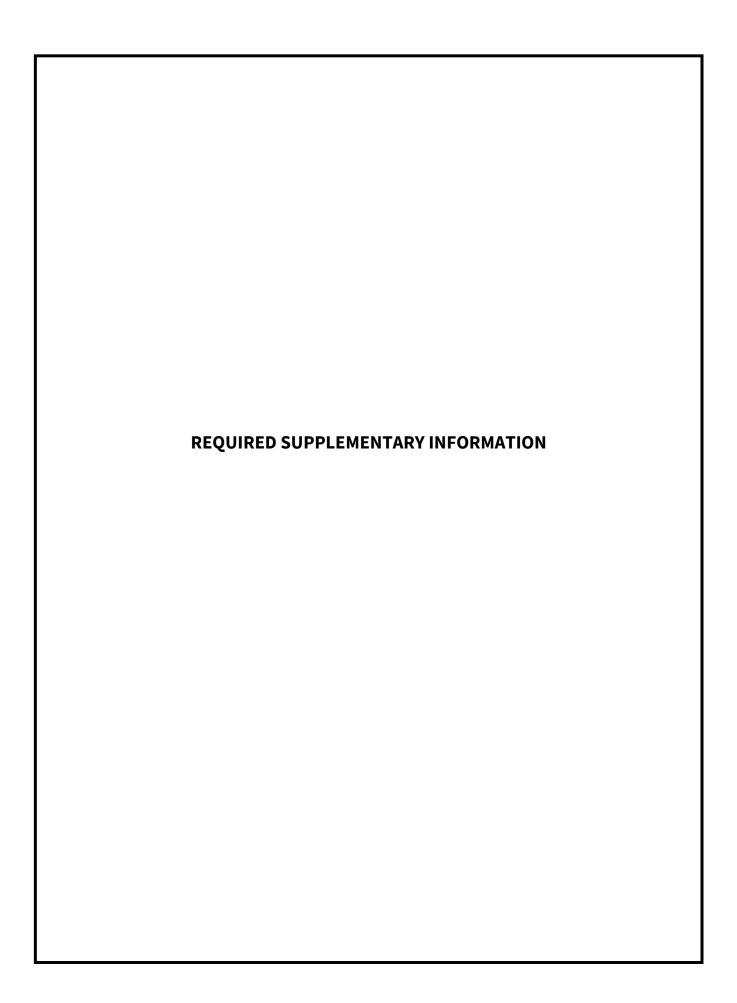

The District has entered into various contracts for building and grounds renovations and improvements which are included in the amount restricted for capital improvement in the fund financial statements.

Capital Commitments

The District's remaining commitment for uncompleted work under its construction contracts totaled \$27,926,363 million as of June 30, 2024.

NOTE J | TAX ABATEMENT DISCLOSURES

The District is subject to tax abatement agreements granted by St. Louis County and municipalities within the District. District property tax revenues were reduced by \$3,222,547, as a result of these abatements for year ended June 30, 2024. These tax abatements are considered immaterial to the overall financial statements.

Parkway C-2 School District NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2024

NOTE A | BUDGETS AND BUDGETARY ACCOUNTING

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. In accordance with Chapter 67 RSMo, the District adopts a budget for each fund.
- 2. Prior to July, the Superintendent, who serves as the budget officer, submits to the Board of Education a proposed budget for the fiscal year beginning on the following July 1. The proposed budget includes estimated revenues and proposed expenditures for all District funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year.
- 3. A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.
- 4. Prior to July 1, the budget is legally enacted by a vote of the Board of Education.
- 5. Subsequent to its formal approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by formal vote of the Board. For each fund, total fund expenditures may not legally exceed final amended budgeted expenditures. Expenditure appropriations lapse at the end of the fiscal year.
- 6. Budgets are presented on the modified accrual basis of accounting for all governmental funds.

Parkway C-2 School District SUMMARY OF STATISTICAL INFORMATION

This part of the District's annual comprehensive financial report presents detailed information as a context for understanding what the financial information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

and required supplementary information says about the District's overall financial health.	Pages
Financial Trends	62-68
These schedules contain trend information to help the reader understand how the District's financial performance and position have changed over time.	
Revenue Capacity	69-73
These schedules contain information to help the reader assess the District's most significant local revenue source – property tax.	
Debt Capacity	74-76
These schedules contain information to help the reader asses the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	
Demographic and Economic Information	77-78
These schedules offer demographic economic indicators to help the reader understand the environment within which the District's financial activities take place.	
Operating Information	79-82
These schedules contain service data to help the reader assess how information in the District's financial reports relates to the services the District provides and the activities it performs.	
Sources: Unless otherwise noted, the information in these schedules is derived	from the

comprehensive annual financial reports for the relevant year.

DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT JUNE 30, 2024

Taxing Body	Deb	ot Outstanding	Estimated Percentage Applicable	imated Share of Direct and rerlapping Debt
Direct				
Parkway School District	\$	287,585,000	100.00%	\$ 287,585,000
<u>Overlapping</u>				
St. Louis County		59,790,000	18%	10,937,185
City of Creve Coeur		7,525,000	21%	1,568,225
City of Manchester		13,020,000	9%	1,126,854
Fire District-Metro West		6,080,000	43%	2,643,100
Fire District-West County EMS		1,685,000	19%	 320,125
Subtotal of Overlapping Debt	\$	88,100,000		\$ 16,595,488
Total	\$	375,685,000		\$ 304,180,488

NOTE: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is endured by the residents and businesses of the District. Percentage of overlap is calculated by the Collector of Revenue's office as follows: For the purpose of determining the appropriate composite property tax rates, all properties are within areas defined by what are called school district sub-codes. Each sub-code accounts for what taxing districts have jurisdiction over a particular parcel, or property. Periodic ledgers comprising the total assessed values for each sub-code area are generated by County Revenue. Appropriate percentage overlap values have been selected from the appropriate ledger.
