

8/21/2019

Dear Parkway Elementary Families,

Welcome to the 2019-2020 School Year!

enVisionMath 2.0 (Pearson) continues to be used in each of our classrooms through the math workshop model. This program gives our students opportunities to engage in daily problem solving and has a good balance of conceptual development and practice to build mathematical fluency in our students.

With *enVisionMath 2.0* (Pearson), our students have the ability to log in from home. There are plenty of resources that families can tap into when accessing these online tools.

This year in order to log into Pearson (*enVisionMath 2.0*) from home students will use Clever.

- *Search Clever through Google**
- *Type your child's school**
- *Log in using your child's Parkway ID and password**

In addition, families can download a Pearson App from the *Apple Store* or *Google Play* called *Bounce Pages*. Bounce Pages allows students to hover a tablet or phone over a page from their workbook and it "bounces" the students to various resources from Pearson that can support their learning at home.

If you have any questions, please do not hesitate to ask.

Thanks,
Jennifer Abdel-Azim
Elementary Curriculum Coordinator of STEM and Math Intervention
